From the Director's Desk

Greetings Arizona sportsmen and women,

It gives me great pleasure to introduce the 2010–11 Arizona Hunting and Trapping Regulations to our many dedicated sportsmen and women – the original wildlife conservationists. For over 100 years, you have provided the primary source of revenue for conservation of all wildlife, including species for which you cannot hunt.

Given the abundant winter rain and snowfall, the 2010–11 hunting season has the potential to be one for the memory books. The mountain regions have plenty of water and forage, and our desert landscapes have flourished like we've not seen in years.

Here in Arizona, we are blessed with a diversity of wildlife species, from the magnificent elk to the unique Mearns' quail. It is my sincerest hope that the information inside helps open the doors to a lifetime of enjoyment, appreciation, and use of our bountiful wildlife resources.

Inside you will find nearly all the information you need to begin your hunting adventures, including how to apply for a hunt permit-tag through the draw (lottery system), application dates, season dates, bag limits, where to hunt, license requirements and much more.

I deliver these regulations along with a challenge. Hunting is a longstanding American tradition, but its future is not assured. To preserve it as a privilege for future generations, we must introduce new people to hunting and angling. Here's my challenge to you: Be it a son, daughter, friend, neighbor, or co-worker, introduce someone new to hunting or fishing this year.

For our youth hunters and their families, we continue to refine the Youth Opportunities section. This section consolidates all the juniors-only fall hunts in one place. Parents will find that many of these hunts overlap with standard holidays to accommodate their busy schedules.

Additionally, sportsmen's groups have committed to hosting more than two dozen hunting camps to teach first-time hunters and families how to hunt deer, elk, dove, rabbits and quail in a positive, safe, and educational atmosphere. *(Details are available under the Youth Opportunities section.)*

It's these types of positive influences that happen every day in the hunting community, many unrecognized, until now. New for 2010–11 is the Hunter Heritage Ethical Outdoorsman recognition program. It is a simple way to say "good job" to the fellow outdoorsman who lent a helping hand when you were stuck, or helped you pack out your game meat when it was raining. It includes a certificate and a window sticker. We are looking forward to celebrating the tremendous legacy of sportsmanship we share as hunters and anglers and trappers, through the recognition of ethical outdoorsmen in Arizona.

The real power to preserve our hunting heritage is in your hands – the active hunters, sportsmen's groups, conservation organizations, and partnerships. The boots-on-the-ground efforts of these groups continue to be the pillar of strength for our hunting heritage and wildlife.

The Department manages wildlife in the public trust for all of Arizona, but it is made possible by sportsmen and women. Enjoy your hunting traditions.

Hopi Trust Lands Hopi Trust Lands in Units 4A, 5A, and 5B are open to both state and Hopi hunters under an agreement with the Hopi Tribe. A percentage of tags are set aside for Hopi Tribal member hunters. Hunt numbers for these hunts must be obtained from the Hopi Tribe Wildlife and Ecosystems Management Program (refer to the notes associated with the individual hunts). If there are permit-tags leftover after the draw for these hunts, they will be available to everyone.

Leftover Tags Available at Department Offices There are now two methods to obtain a leftover tag. Paper applications will be accepted by mail only starting on Monday, Aug. 2 at 8 a.m. (MST). However, beginning on Monday, Aug. 9 at 8 a.m. (MST), hunters can also obtain a leftover tag in person with a completed application from any of the seven Arizona Game and Fish Department offices. A list of office locations is available on this page or at www.azgfd.gov/offices.

Mentored Hunting Camps The Arizona Game and Fish Department supports and promotes introducing youth and their family to the American tradition of hunting. Getting Started Checklist

Welcome to hunting in Arizona. If you don't know where you want to hunt, what you need, or even what you can hunt in Arizona, this section is for you. It is designed to help NEW hunters get started. Following is some basic information you should consider while planning your hunt. The best way for all hunters to prepare themselves to hunt in Arizona is to take a Department-sponsored hunter education course (see page 36).

□ Step 1. Where to Start

1. What animal(s) can you hunt?

- Small game: cottontail rabbit, tree squirrel, migratory game birds, and upland game birds like quail.
- Big game: black bear, bighorn sheep, buffalo, deer (mule and white-tailed), elk, javelina, mountain lion, pronghorn antelope, and turkey.
- Predator/furbearer: coyotes, skunks, foxes, raccoons, bobcat, ringtail, weasel, and badgers.
- Other birds and mammals.

2. Do you have a hunting license?

To hunt in Arizona, a license is required. Check out page 14 for a list of our hunting permit and license fees. You can purchase hunting licenses online at www.azgfd.gov. You can purchase licenses, tags, and/or stamps from any of our 340 license dealers (information is online at www.azgfd.gov), or Department offices statewide (see page 3 for office locations). For children ages 10-17, see Youth Opportunities, page 23.

3. Did you validate your license?

You must first sign your license. For some species you must also purchase a stamp or stamp privilege for the license to be valid. You will need a tag in addition to a valid license to hunt big game, sandhill cranes, and pheasants. You must also sign all tags before going afield for them to be valid.

□ Step 2. Where/When to Hunt

1. Where do you want to hunt?

Arizona is divided into Game Management Units (GMU or unit) composed of state, federal, military, and private land. Review the GMU maps and boundary descriptions (pages 83-89), and the "Where you can hunt section" (page 90) for more information.

2. When do you want to hunt?

There are several different seasons in which you can hunt a species. Go to individual species to determine their seasons.

□ Step 3. "To Apply or not to Apply?"

1. Don't Apply.

For most small game species, and all predator/furbearer and other birds and mammals you simply need a license and any required validations (for example: stamps) to hunt.

There are also several big game species that you may pursue simply by purchasing an over-the-counter nonpermit-tag in addition to your license. These hunts include archery turkey, mountain lion, fall bear, some archery deer and elk. Over-the-counter archery deer, mountain lion, buffalo, bear and bighorn sheep have mandatory reporting requirements, so check the information on the corresponding Commission Order.

2. Apply.

Permits for most big game species, sandhill crane, and pheasant are issued through a hunt drawing. If interested in hunting any of these species, you must apply for a tag in a drawing; refer to page 14 in this booklet or the appropriate supplement for specific information. The sample application form on page 18 will help you to apply for both a tag and license. Follow the instructions on the sample form and DON'T forget to include your correct fee(s).

□ Step 4. Do Your Homework

1. Common violations

Before you go hunting we recommend you read pages 100-101 to be aware of the most common violations. Also, take a look at the Arizona laws and rules beginning on page 104 to learn what you can and can't do in Arizona. If you are witness to a violation please call our Operation Game Thief hotline at 1-800-352-0700 to report the violation. You may be eligible for a cash reward.

2. Care/transport information

Before you go in the field, review our laws and rules to understand requirements to possess and transport wildlife after your hunt. Generally, you need to keep your license on your person and your tag affixed to your carcass at all times during transport. The Department has information available to properly care for your wildlife (see page 3 for regional office locations and phone numbers).

3. You're on your way!

These are just some basic steps to help you start your first hunt. Please read through the rest of the hunting and trapping regulations to better familiarize yourself with hunting in Arizona. If this section fails to answer your questions, contact any Arizona Game and Fish office or visit our website www.azgfd.gov.

Definitions

Big Game: Any of the following species: mule deer, white-tailed deer, pronghorn antelope, elk, turkey, javelina, bear, bighorn sheep, buffalo and mountain lion. All species require a hunt permit-tag, except for archery turkey, juniors turkey, fall bear, mountain lion and some archery deer; these species require a nonpermit-tag.

Big Game Drawing: A random computerized lottery drawing to determine issuance of hunt permit-tags. Three separate draws occur each year for various species.

Bonus Point: An accumulated credit that authorizes the Department to issue a Big Game Drawing applicant additional computer-generated random numbers during a draw.

Commission Order: A document adopted by the Commission that does any or all of the following: open, close, or alter seasons and open areas for taking wildlife; specify wildlife that may or may not be taken; set bag or possession limits for wildlife; or set the number of permits available for a hunt.

Department ID: A number used to identify the hunter by name and address, and to accumulate bonus points. A hunter may designate their social security number or a Department issued, computer-generated number.

Game Management Unit: An area established by the Commission for management purposes, commonly referred to as GMU or Unit (see maps on pages 83-89, and boundary definitions on page 109).

Genus: A major category in the classification of animals and plants ranking above the Species level and below the Family level.

HAM: Designates weapon type as handgun, archery, or muzzleloader.

Hunt numbers are assigned for any species where hunt permit-tags are issued through a drawing.

Hunt Permit-tag: A tag for a hunt in which a Commission Order has assigned a hunt number. The number of tags is limited by the Commission Order and may only be obtained through a random drawing. A hunt permit-tag along with a license authorizes an individual to hunt a designated species during the designated hunt.

Hunter Pool: A computerized database comprised of individuals wishing to be considered for a restricted nonpermit-tag when a supplemental hunt is authorized. Entry into the hunter pool consists of completing an application (page 60) and submitting it along with the application fee to the Department.

License Dealer: A business authorized to sell Arizona hunting, fishing, and other licenses and stamps.

Nonpermit-tag: A tag for a hunt in which a Commission Order does not assign a hunt number and the number of tags is not limited (over-the-counter tag). A nonpermit-tag along with a license authorizes a hunter to hunt certain game species. A nonpermit-tag may be purchased at Department offices or from licensed dealers.

Muzzleloading Handgun: A firearm intended to be fired from the hand, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Muzzleloading Rifle: A firearm intended to be fired from the shoulder, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Resident: A person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Season: The legally established time a species can be hunted.

Small Game: Any of the following species: cottontail rabbits, tree squirrels, upland game birds (quail, blue grouse, chukar partridge, and pheasants), and migratory game birds (doves, waterfowl, sandhill crane, coots, gallinules, snipe, and band-tailed pigeons).

Species: A naturally existing population of similar organisms that usually interbreed only among themselves.

Stamp: A form of authorization in addition to a license that allows the license holder to take wildlife specified by the stamp. The form of the stamp may be an actual stamp affixed to the back of the license, a printed privilege on the license itself, or a printed privilege on a separate license form.

Supplemental Hunt: A season established for a particular species by the Commission for the following purposes: take of depredating wildlife, take of wildlife under an Emergency Season, or take of wildlife under a population management hunt. The Commission through Commission Order shall approve a season or seasons and prescribe a maximum number of restricted nonpermit-tags for specific species that the Director may authorize for issuance.

Trapper Registration Number: A trapper's registered number shall be issued by the Department and entered upon the trapping license at the time of purchase. A trapper's registration number is not transferable. All traps shall plainly be identified with the trapper registration number or the trapper's name and address.

The North American Model of Wildlife Conservation

Did You Know?

The Arizona Game and Fish Department is responsible for wildlife management in the state and receives no state tax dollars. Hunters and anglers pay for wildlife conservation through their purchase of licenses, tags and stamps, and excise taxes on hunting and fishing gear. The conservation dollars paid by hunters and anglers benefit both game and nongame species and their habitats.

What Is It?

The North American Model of Wildlife Conservation is the world's most successful system of conservation. No other continent retains such a complete balance of native wildlife species. While other countries struggle to conserve the little they have left, we enjoy great diversity and abundance of wildlife. This user-pay-user-benefit model relies on sound science, public participation, active habitat management, strict regulation, and active law enforcement to sustain wildlife populations. The end result is a harvestable surplus of game species every year, and an opportunity for all to enjoy it.

A Renewable Resource

Sportsmen's Role in Wildlife Conservation

Whether one chooses to actively participate in hunting or angling, people interested in wildlife and its future should understand the conservation role sportsmen play. Hunters and anglers were the forward-thinking conservationists for the North American Model of Wildlife Conservation over a century ago and through their leadership have remained its leading proponent. Hunting and angling continue to be the primary source of funding for conservation efforts in North America. Through a 10 percent to 12 percent excise tax on hunting, angling and shooting sports equipment, hunters and anglers have generated more than \$10 billion toward wildlife conservation since 1937.

Sandhill cranes

Though past conservation efforts have focused on hunted species, non-hunted species reap the rewards as well. Countless numbers of non-hunted species have been saved from peril by protecting wetlands for ducks, forests for deer and grasslands for pronghorn.

If Hunting Ended

Hunters and anglers actively support wildlife conservation through tangible actions such as buying licenses and paying taxes on hunting and fishing equipment.

Why are hunters and anglers so willing to support conservation through their pocketbooks? Because people place added value on – and are willing to pay for – what they can use.

In some states, the number of hunting and fishing licenses sold has remained stable in recent years. But given the rate of human population growth, particularly in Western states, the percentage of people participating in hunting and fishing is actually decreasing.

There is no alternative funding system in place to replace the potential lost funds for conservation. If hunting ends, funding for conserving wildlife will be jeopardized.

To learn more about hunting or participate in the wildlife conservation movement led by hunters for more than a century, visit any Arizona Game and Fish Department office or visit www.azgfd.gov/hunting.

The North American Model of Wildlife Conservation

Arizona's Core Concepts

The North American Model of Wildlife Conservation is the foundation for wildlife conservation in Arizona and throughout the country. Hunters and anglers are its backbone. The Arizona Game and Fish Department's core concepts of the North American Model are:

Wildlife is held in the public trust

The public trust doctrine means that wildlife belongs to everyone. Through shared ownership and responsibility, opportunity is provided to all.

Regulated commerce in wildlife

Early laws banning commercial hunting and the sale of meat and hides ensure sustainability through regulation of harvest and regulating commerce of wildlife parts.

Hunting and angling opportunity for all

Opportunity to participate in hunting, angling and wildlife conservation is guaranteed for all in good standing, not by social status or privilege, financial capacity or land ownership. This concept ensures a broad base of financial support and advocacy for research, monitoring, habitat conservation and law enforcement.

Hunting and angling laws are created through public process

Hunting seasons, harvest limits and penalties imposed for violations are established through laws and regulations. Everyone has the opportunity to shape the laws and regulations applied in wildlife conservation.

Hunters and anglers fund conservation

Hunting and fishing license sales and excise taxes on hunting and fishing equipment pay for management of all wildlife, including wildlife species that are not hunted.

Wildlife is an international resource

Proper stewardship of wildlife and habitats is both a source of national pride and an opportunity to cooperate with other nations with whom we share natural resources. Cooperative management of migrating waterfowl is one example of successful international collaboration.

Science is the basis for wildlife policy

The limited use of wildlife as a renewable natural resource is based on sound science. We learn as we go, adapting our management strategies based on monitoring to achieve sustainability.

Scientific information gathered from animals, like this radio-collared elk, contribute to wise wildlife management decisions. Sportsmen's dollars help pay for wildlife research in the user-pay-user-benefit model of conservation.

The reward for this successful model of conservation is the opportunity for all.

Regulations for the taking of wildlife are forged through public input. Enforcement of these laws is critical to wildlife conservation.

Ethical hunting is everyone's business

"Ethics is not only about what you should not do, but what you should do. Offer to lend a hand to another hunter if they are retrieving downed game, share information on hunting conditions and engage in helpful conversation with beginners you happen to meet. Hunting is a heritage we all share, and together, we can continue to share it for generations to come."
– Brian Wakeling, Game Branch Chief, Arizona Game and Fish Department

What are Ethics?

Ethics generally relate to behavior issues involving fairness, respect and responsibility. Aldo Leopold once said "ethical behavior is doing the right thing when no one else is watching—even when doing the wrong thing is legal." They are the personal unwritten rules that we value. When we talk about an ethical hunter their behavior is an example of the sportsmanship they demonstrate in the field.

Ethics with Landowners

- Ask permission for access prior to the season if hunting on private property;
- Go out of your way to respect landowners and their property. Be courteous, visit with them, be thankful, offer assistance when necessary, or share your harvest with them;
- Leave the land better than you found it. Return all gates the way they were. Notify the landowner of any damage or repairs needed to fences that you find and offer your help;
- When "nature calls," walk away from roads and trails. Find a discrete location and bury the waste;
- Drive only on existing roads approved for use;
- Leave livestock and other property undisturbed.

Ethics with Other Hunters

- Follow safe firearms and bow handling practices at all times;
- Abide by game laws and regulations;
- Refrain from interfering with another hunter's hunt or campsite. If you see someone in that area, back out;

- If you meet up with another hunter in the field be polite engage in conversation and share information.
- A trophy is calculated not by score but by memories. Be respectful and congratulate others for their harvest, regardless of antler size.

Ethics with the Quarry

- Only take a well-placed shot in a vital area of the game species you are permitted to take;
- Know your limitations. Be mindful of your effective shot range. Avoid extreme distance shots, risky angles and situations where you do not feel confident in your shot. Strive for a quick, clean harvest;
- Select appropriate equipment for your quarry. Be aware of the equipment's limitations as well as your effective range. Take time to practice to ensure an accurate shot;
- Respect your personal capabilities under various conditions that you could potentially encounter during a hunt. Consider your general health, physical condition, weather and elevation in the area you plan to hunt. Be sure to hunt areas that are within your physical limitations.
- Bowhunters should keep in mind shots at greater distances may result in the quarry moving before the arrow reaches it. Kinetic energy is extremely important on larger game animals as energy is lost at longer distances which can result in wounded or lost game;
- Learn about the habits and habitat of the game species you are hunting;
- Make every possible effort to recover game;
- Adhere to the rules of fair chase;
- Follow up every shot at game with a search for sign. You cannot always tell immediately that an animal has been hit.

Ethics with Non-hunters

- Show respect for other users of the land and their property. They possess the same rights as you do to use the lands;
- Be courteous to non-hunters when transporting your game from the field. Transport animals discreetly;

- Don't leave remains of field dressing in places where it is easily visible. Respect other people that may be walking by;
- Clean up to the best of your ability before entering into a public place when returning from a hunt if you cannot change clothes. Present a professional image;
- Take tasteful photographs of your hunt;
- Invite someone new to come hunting with you.

Ethics with Waterholes

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access;
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first;
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt;
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present;
- Hanging a tree stand or setting a blind near a waterhole does not entitle a person to exclusive hunting rights to that waterhole. Depending on the location it may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.

Ethics about "First Come – First Serve"

"First Come – First Serve" is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or disorderly conduct can result in citations, arrests and/or jail time. Please refrain from confrontational behavior – ethical hunting is everyone's business.

Ethical Outdoorsman Recognition

The Arizona Game and Fish Department and the Hunting Heritage Workgroup are announcing the Ethical Outdoorsman Recognition Program. Outdoorsmen and women have sustained a tremendous legacy of promoting wildlife conservation and ethical enjoyment of natural resources. This program provides outdoorsmen and women the opportunity to recognize their peers for responsible stew-

ardship of Arizona's public and private lands, ethical behavior in the outdoors, or selfless acts of sportsmanship. We are excited to celebrate this tremendous legacy of sportsmanship with all of the citizens of Arizona through this recognition program.

Any outdoorsman or woman can be nominated for recognition. Forms are available online

at www.azgfd.gov/getoutside. A detailed description of the ethical or sportsman-like behavior is required on the nomination form. Forms can be submitted at any time and will be reviewed by members of the Hunting Heritage Workgroup. Recipients will receive a certificate and window sticker to proudly display "I Have Been Recognized as an Ethical Outdoorsman."

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Class H Three-Day Non-resident Hunting License nor an Apprentice Hunting License is valid for big game.

YOUNG HUNTERS – Anyone 14 years of age or older needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may take big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid hunt or combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags, nonpermit-tags and stamps.

Where to Buy Licenses

Arizona hunting licenses may be purchased online at www.azgfd.gov. Licenses also can be obtained from license dealers throughout the state or from any Arizona Game and Fish Department office (see locations on page 3 of this booklet).

A list of license dealers can be found at www.azgfd.gov by selecting the license box on the home page.

If you are applying for a big game draw or bonus points, you may purchase your general hunt or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until refunds and hunt permit-tags are mailed per the schedule on page 20. If you wish to use your license before the draw is complete, you must pre-purchase a license before applying. Although they are valid for a big game drawing

application, Family Licenses, Super Conservation Licenses, and Child General Hunting and Combination Licenses **may not be obtained through the draw**; these licenses must be purchased at Department offices.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

A resident is a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag, or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

Three-Day Non-Resident License

A Class H, Three-Day Non-resident license, valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, upland game birds and migratory game birds, except ducks, geese and swans is available at all license dealers. This license is not valid for hunting big game nor is it valid when applying for big game hunts through the draw process.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An apprentice hunting license is valid for two

days when the apprentice is accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice License. An apprentice may be a resident or nonresident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a bona fide resident of this state who is at least 18 years of age and must possess a class F, G, J, K, M or N license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield. Consult A.R.S. 17-333 for more information.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for a description of this permit. Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to new regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (304) 616-4550, or download an application from the ATF website at www.atf.treas.gov.

License Information

Tag Transfers

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children.

A parent, grandparent or legal guardian holding a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;

- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent's permit or tag, the grandparent, parent or the child's guardian must accompany the child in the field. In either case, the adult must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department office, the original permittee may no longer use it.

A person may also transfer his or her game tag for use by a child with a life threatening medical condition or a qualifying permanent physical disability. Consult A.R.S. 17-332 for more information, or visit www.azgfd.gov.

Should you be unable to use your big game

permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions or qualifying permanent physical disabilities. You may contact the following organizations to arrange for a donation.

- Hunt of a Lifetime at www.hoalarizona.org.
- Outdoor Experience 4 All at www.outdoorexperienceforall.org
- Catch-A-Dream at <http://catchadream.org>.
- United Special Sportsmen Alliance at www.childswish.com.

Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a

formula based on hunting license sales and the state's land area. In 2009, that meant over \$8.3 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world... thank you.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags. Nonpermit-tags may be purchased directly from Department offices or through license dealers.

Qualifications

Individuals wishing to participate in a drawing or to purchase bonus points must apply in writing using the Hunt Permit-Tag Application Form, and submit the form by the deadline specified in the Hunt Permit-tag Application Schedule found in the current year's hunt regulations.

Each applicant must possess a valid license for the year in which the hunt will take place or possess a lifetime, pioneer or disabled veteran's license. Non-resident Three-Day Class H licenses may not be used in applying for big game hunt permit-tags. **Youth applying for big game hunts must be licensed.** Applicants not licensed for the year in which the hunt will take place must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued to you and you will receive a refund for the other license fees submitted. The license will not be issued and mailed until refunds and hunt permit-tags are mailed per the schedule on page 20.

Applying For A Hunt

Paper applications for hunt permit-tags must be made on Hunt Permit-Tag Application Forms available at Department offices, website, and license dealers. Please use the current year's application form, that is WHITE in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply in one envelope. All applicants in a group must apply

for the same hunt number(s) and in the same order of preference on the same form.

No person, including juniors, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-Tag Application Form. Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Only a single application and the correct fees must be included in one (1) envelope. More than one (1) application in an envelope may result in rejection of all applications.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

Fees

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting license, if a license is requested. Be sure to enclose license fees on **each** application, if required, for each person who is applying on the application for

a hunting license. Only one license will be issued per person.

3. **Discounted hunt permit-tag fees are for "Juniors-Only" designated hunts. A youth must pay the higher fee unless applying only for "Juniors-Only" hunts.**

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application.

The permit and license fees are specified in the fee schedule on pages 14–15. The hunt permit-tag fees on page 14 include the non-refundable application fee.

Submitting Applications

Applications (except first-come, sandhill crane, and raptor applications) may be hand-delivered to Department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman or Yuma. Mailed applications must be sent only to the Department's Phoenix Office at P.O. Box 74020, Phoenix, AZ 85087-1052. On deadline days, Department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 7:00 p.m., (MST). Drop boxes are locked promptly at 7:00 p.m., (MST). All applications must be received by the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-Tag Application Schedule on page 20. Postmarks don't count.

Applications will be accepted as soon as the applicable year's hunt regulations are available. Please consult the current year's hunt regulations as unit areas and season dates may change each year.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens To My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

Draw Information

If there is an error that will result in the rejection of an application and the application is received by the Department on or before Thursday, May 27, 2010, we will make three attempts within a 24-hour period to notify you by telephone if a phone number is provided. If we are able to contact you by phone and our customer service representatives can correct the application at that time, they will do so and enter the application in the Draw. If an error cannot be corrected by phone, we will still attempt to notify you of the error and advise you to re-submit your application. The applicants may then prepare a new Hunt Permit-Tag Application Form, include the appropriate fees and re-apply by the scheduled deadline date.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What If I'm Not Drawn?

Please use one of the methods (telephone or Internet) listed on this page to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the

Hunt Permit-Tag Application Form. Application and license fees will not be refunded. You will not be issued or charged for more than one license.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded. A hunting license is required to apply in a drawing. If an application is rejected and a license has been requested, the license will not be issued.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 20.

Purchasing A Bonus Point Only

In the event you do not wish to participate in a big game drawing for deer, javelina, bighorn sheep or buffalo, but still wish to accumulate bonus points for these genera, you may "purchase a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may purchase

only one bonus point per genus per drawing.

To purchase a bonus point, the individual must be 10 years old by the deadline date as specified in the hunt permit-tag application schedule on page 20.

To purchase a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point purchase costs you only the license fee (if needed) and the \$7.50 application fee per applicant.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

Completing Your Paper Hunt Permit-tag Application Form

In order to participate in the draw you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 300 license dealers statewide, and as a downloadable PDF electronic document from the Department's website at www.azgfd.gov/draw. A list of dealers can be found on the Department's website. The use of the PDF form requires that the free Adobe Reader software be installed on your computer. The PDF form can be printed from your computer and then filled out using an ink pen or you can fill it out on your computer using your keyboard (this form does not alert you if an error is made). Once the form has been correctly filled out, it must be printed, signed and submitted by mail or dropped off at the Department along with a check or money order for the correct amount. There is no online draw application process – only paper application forms mailed or dropped off at a Department office are eligible for entry into the draw.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers circled on the SAMPLE form, use it to assist you in completing your form, which can be found online, at any license dealer or Department office.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. YOU CANNOT MIX

In order to participate in the draw, you must have or apply for a license. If you are not licensed at the time you submit your Hunt Permit-tag Application Form, you must apply for a license on each application you submit by completing the license portion of the application form. The license fee must be included with each application. See the applicable hunt regulations for license fees.									

HUNT SERIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES. You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. You may only apply for either a bonus point or a valid hunt number for any genus, NOT both.

2 Enter your correct date of birth (mm/dd/yyyy).

3 Enter your Social Security Number. In accordance with Federal Requirement, 42 U.S.C. Section 666 (A)(13) and A.R.S. 25-320 (P) and 25-502 (K), you **must** provide your valid Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. Any invalid SSN will result in rejection of the application. If you are not a U.S. citizen you must write "NOT

US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number prior to submitting and enter it on the application. See #6. You may obtain a Department issued ID number by calling (602) 942-3000 during business hours.

4 Check the appropriate resident or non-resident box. Resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application, or a member of the Armed Forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

5 Enter your valid Arizona hunting license number for the year in which the hunt for which you are applying occurs. The hunting license number consists of two letters and six numbers. You may purchase a license through the draw by completing the License Applica-

tion Form at the bottom of the application and submitting payment with each of your applications if you are not licensed.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is for those individuals who choose to use a Department issued I.D. Number instead of a social security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department. You **must** still provide a valid SSN even if you provide a valid Department I.D. Number. See #3.

7 Enter your correct full name (last name first), your P.O. Box or home mailing address, city, state and zip code.

8 The Department will make three attempts within a 24-hour period to notify you of errors that will result in the rejection of your application if the application

is received on or before Thursday, May 27, 2010. If you wish to participate in this service, please list a telephone number where you can be reached. You are not required to enter your telephone number.

9 Each individual applying, or an appointed individual, must sign the appropriate application section.

that you have been a resident of Arizona. (See page 18, Completing Your Hunt Permit-Tag Application Form, # 4, to determine if you qualify.) No entry is required here for a non-resident applicant.

16 Check the box next to the license type which you wish to purchase. **If you are requesting a license on more than one application, you must specify the same class of license on each application and include the license fee with each application. You will not be issued or charged for more than one license.** If you are not licensed for the year in which the hunt will occur, you must complete the License Application Form for each genus applied for and include payment for a license with each application. If you are drawn for more than one genus, only one license will be issued in your name. If you are not drawn, you will be refunded only the hunt permit-tag fee. You must possess or purchase a license to participate in a drawing or to purchase a bonus point. No refunds will be issued for license or application fees if you apply in a drawing and are unsuccessful in the drawing. **If you do not check the box next to the license type you wish to purchase, your application will be rejected.**

Wildland Fire

Wildland fire can be a strong and frightening enemy, a destructive force, a devastating foe.

A Friend, A Foe

Fire is eternal and essential. Whether friend or foe, wildland fire is a part of nature.

Within minutes, wildfire can race up a mountain, down a gully, over a ridge. Homes can be burned, wildlife habitat scorched, ancient rock art and other remnants of history can be damaged.

Or, it can be a powerful friend and ally.

Fire recycles nutrients, helps some native trees reproduce and nourishes soil. Fire can remove thick, unhealthy vegetation, reducing the chance of fire that endangers citizens and firefighters and threatens communities.

HOW TO BE SURE YOUR CAMPFIRE IS OUT!

1) DROWN IT WITH WATER. MAKE SURE ALL EMBERS, COAL, AND STICKS ARE WET. MOVE ROCKS, THERE MAY BE BURNING EMBERS UNDERNEATH THEM.

2) STIR. ADD MORE WATER AND STIR AGAIN. BE SURE ALL BURNING MATERIAL HAS BEEN EXTINGUISHED AND COOLED.

3) FEEL ALL STICKS AND CHARRED MATERIALS. FEEL THE COALS AND ASHES. MAKE SURE NO ROOTS ARE BURNING.

NO WATER? USE DIRT. MIX ENOUGH SOIL OR SAND WITH EMBERS AND THE FIRE WILL GO OUT. CONTINUE ADDING AND STIRRING UNTIL ALL MATERIAL IS COLD ENOUGH TO FEEL WITH YOUR BARE HAND.

DON'T JUST BURY IT - IT MAY SMOLDER AND BREAK OUT AGAIN.

YOUTH

OPPORTUNITIES

Welcome to the Youth Opportunity section in the Arizona Game and Fish Department's Hunting and Trapping Regulations. This section is designed to teach youth what they need to know about hunting: how to get started; what hunts are available for youth; and what licenses are required. We also included some fun stuff just for kids. We want to make hunting an enjoyable experience for Arizona's youth. For more information visit www.azgfd.gov.

In this section:

- ✓ Youth hunting opportunities..... 24
- ✓ Game Camps, Scholastic Clays and Archery..... 24
- ✓ Word Jumble..... 25
- ✓ Shooting Ranges..... 25
- ✓ Hunt Camp Dates..... 26
- ✓ Specific "Juniors-Only" hunts..... 28-33
- ✓ "What is a junior?"..... 34
- ✓ License and tag requirements..... 34
- ✓ Age/Eligibility chart..... 35

Arizona provides many opportunities for youth to get involved in hunting. There are specific Juniors-Only hunts, hunter education courses, hunt camps, archery and sporting clays programs. You will find information about these opportunities in this section.

Special Youth Opportunities

Robbins Butte Dove Hunt

Robbins Butte Wildlife Area (RBWA) is about seven miles southwest of Buckeye and comprises over 1600 acres. RBWA was purchased for its potential as waterfowl habitat. Three ponds were built in 1952 and by 1957 an estimated 30,000 ducks used these ponds. However, increased demand for agricultural water coupled with invasion of salt cedar trees led to dramatic waterfowl declines by 1960.

In response, the Department purchased the adjacent Black Butte Farm to expand RBWA. This land contained some of the last pristine honey mesquite bosque remaining along the lower Gila River. This acquisition protected the bosque, and provided cultivated grain crops for small game. The combination of wildlife food crops, natural foods and nesting habitat now attracts a combined average of 5,000 breeding white-winged and mourning doves each year.

A portion of RBWA is managed strictly for junior hunters. The “juniors only” hunt in early September gives hunters a chance to pursue doves without adult competition. Hunters under the age of 14 may hunt without a license when accompanied by a licensed adult (each adult can bring up to two young hunters). Shooting locations are assigned on a first-come, first-served basis. Participants must check in prior to hunting and check out when finished. Plan to arrive by 4:30 a.m. for a safety briefing. Afterward, visit the check-in tables and enjoy a free breakfast provided by the Chandler Rod and Gun Club. Oh, and don't forget to bring plenty of shells. This area can produce lots of chances to fill your bag. Please refer to the current Dove and Band-tailed Pigeon Regulations for specific season dates.

Pheasant Hunt

Arizona's top hunter education graduates are randomly drawn each year for the AZGFD Youth Pheasant Hunt. While taking a hunter education class instructors identify their top students and submit them for this ran-

dom drawing conducted in December. About 500 kids are nominated each year and only 80 lucky hunters are drawn and invited to participate in an all expense paid youth pheasant hunt in Prescott Valley. The event is sponsored by the Arizona State Chapter of Safari Club International, the National Wild Turkey Federation and the Arizona Wildlife Conservation Council.

Young hunters shoot sporting clays and trap as well as hunt behind top quality pointing dogs that look for pheasants. It's an exciting moment when a cackling rooster pheasant takes flight in front of the young hunters.

A scrumptious lunch is provided for everyone as well as a class on how to prepare rooster pheasants for the home table. This has proved to be a very positive event for both parents and young hunters. By attending Arizona's top-notch hunter education class maybe your young hunter might be one of the lucky ones drawn next year.

Game Camps, Scholastic Clays and Archery

Game Camps

The Arizona Game and Fish Department offers camps on hunting basics to individuals who are interested in hunting but may not know where to start. These hands-on workshops teach the skills necessary to successfully pursue the variety of small game found in Arizona. Both adults and youths are invited to participate. The camps include instruction and the opportunity to interact with experienced mentors and other camp participants. Attendees will learn information on firearm safety, hunting opportunities, game care, archery instruction and more. There will also be hands-on hunting opportunities. A schedule of upcoming camps will be announced at www.azgfd.gov/getoutside.

Scholastic Clay Target Program (SCTP)

The Arizona Game and Fish Department Scholastic Clay Target Program is a team-based youth development program that uses the shotgun sports

to instill discipline, safety, teamwork, ethics, self-confidence and other life values. Team members can participate in any or all three clay target disciplines: trap, skeet and sporting clays. For more information, contact the Shooting Sports coordinator at (623) 236-7305 or visit www.azgfd.gov and select Outdoor Recreation then Shooting Sports.

Archery in the Schools Program (AIS)

The Arizona Game and Fish Department offers a popular Archery in the Schools Program based on a national physical education curriculum introduced in 2003. The core content covers archery, history, safety, techniques, equipment, mental concentration and self-improvement. In addition, the curriculum provides interesting and creative possibilities for integration with core content in social studies, mathematics, visual arts, history and English/language arts. The program provides school PE programs with training, equipment and curriculum, to introduce youth to archery. For more information, contact the Archery coordinator at (623) 236-7233.

Shooting Ranges

Shooting facilities provide a safe environment to practice for upcoming hunting seasons. Shooting ranges provide shooters with many benefits, including controlled settings, training and education. At a range, shooters at any skill level can practice, sight-in firearms, receive instruction and discover communities of like-minded enthusiasts.

The Where to Shoot website (www.wheretoshoot.org) provides easy access to target shooting and hunting facilities. Simply specify a state to view all ranges within that state, or narrow the search by area code or zip code.

Hunt Camps

Sign up for a Hunt Camp or Juniors-only Event

The Arizona Game and Fish Department supports and promotes introducing children to the American tradition of hunting. It is important that the next generation learns how hunting plays a significant role in the conservation and management of wildlife. The Department offers a wide variety of juniors-only hunting and shooting programs. These programs are designed to get children in the field with a parent, guardian, or mentor who can focus completely on the child, and provide the guidance needed to teach the next generation of hunters and stewards how to be responsible and ethical conservationists.

New to Hunting?

The Department also understands the need to offer opportunities for first-time hunters. In a collaborative effort with sportsmen's groups, gun clubs and conservation organizations to offer first-time hunters an experience to learn about hunting, here is a list of upcoming events. This list is not all-inclusive. Please visit www.azgfd.gov/getoutside for additional camp dates and updated information.

Applications for these hunts must be submitted to the Arizona Game and Fish Department by the published deadline.

When weather is deemed severe, the core roads may also be closed to prevent excessive road damage, provide for public safety, and protect natural resources. Roads that have been closed are closed to all users. Hunters should respect and obey road closures and drive responsibly during wet periods. It is recommended that hunters contact the appropriate Forest Service office to determine current road status for their hunt area (see the Index: Hunting on Public Lands).

Who is a Junior?

There are several different categories of “Junior” in Arizona. All of the definitions are listed here:

- A person under 14 may hunt wildlife other than big game without a license when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.
- No one under the age of 14 may take big game without having completed a hunter education course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10-13 years of age must have in their possession a valid hunting license, a valid Hunter Education Course completion card, plus any required permit tags or stamps.

- Trapping: A trapper under the age of 14 is not required to purchase a trapping license, but shall obtain a registration number from any Department office before taking wildlife with a trap. A trapper’s registration number is not transferable.
- Anyone up to and throughout the calendar year of their 20th birthday may purchase a youth combination hunting and fishing license.

JUNIORS-ONLY HUNTS: Eligible hunters: Persons are eligible to participate up to and throughout the calendar year of their 17th birthday, provided that persons between the ages of 10-13 have satisfactorily completed a hunter education course that is approved by the Director as per A.R.S. 17-335 (C).

License, Tag Requirements

See special youth prices on pages 14–15.

Regular Hunts: Junior Eligibility

The Arizona Game and Fish Department is providing this section on juniors-only hunting to highlight the hunts for which hunters have exclusive application opportunity. Some of these hunts have reduced fees. But juniors are not only limited to these hunts. **Juniors may apply for other season hunts (beginning on page 40), but must include the higher fees when applying.** If a junior chooses to apply with an adult, they are not eligible to apply for hunts of the same species listed in the juniors-only seasons.

Transfer Tags

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children.

A parent, grandparent or legal guardian holding a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;
- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent’s permit or tag, the grandparent, parent or the child’s guardian must accompany the child in the field. In either case, the adult must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department office, the original permittee may no longer use it.

A person may also transfer his or her game tag for use by a child with a life threatening medical condition or a qualifying permanent physical disability. Consult A.R.S. 17-332 on page 105.

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions or qualifying permanent physical disabilities. You may contact the following organizations to arrange for a donation.

- Outdoor Experience 4 All at www.outdoorexperienceforall.org

Hunter Education

Hunter Education programs across the country are designed to continue the hunting heritage by developing safe, responsible, ethical and knowledgeable hunters. Hunting is a hallowed family tradition that teaches respect for life, each other and nature. It teaches accountability and responsibility. If you are a new hunter, or want to learn about wildlife conservation, the environment, firearms and gun safety, our hunter education courses can help. The program will also benefit experienced people who want to become more proficient hunters and conservationists. While hunter safety is the program focus, hunter ethics, wildlife management, survival, and other important topics are also covered. Hunting is safe, and community and family sustaining. Enroll your family in our hunter education program today. For more information, visit www.azgfd.gov or call (623) 236-7235 or (623) 236-7219.

Course information

Everyone that is at least 10 years old is encouraged to participate in a Department hunter education course. Taught by volunteer instructors, a modest fee to offset student expenses for ammunition and other materials is usually assessed at the first class. The Department offers

an introductory beginners course requiring approximately 9 hours in the class room with a field day consisting of another 4 to 6 hours. The Department also offers an independent study online hunter education course. Just like the classroom courses however, a final (proctored)

exam will be required prior to course graduation. More detailed classes are also available requiring approximately 20 hours, along with a combination course for bow hunters that is approximately 28 hours. These class room courses are generally offered during weekends and week nights across the state with the field day conducted at a local shooting range.

At a minimum, subjects covered include an introduction to hunter education and conservation as well as topics such as:

- Safety, responsibility, hunter education funding sources.
- Behaviors of a responsible hunter, preventing accidents, planning and preparation, clothing, topographic maps and compasses, survival skills, coping with weather related conditions and basic first aid.
- Wildlife conservation, the hunter's role in wildlife conservation, habitat management, wildlife identification.
- Basic hunting and shooting skills, good marksmanship and accuracy, dominant eye, sight alignment, sighting-in a rifle, rifle firing techniques, shooting positions, shotgun shooting, hunting strategies, vital shots and approaching downed game, field care of game, hunter responsibility and ethics, the five stages of hunter development, North American Model of Wildlife Conservation and market hunting.
- Arizona's Hunting Regulations – Develop an understanding of the most often violated Arizona game laws, rules and regulations.

While there is no requirement for hunters to wear orange in Arizona; the department STRONGLY suggests that all hunters adopt this valuable safety precaution to help others see and identify them in the field.

10 Commandments of Hunting Safety and TAB +1

1. **T**reat every firearm as if it were loaded! It might be, even if you think it isn't!
2. **A**lways keep the muzzle in a safe direction. Keep control of the direction of the muzzle at all times.
3. **B**e sure of the target and beyond. Be aware of what is in front of the target. Know the identifying features of the game you hunt. Make sure you have an adequate backstop – don't shoot at a flat, hard surface or water.
4. **+1** Keep your finger outside the trigger guard until ready to shoot. This is the best way to prevent an accidental discharge.
5. Check your barrel and ammunition. Make sure the barrel and action are clear of obstructions, and carry only the proper ammunition for your firearm.
6. Unload firearm when not in use. Leave action open; carry firearm in a case and unloaded to and from the shooting area.
7. Point a firearm only at something you intend to shoot. Avoid all horseplay with a gun.
8. Don't run, jump, or climb with a loaded firearm. Unload a firearm before you climb a fence or tree, or jump a ditch. Pull a firearm toward you by the butt, not the muzzle.
9. Store firearms and ammunition separately and safely. Store each in secured locations beyond the reach of children and careless adults.
10. Avoid alcoholic beverages before and during shooting. Also avoid mind- or behavior-altering medicines or drugs.

Arizona's top hunter education graduates are randomly drawn each year for the AZGFD Youth Pheasant Hunt. While taking a hunter education class, instructors identify their top students and submit them for this random drawing conducted in December. Upcoming classroom hunter education course information can be found at www.azgfd.gov. All classroom hunter safety education courses are taught by Arizona Game and Fish Department certified volunteer instructors.

Hunters Need To Be Prepared

Failing to prepare can lead to injury and death. The cost of the average search and rescue mission can range from \$1,500 to \$4,000 and some searches that are extended operations or require a lot of air support may reach into the tens of thousands of dollars. Hunters should be prepared for any conditions they may face during their hunt. Below are some tips and a list of equipment that should help hunters have a more enjoyable trip.

Essentials

- Water
- Extra Food
- Clothing for both night and day
- Fire source
- Pocket knife
- Space blanket
- Flashlight/ headlamp
- First aid kit
- Cell phone
- Maps and navigational device
- Signal device
- Radio (FRS type radios)
- Rope / shoe lace
- Water purification tablets or device

Tips

- Planning ahead; inform family/friends of trip location & return time, be familiar with geographical area, environmental conditions (weather)
- Be prepared to spend the night out in the wild
- Have a plan to pack game out
- Do not depend on cell phones
- Be familiar with how to use maps and navigation device

Motorized Game Retrieval

Motorized game retrieval is prohibited in many areas around Arizona. Hunters should be aware of rules and regulations for the area they plan to hunt. Hunters should be prepared for retrieving their downed game without the use of motorized vehicles. Alternative options include horseback, backpack, and game carriers with or without wheels, depending on land status.

Welcome to Big Game Hunting in Arizona

Arizona has 10 species of wildlife designated as big game by state statute: mule deer, white-tailed deer, pronghorn, elk, turkey, javelina, bighorn sheep, buffalo, bear, and mountain lion. If you also consider that Arizona is occupied by two recognized subspecies of bighorn sheep (Rocky Mountain and desert) and three subspecies of turkeys (Gould's, Merriam's and Rio Grande), there is ample evidence of the diversity of Arizona's big game, and the opportunities a hunter has to pursue. While the diverse habitats in Arizona are home to a lot of different species, no individual species is particularly numerous. Consequently, most big game hunts have a limited number of permits for which you must be drawn to participate.

Elk and pronghorn application information was provided earlier this year. In fact, the draw for elk and pronghorn is complete and you should know if you received one of these tags.

This knowledge should help you determine if you wish to participate in another hunt, and if so, for which deer, turkey, javelina, bighorn sheep, and buffalo hunts to apply.

The Arizona Game and Fish Commission again authorized fall javelina permits for junior hunters this year. If a junior hunter didn't take a javelina in the spring, that hunter is eligible to apply for these hunts. Junior hunters may wish to apply for a javelina hunt that will complement another deer hunt in which they may participate in this fall. Juniors-only deer hunters in selected units (see juniors-only deer hunts on page 28) will also be provided the opportunity to purchase over-the-counter companion javelina tags, allowing these hunters to hunt for deer and javelina at the same time. These hunts are excellent ways to introduce a junior hunter to big game hunting.

Compared with last year, deer and turkey hunting opportunity has moderately increased

throughout the state, while bighorn sheep tags have substantially increased. Junior turkey hunters may purchase a turkey tag over the counter and hunt in any unit listed in the Juniors-Only section.

The Commission authorized the continuation of the population management seasons for buffalo in Unit 12A. If you are fortunate enough to be drawn for deer in Unit 12A, you will have the opportunity to purchase a buffalo permit to harvest one of these animals. Keep in mind, these restricted nonpermit tags are offered in areas where the named wildlife are not abundant, so your chances of success are small.

So peruse these pages, and select the seasons that meet your desires. Good luck in the draw. Should you need any assistance, feel free to contact any Department office (see contact information on page 3).

Draw Cycles

The Arizona Game and Fish Department conducts three separate application and draw cycles for big game hunt permit-tags. 2007 was the first year the Department held a separate draw for pronghorn ante-

lope and elk. This change was made to let hunters know earlier if they have been drawn for these two popular big game animals. The three draw cycles are:

SPECIES	DRAW DEADLINE
Pronghorn antelope, elk	Second Tuesday in February (pending Commission approval)
Deer, fall turkey, fall javelina, bighorn sheep, fall buffalo, pheasant	Second Tuesday in June (pending Commission approval)
Spring javelina, spring bear, spring turkey, spring buffalo	Second Tuesday in October (pending Commission approval)

Tag Required	Hunt Permit-tag obtained only through application and draw process as prescribed in R12-4-104 and R12-4-114. EXCEPT for some Archery-Only deer, a hunt nonpermit-tag must be obtained from a license dealer as prescribed in R12-4-114.
Hunt Numbers Required	When applying for big game hunt permit-tags, you must use hunt numbers.
Legal Methods of Take	General Hunt: Any firearm, bow and arrow, or crossbow as prescribed in R12-4-304. Muzzleloader Hunt: Muzzleloader weapons as prescribed in R12-4-101 and R12-4-318, crossbow or bow and arrow as prescribed in R12-4-304. Archery-Only Hunt: Bow and arrow as prescribed in R12-4-304 and R12-4-318 and/or crossbow as allowed under R12-4-216.
Legal Animal Definition	Antlered means having an antler fully erupted through the skin and capable of being shed, as defined in R12-4-101.
Bag Limit	One (1) deer per calendar year, except as prescribed in R12-4-120.

*To hunt deer in Arizona, you need a valid hunting or combination license and a deer tag. To hunt deer during a General, Juniors-Only, Muzzleloader or Archery-Only season, you must apply through a draw for a hunt permit-tag. For Archery-Only Nonpermit Tag hunts, you may purchase a nonpermit-tag from a license dealer as prescribed in R12-4-114. **If a person is applying for a Juniors-Only hunt and a regular hunt on the same application, the higher of the tag fees must be enclosed.***

Archery deer hunters, except those issued a hunt permit-tag through the draw process, must contact the Arizona Game and Fish Department office in person, or by telephone (1-866-903-DEER [3337]) within 10 days of taking a deer (pursuant to R12-4-308). Those issued hunt permit-tags through the draw process will receive, in the mail, a hunter questionnaire to complete and return.

The U.S. Forest Service is concerned about road damage occurring during periods of very wet weather. To prevent road damage, provide for public safety, and protect natural resources, the Forest Service may temporarily close some of its roads to motor vehicle use when soils are saturated and damage is occurring. Hunters should call the appropriate Forest Service office in which their hunt occurs or visit the Forest Service website at www.fs.fed.us/r3 and choose the forest they will be visiting. Once there, go to the current conditions page for the latest road information.

Hunters can assist CWD monitoring

The Arizona Game and Fish Department is asking for hunter assistance in monitoring for chronic wasting disease (CWD), a wildlife disease that is fatal to deer, elk and moose. No evidence has been found to indicate CWD affects humans. The disease has not been found in Arizona, but it is in three neighboring states – Colorado, Utah and New Mexico. The Department needs to collect lymph nodes from 1,500 deer and elk heads this hunting season to test for presence of the disease.

How you can assist:

Bring in the head of your recently harvested deer or elk to any Game and Fish Department office between the hours of 8 a.m. and 5 p.m., Monday through Friday (Office addresses are listed on page 3). Hunters who are successful in Game Management Units 1, 12B, 27, and 28 are especially encouraged to submit heads because these units border either Utah or New Mexico, and deer and elk from these areas of the state have the greatest potential for initial detection of CWD. While it is only mandatory to bring animals harvested from Units 12AE and 12AW to the Kaibab check station, hunters may also bring animals harvested from other units for CWD sampling during the regular hours of operation.

It is best to either bring in the head within a day of harvest or keep it on ice in a cooler before delivery. Place the head in a heavy plastic garbage bag for delivery, and keep it cool and out of the sun, if possible. You will be asked to fill out a form with your drop-off. Please include the following information: county and game management unit in which the animal was harvested, hunt and permit number, and an address and phone number where you can be reached. The Department will be unable to test the head if this information is not provided. Should a harvested animal test positive, the hunter will be notified by phone as soon as the results are provided by the lab. Results will be available via the Arizona Game and Fish website and in addition, you will be notified of the test results by postcard within six to eight weeks. There is no charge for the testing and notification.

Safe handling tips:

- Always wear gloves when skinning wildlife or processing game meat.
- In addition, if the animal is a carnivore or rodent consider wearing a mask for protection against plague and rabies.
- Always wash your hands after handling dead or live wildlife.
- Report carcass abnormalities and observations of sick wildlife to the appropriate regional office or to the Department's Wildlife Health program (623) 236-7351.

The Annual Female Harvest Limit is comprised of any female bear killed by a hunter or the Department. Refer to the table on the previous page for the Annual Female Harvest Limit by unit.
11. The area within the fenced enclosure inside the loop formed by Tonto National Forest Road 647, also known as the Walnut Canyon Enclosure, is open to public entry and the taking of bear during open season.

Legalities of Picking Up Wildlife Parts

Contact the Arizona Game and Fish Department prior to picking up wildlife parts found afield (other than shed antlers). Arizona law requires evidence of legality when possessing or transporting wildlife carcasses or their parts.

For further information on mountain lions, their habitat, range, natural history, or where you can hunt them in Arizona, please visit www.azgfd.gov.

LEGAL REQUIREMENTS

License Required	Any valid hunting or combination license EXCEPT a Three-Day Hunting (Class H) (See tables on pages 14–15 for Resident and Non-resident license fees).
Tag Required	A hunt nonpermit-tag must be obtained from a license dealer as prescribed in R12-4-114.
Legal Methods of Take	General Hunt: Any firearm or bow and arrow as prescribed in R12-4-304. Archery-Only Hunt: Bow and arrow as prescribed in R12-4-304 and R12-4-318 and/or crossbow as allowed under R12-4-216.
Bag Limit	One (1) mountain lion per calendar year statewide. In units with a multiple bag limit, hunters may take one (1) mountain lion per day until the multiple bag limit is reached. Once the multiple bag limit has been reached, the season will remain open and revert to calendar year bag limit of one (1) mountain lion. Mountain lions taken under the one (1) per day multiple bag limit do not apply towards the calendar year bag limit until the multiple bag limit is reached.

To hunt mountain lion in Arizona, you need a valid hunting or combination license and a mountain lion tag. To hunt mountain lion in any season, you must obtain a hunt nonpermit-tag from a license dealer as prescribed in R12-4-114.

As prescribed in R12-4-308, all hunters must contact an Arizona Game and Fish Department office in person or by telephone at 1-877-438-0447 within 48 hours of taking a lion. The report shall include the hunter's name, hunting license number, tag number, sex of the lion taken, management unit where the lion was taken, and telephone number at which the hunter can be reached to obtain additional information. Within 10 days of taking a lion, the hunter shall present the lions skull, hide, and attached proof of sex for inspection. If a hunter freezes the skull or hide before presenting it for inspection, the hunter shall prop the jaw open to allow access to the teeth and ensure that the attached proof of sex is identifiable and accessible (pursuant to R12-4-308). A premolar tooth and a DNA sample will be taken from the lion during the inspection. Successful hunters are encouraged to contact the nearest Department office by telephone to coordinate inspections.

Hunters may encounter mountain lions wearing radio collars around Flagstaff, Prescott, Payson, Tucson, and western Maricopa County. The lions instrumented with these collars are part of several ongoing research projects. The collars are used to track lion movements as researchers try to learn how the lions use various habitat types and urban interface areas. The longevity of these lions is important to the ongoing research, and data collected will help to improve Arizona's management of lions in the future. If you would like more information about any of these research efforts please contact the Arizona Game and Fish Department Research Branch at (623) 236-7247. Also, if one of these animals is harvested, the hunter is asked to return the collar, as well as any other marking device, such as an ear tag, to a Department office or officer when doing the required physical check-in of the carcass parts.

MOUNTAIN LION SPECIAL NOTE: *In accordance with R12-4-305(H), an individual may retain the carcass of a lion taken under A.R.S. 17-302 when the season is closed.*

Illegal Marijuana Gardens

Illegal marijuana gardens have become a concern in the backcountries of Arizona. Multi-agency law enforcement task forces have been developed to help address this problem. These task forces are asking for help from hunters and other outdoor recreationalists in locating new or established growing locations. Things to look for are black irrigation pipe, stockpiles of fertilizer and insecticides, solar panels, dammed creeks or springs, and food trash piles in remote canyons. The gardens are always found in the vicinity of a water source and are usually well off the beaten path. If you encounter a suspected marijuana garden, it's advisable to leave the area immediately and contact local law enforcement authorities.

Population Management Hunts

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (page 114).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department

Dec. 31, 2010. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).

- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$7.50 application fee (note: one \$7.50 application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department

will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.

- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

Condor Country: Why Non-lead Ammunition?

Hunters are helping

In the past three years, 80 percent to 90 percent of hunters have participated in the Department's voluntary lead reduction program by using non-lead ammunition or removing gut piles from the field in the condor's core range.

The hunting community should be proud of this accomplishment, but we still need more hunters to help. Please help us prove to our critics that we can solve this problem on our own and that mandatory measures are not needed.

Hunters who use non-lead ammunition in condor range carry on sportsmen's proud tradition of wildlife conservation. If you choose to use lead ammunition, you can still help by removing your entire game carcass (including small game and varmints) and gut pile from the field. Local landfills accept and bury animal remains.

Hunters praise non-lead bullets

Copper bullets have superior penetration, are less toxic, and do not fragment like lead. 93 percent of hunters say that non-lead bullets perform as well as or better than lead bullets on game.

The Arizona Game and Fish Department and our partners ask you to be part of the solution by using non-lead ammunition when hunting in condor country (Game Management Units 9, 10, 12A, 12B, 13A, and 13B).

These sportsmen's groups ask you to use non-lead ammunition in condor range:

- Arizona Deer Association
- Arizona Elk Society
- Arizona Antelope Foundation
- Arizona Desert Bighorn Sheep Society
- Arizona Chapter of the National Wild Turkey Federation

Hunters drawn for hunts in condor range will be mailed more information before their hunt.

CHRIS PARIS/H/PEREGRINE FUND

Lead poisoning is the leading cause of death in condors and the main obstacle to a self-sustaining condor population in Arizona. At least 15 condors have died from lead poisoning and over 400 cases of lead exposure have been documented since 1999.

Lead bullet fragments remain in game carcasses and gut piles left in the field by hunters. These X-rays show hundreds of lead fragments (fragments appear bright white in X-ray) in a deer carcass and gut pile. Condors are group feeders, so several birds can ingest fragments from one carcass or gut pile containing lead.

Studies have concluded that lead shot and bullet fragments found in game carcasses and gut piles are the main source of lead in condors. To read these studies and for more info on non-lead ammunition and the condor program, visit: www.azgfd.gov/condor.

X-ray of a lead and non-lead bullet shot into ballistics gel. Even with no hide or bone, the lead bullet fragmented significantly (fragments are black in X-ray). All visible fragments are from the lead bullet. The copper bullet left no fragments in the gel.

Mexican Wolf Blue Range Reintroduction Project

Hunters have played a significant role over the past 100 years in recovering and reestablishing wildlife populations across our country, ranging from white-tailed deer to wild turkey to Canada geese. The Arizona Game and Fish Department is asking hunters to step up once again to assist in recovering a wildlife species to its historic range in east-central Arizona.

If you are hunting this year in Unit 1 or 27 or surrounding areas, please be aware that Mexican wolves may be present. Over the past several years numerous wolves have been illegally shot, causing significant setbacks to the reintroduction project. It's possible that many of these shootings were cases of mistaken identity—that the shooter believed the target was a coyote. It can be

difficult to distinguish wolves from coyotes, especially if the light is bad, the sighting is brief, the animal is far away, if it's a juvenile wolf or a wolf in its summer coat.

Please read the following identification material and become familiar with the regulations regarding interactions with Mexican wolves.

Arizona Game and Fish Department

Helping wolves, humans coexist

Mexican wolves are protected under the Endangered Species Act. However, you may legally harass a wolf without injuring it, but you must report the incident within seven days. You may also legally harass, injure or kill a wolf in defense of human life but you must report it within 24 hours. Keep in mind that few people have had to frighten Mexican wolves away, and no one has been injured by one. Most report that hearing or seeing wolves has not affected the success of their hunt and say a sighting has actually added to the quality of their outdoor experience.

You may not legally kill or injure a wolf just because it is near you; kill or injure a wolf that attacks your hunting dog or pet; kill or injure a wolf that is in the act of killing, wounding or biting your horses, mules or any pack animals on public land; enter official closures around occupied release pens, active dens and rendezvous sites; shoot a wolf because

you thought it was a coyote or something else. Coyote hunters should exercise extra caution July to November because wolf pups are active, and their appearance and behavior make them appear like coyotes. You are responsible for identifying your target before shooting. Violations of these rules may subject you to prosecution. Criminal penalties may be imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000.

If you have any questions regarding wolves, visit www.azgfd.gov/wolf.

Ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if people at campgrounds feed wolves.

If a wolf should approach you, raise your arms and look as big as possible. Yell or

throw rocks to scare it away. Back away slowly – never run.

Some other tips

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Keep pets close to you. Do not leave them unattended or allow to run free.
- Never feed wildlife – including wolves.

Welcome to Small Game Hunting in Arizona

SMALL GAME HUNTERS IN ARIZONA are very fortunate. Few other places in North America offer such a wide variety of hunting opportunities over such long periods of time. Within this section are the season dates, bag limits, and other pertinent information necessary to hunt small game and other wildlife. The 2010–11 hunting season promises to be a good one for the small game hunter. The winter of 2009-10 brought exceptional precipitation. This bodes well for Gambel's quail, scaled quail and cottontail rabbit hunters. This summer's monsoon rainfall will determine Mearns' quail production. With the right amount of precipi-

tation there are plenty of adult Mearns' in the field following last years' season to ensure another good year.

Winter precipitation does not always benefit all small game. This is true with tree squirrels such as the Abert's squirrel. Again, a prolonged snow pack has covered most of central and northern Arizona's ponderosa pine forest. Though good for the habitat, when the forest floor is covered with snow for an extended period of time the overall survival rate of Abert's squirrel decreases as they are forced to feed on less nutritious pine stems. The overall number of

tree squirrels will most likely decline from last year and the hunting forecast for tree squirrels will be less than average.

How about spending time pursuing Arizona's "bigger three" upland game birds? Chukars, blue grouse, and pheasants each offer their own unique challenges for the small game hunter.

As with any season or upcoming hunt make sure to do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov.

Where, When and How Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 40-80). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** manages 16 percent of the state. Call (602) 417-9200 for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 113) delineates the rights and privileges of sportsmen and landowners or operators as regards state lands. Note that "State Land - No Trespassing" signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see

R12-4-110, paragraph I, page 113. The State Land Department is at (602) 542-4621.

- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 115.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See below for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 83-89 show hunt unit boundaries, which are described in detail in R12-4-108 on page 109. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 40-80).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 117). For special requirements in state wildlife areas, see R12-4-802 (page 122).

ROADS AND VEHICLES - It is illegal to take wildlife or to discharge a firearm or shoot any other device from a vehicle. A vehicle is any device designed to carry a person - all terrain vehicles, utility terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. (Requirements for waterfowl are different - see Migratory Bird Regulations.)

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Loaded weapons may be carried only in hunting zones when actually hunting. A loaded weapon is defined as ANY round in the weapon, including the magazine.
2. Weapons in the vehicle must be unloaded and cased.
3. Target shooting or the discharge of a weapon except to hunt is not permitted.
4. Motorized vehicles may operate on designated public roadways **only** and must be "street legal" ie. licensed, insured and equipped to operate on state highways.
5. Pits, permanent blinds and stands; trail or scouting cameras; and baiting are prohibited.
6. The use or possession of alcoholic beverages while hunting is prohibited.

7. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day's hunt.

8. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

More information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge at:

Wilderness Areas

The Wilderness Act of 1984 and the Desert Wilderness Act of 1990 designated large portions of Arizona as wilderness. Hunters should be aware that this may influence their hunt. Except where specifically permitted, all forms of motorized travel are prohibited. Hunters should be prepared for remote and primitive conditions. For additional information regarding wilderness restrictions, hunters should contact the Bureau of Land Management, the U.S. Fish and Wildlife Service, or the U.S. Forest Service, as appropriate for the area of interest.

Shooting Within City Limits

Arizona State Law (A.R.S. § 13-3107) prohibits discharge of firearms in the incorporated limits of any municipality unless excepted by local ordinance. In addition, some city or town ordinances also prohibit discharge of other implements. Check with your local police Department for information before shooting inside incorporated limits.

State Trust Land

This is the sign used to delineate the boundaries of the state trust lands for hunters, anglers, and

trappers. Some of the older signs may still be posted. However, the new sign as shown below, should be followed by sportsmen as it effectively replaces the older state trust land sign.

Tree Stands and Blinds

Tree stands and blinds can be effective and legal tools to aid in the taking of wildlife. However, please take into consideration the following before hanging a tree stand or setting a blind:

- It may be unlawful to cut any trees or branches while hanging tree stands or setting blinds.
- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. You may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation. Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a privilege, not a right. Your actions may be the

Where, When and How Can You Hunt?

determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Homeland Security

Homeland security issues along the international border may affect the quality of a person's hunt. Call 1 (800) BE-ALERT to report suspicious activity.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Trapping

Trapping on private land is legal in Arizona, with seasons generally running from November through February. All traps must be inspected daily. It is illegal to disturb traps or trapped animals without permission of the trap owner. If you must disturb a trap, for example to release your own dog, leave the trap where you found it. See Trapping Commission Orders on page 80 and A.R.S. 17-301D.

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within 10 days.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big game habitat is found on Forest Service lands, the Department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a vehicle, both of which are illegal. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301.B on page 104.

It is illegal to use an aircraft to pursue, shoot,

hunt or otherwise take wildlife. See R12-4-319 on page 121.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 28-33 and pages 40-80). Seasons for all wildlife are closed unless specifically opened by Commission Order. Special restrictions apply on state wildlife areas (see R12-4-802, pages 122), as well as at certain times on parks, refuges and similar areas (see Hunting on Public Lands in the Index, page 126).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 99) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, page 117. Other time requirements apply for migratory birds (see Migratory Bird Regulations).

Operation Game Thief: Wildlife's Answer to Dialing 911

Arizona Game and Fish
GAME THIEF
OPERATION
1-800-352-0700

Call to report a violation or visit:
www.azgfd.gov/thief

Poachers are a serious threat to Arizona's wildlife. They contribute nothing, yet every animal they take deprives hunters and non-hunters alike of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$8,000 may be offered upon arrest in certain cases. Poachers are a "Mutiny on your Bounty" so please help us put them out of business.

License Revocations and Civil Assessments

The Arizona Game and Fish Commission has the authority to revoke an individual's privilege to take wildlife. It also can bring a civil action against the individual to reimburse the State for the value of any unlawfully taken wildlife. For repeat offenders, the Commission may revoke a person's license to take wildlife for the rest of his or her life. Civil values vary depending on the species of wildlife taken and the size. The current civil assessment for trophy class wildlife starts at \$8,000.

Poachers are Thieves, Help Stop Poaching

– Minimum Rewards –

- \$350** Elk, bighorn sheep, eagles, buffalo, endangered species
- \$250** Deer, antelope, bear, lion, turkey, javelina
- Up to \$150** Beaver, geese, raptors, ducks, small game, nongame birds, fish

A maximum of \$8,000 can be offered for information about major violations, repeat offenders and commercial poachers. You need not appear in court or give out your name. Upon the arrest of a violator, a reward may be paid to you in such a manner that you will remain anonymous.

– Other Rewards Of \$50–\$8,000 –

In addition, several sportsmen's groups provide reward monies which allow payment ranging from \$50 to \$8,000 in cases where under state law Operation Game Thief is not able to pay. Nevertheless, the rewards are for cases where the tip was provided originally through Operation Game Thief. Decisions on these are made in consultation with the boards of these organizations:

Arizona Antelope Foundation, Arizona Bowhunters Association, Arizona Elk Society, Tucson Rod and Gun Club, Arizona Desert Bighorn Sheep Society, Arizona Bowhunters and Field Archers Association, Arizona Muzzleloading Association, Central Arizona Bow-hunters, Western Bowhunters Association, Sportsman's Voice, Phoenix Varmint Callers, Arizona Trapper's Association, North American Bear Society, Sportsman's Gun Club, Tucson Chapter of Safari Club International, Phoenix Chapter of Safari Club International, Arizona Chapter of the National Wild Turkey Federation, and the Arizona Deer Association.

The Arizona Houndsmen have offered a reward up to \$5,000. Please see page 99.

Operation Game Thief Needs Your Help

A majority of cases were initiated by concerned sportsmen, such as you, making a call on the Operation Game Thief hotline. You can and do make a difference! If you witness a violation the following information will assist us during our investigation.

What is the violation?

Where did it occur? Be as specific as possible. It is necessary that our officers return to the site.

When did it occur?

Specific violator/vehicle information. What did the individual look like and what were they wearing? What make, model, and color vehicle were they driving? Record the license plate if possible and, if they left, the direction of travel.

Your name and telephone number. Although this is optional, the number of cases that are actually prosecuted from anonymous tips is very low. This is simply because most people do not know the type of information needed to successfully charge and prosecute a violation. Our officers want to talk with you and will guarantee that no one knows your name. We also want to give you a reward for the information you provided if an arrest is made in the case. Each year we pay out thousands of dollars in reward payments to concerned sportsmen. In calendar year 2009, more than \$14,000 was paid in rewards.

Off-Highway Vehicles

The use of off-highway vehicles (OHVs), specifically all-terrain vehicles (ATVs, UTVs), by hunters is growing. The Arizona Game and Fish Department's Off-Highway Vehicle Program promotes responsible and safe use of off-highway vehicles.

OHV rules and laws:

- No one may use a motor vehicle to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit, R12-4-217).
- An off-highway vehicle may only be used as a means of travel. It is unlawful to shoot from any OHV, to shoot across, near or from any railroad or roadway.
- It is unlawful to chase or harrass any wildlife with a motorized vehicle.
- Cross-country travel is illegal in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.) Always check with the land management agency. Stay on roads and trails.
- As of Jan. 1, 2009, you are required to display the OHV Decal on your vehicle if it meets the two following requirements:
 1. It is made by the manufacturer primarily for travel over unimproved terrain **and**
 2. Has an unladen weight of 1,800 pounds or less(If you have a "street legal" vehicle and you meet these requirements you will also need the OHV decal)
- As of July 1, 2009, all OHVs are required to have a certificate of title. You can obtain a title from the Arizona Department of Transportation Motor Vehicle Division (MVD).
- Anyone under 18 riding **on** an OHV or ATV is required by law to wear a properly fitted and fastened U.S. Department of Transportation approved helmet. For safety reasons, it's recommended that riders under 18 riding **in** a UTV also wear a helmet.
- All OHVs are required to have a USDA approved spark arrestor device.
- All OHVs are required to have either a muffler or other noise dissipative device that prevents sound above 96 decibels.
- It is unlawful to drive an OHV on roads, trails, routes or areas marked closed by any land management agency or private land owner.
- A person from out-of-state may operate an OHV in Arizona if all of the following apply:
 1. The person is not a resident of this state **and**
 2. The person owns the vehicle **and**
 3. The vehicle displays a current OHV sticker/decal/title/registration from the person's state of residence **and**
 4. the vehicle is not in this state for more than 30 consecutive days
- If you witness habitat damage or vandalism, report it at 1-800-VAN-DALS (826-3257).

- Call Operation Game Thief at 1-800-352-0700 to report wildlife-related violations.

Tips for OHV users:

- Always remember: Nature Rules! Stay on roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.
- It is your responsibility to know applicable OHV laws.
- If traveling across country to retrieve game, do so with such care so that your use is low impact and will not be viewed as a new road by other users.
- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone numbers to federal and state land management agencies are on pages 90-93.

Firearms safety:

- When carrying a rifle or shotgun on an ATV, it should be unloaded and put in a case that is firmly attached to the vehicle.
- It is unsafe to carry a rifle or shotgun mounted on the handlebars of an ATV. The firearm could be wider than the ATV, causing an increase in the chance that the firearm could hit something and lead to loss of control.
- Don't forget T.A.B. +1 – **T**reat every gun as if it were loaded, **A**lways point the muzzle in a safe direction, and **B**e sure of your target and beyond. **+1** Keep your finger outside the trigger guard until ready to shoot.

Jaguars: Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling (623) 236-7573.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

Contact the Department About Damaged Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the Department, however many also are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest Department office at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

Thank you in advance for your support of Arizona's wildlife.

Common Violations While Hunting Big Game, Small Game And Migratory Birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 1 (800) 352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Take Wildlife Without A License

(A.R.S. 17-331) Page 105

In order to take any wildlife in Arizona, you must have a current year's hunting license in your possession. You should check your license every time that you go hunting, fishing or collecting. Also, you should sign your license and tag before hunting.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 17) Page 105

Any wildlife that is unlawfully taken, may not be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 15 and 16) Page 105

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Improper Tagging of Big Game

(R12-4-302) Page 117

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 106

Only persons who have been a bona fide resident (pages 13 and 104) of Arizona for a minimum of six months, or members of the Armed Forces stationed in Arizona for a mini-

mum of 30 days, may obtain resident licenses and permits. Factors that may establish residency would include most, if not all of the following: a resident is considered to be someone who primarily or permanently resides in Arizona, possesses an Arizona drivers license and registers their vehicles in Arizona, maintains a home in Arizona, votes in Arizona and pays Arizona resident income taxes. A person cannot be considered a resident of two states at the same time.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11 and 17-301 A) Page 105 and Page 104

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by Commission Order. Pay particular attention to 1/2 day dove seasons and review the Commission

License Revocation

(A.R.S. 17-340) Page 106

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking, selling, bartering or possession of wildlife
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock or crops while hunting or fishing
- acts of vandalism or littering while hunting or fishing
- knowingly allowing another person to use your big game tag
- unlawful entry on to closed area for purposes of taking wildlife
- unlawful posting of state or federal lands
- license fraud
- unlawful use of aircraft to take wildlife
- waste of game meat
- guiding without a license

Additional convictions may result in license privileges being revoked for longer periods up to permanently.

Civil Liability

(A.R.S. 17-314) Page 105

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums (updated annually factoring in the current Consumer Price Index):

For each turkey or javelina.....	\$500.00
For each bear, mountain lion, antelope or deer, other than trophy	\$1,500.00
For each elk or eagle, other than trophy or endangered species	\$2,500.00
For each predatory, fur-bearing or nongame animal	\$250.00
For each small game or aquatic wildlife animal	\$50.00
For each trophy or endangered species animal	\$8,000.00

Common Violations While Hunting Big Game, Small Game And Migratory Birds

orders related to the species you are pursuing before leaving home. Use of spotlights to locate game is illegal if you have any weapons in your vehicle. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing. Examples are leaving all ammunition, arrows and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 104 and 121

No person may take wildlife from a motor vehicle (including watercraft and aircraft), except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off

moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Take Wildlife With Prohibited Device or By An Unlawful Method

(A.R.S. 17-301.A; 17-309.A 6,10,19, and 21) Page 104 and Page 105

(R-12-4-303) Page 117, and (R-12-4-304) Page 117

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take wildlife with a semi-automatic rifle with a magazine that holds more than 5 rounds. It is unlawful to take migratory game birds with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 105

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of

the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 105

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

Shoot Across Road

(A.R.S. 17-301 B) Page 104

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

 2. For genera that have multiple draws within a single calendar year, an individual who successfully draws a hunt permit-tag during an earlier season may apply for a later season for the same genus if the individual has not taken the bag limit for that genus during a preceding hunt in the same calendar year.
 3. If the bag limit is more than one per calendar year, an individual may apply as specified in the hunt permit-tag application schedule published annually by the Department for remaining hunt permit-tags in unfilled hunt areas.

License fees submitted with a valid application for a bonus point shall not be refunded.
- R. If the Director determines that Department error caused an individual to submit an invalid application for a hunt permit-tag, prevented an individual from lawfully submitting an application, caused the rejection of an application for a hunt permit-tag, or caused the denial of a hunt permit-tag, the Director may authorize an additional hunt permit-tag if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted and the application for the hunt permit-tag would have otherwise been successful based on its random number. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. If the Director determines that Department error caused the failure to apply an applicant's bonus points to an application, the Director may authorize an additional hunt permit-tag to correct the error, if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. An individual who is denied a hunt permit-tag or a bonus point under this procedure may appeal to the Commission as provided under A.R.S. Title 41, Chapter 6, Article 10.

R12-4-107

Bonus Point System

- A. For the purpose of this Section, the following definitions apply:
 1. "Bonus point hunt number" means the hunt number assigned by the Commission in a Commission Order for use by an applicant applying only for a bonus point for a genus identified in this Section; and
 2. "Loyalty bonus point" means a bonus point awarded to an individual who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.
- B. The bonus point system grants an individual one entry in each drawing for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that individual has accumulated under this Section. Each bonus point entry is in addition to the entry normally granted by R12-4-104. When processing "group" applications, as defined in R12-4-104, the Department shall use the average number of bonus points accumulated by the individuals in the group, rounded to the nearest whole number. If the average is equal to or greater than .5, the total will be rounded to the next higher number.
- C. The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application Form if all of the following apply:
 1. The application is unsuccessful in the drawing or the application is for a bonus point only;
 2. The application is not for a hunt permit-tag left over after the drawing and available on a first-come, first-served basis as prescribed in R12-4-114; and
 3. The applicant, before the drawing, purchases a hunt-

Arizona Game and Fish Commission Rules About Hunting

ing license valid for the year in which the hunt takes place. The applicant shall either provide the hunting license number on the application, or submit an application and fees for the license with the Hunt Permit-tag Application Form.

- D. An applicant who purchases a bonus point only shall:
1. Submit a valid Hunt Permit-tag Application Form, as prescribed in R12-4-104, with the Commission-assigned bonus point hunt number for the particular genus as the first choice hunt number on the application. Placing the bonus point only hunt number as a choice other than the first choice or including any other hunt number on the application will result in rejection of the application;
 2. 1. The individual is issued a hunt permit-tag for that genus in a computer drawing; or
 2. The individual fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
- G. An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come, first-served hunt permit-tag remaining after the computer drawing does not gain a bonus point.
- H. The Department shall award one permanent bonus point for each genus upon an individual's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.

The Department shall credit an individual who graduated after January 1, 1980, but before January 1, 1991, or an individual certified by the Department as an active hunter education instructor after January 1, 1980, with one permanent bonus point for each genus if the individual provides the following information on a form available from the Department: Department identification number; name; address; residency status, and length of Arizona residency, if applicable; date of birth; sex; weight; height; color of hair and eyes; and, for an individual other than an instructor, the month and year of graduation from the Department's Arizona Hunter Education Course.
 2. An instructor or an individual who has graduated from the Department's Arizona Hunter Education Course shall submit the required form 30 days before a drawing's application deadline, as specified in the hunt permit-tag application schedule, in order for the bonus point to be counted by the Department in that drawing.
- I. The Department shall make an applicant's total number of accumulated bonus points available on the Department's application web site or IVR telephone system. If

the applicant disagrees with the total, the applicant may request from the Department proof of compliance with this Section to prove Department error. In the event of an error, the Department shall correct the applicant's record.

- J. The Department shall credit bonus points under an applicant's Department identification number for the genus on the application. The Department shall not transfer bonus points between individuals or genera.
- K. The following provisions apply to the loyalty bonus point program:
1. The Department shall award a loyalty bonus point if an applicant submits a valid application at least once a year for a hunt permit-tag or a bonus point for a specific genus consecutively for a five-year period.
 2. An applicant retains a loyalty bonus point once accrued as long as the applicant submits a valid application annually for a hunt permit-tag or a bonus point for the genus for which the loyalty bonus point was accrued.
 3. If an applicant who has accrued a loyalty bonus point fails to apply in any calendar year for a hunt permit-tag for the genus for which the loyalty bonus point was accrued, the applicant's loyalty bonus point for that genus is forfeited.
 4. For the purposes of the loyalty bonus point program, year one of the calculation of consecutive application years is 2001, and the Department shall award a loyalty bonus point to an applicant who qualifies for the loyalty bonus point on or after the effective date of this Section.
 5. A loyalty bonus point is accrued in addition to all other bonus points.
- L. The Department shall reinstate any bonus points forfeited for a successful hunt permit-tag application for military personnel, military reserve personnel, national guard personnel, or public agency employees who are unable to use the hunt permit-tag due to mobilization, activation, or required duty in response to a declared national or state emergency, or required duty in response to an action by the President, Congress, or a governor of the United States or its territories. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection. D. This Section is effective July 1, 2006.

R12-4-110

Posting and Access to State Land

- A. For the purpose of this Section:
1. "Corrals," "feed lots," or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing, including feeding, roundup, branding, doctoring, and other related purposes.
 2. "Existing road" means any maintained or unmaintained road, way, highway, trail or path that has been used for motorized vehicular travel and clearly shows or has a history of established vehicle use.
 3. "State lands" means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.
- B. In addition to those prohibitions against posting in A.R.S. § 17-304, an individual shall not lock a gate, construct a fence, place an obstacle or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife. An individual in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. If immediate corrective action is not

taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that blocks access to state land.

- C. The provisions of this Section do not allow any individual to trespass upon private land to gain access to state land.
- D. An individual may post state lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes as closed to hunting, fishing, or trapping without further action by the Commission.
- E. An individual may post state lands other than those referred to in subsection (D) as closed to hunting, fishing, or trapping only if the individual has obtained a permit from the Commission, and the Commission determines that the closing is necessary:
1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
 2. To prevent unreasonable destruction of plant life or habitat; or
 3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- F. An individual shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (E), or to close an existing road under subsection (J), as required by R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by an individual other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections in writing within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- G. An individual may use a vehicle on or off a road to pick up lawfully taken big game animals.
- H. The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- I. State trust land may be posted with signs that read "State Land No Trespassing" but such posting shall not prohibit access to such land by any individual lawfully taking or retrieving wildlife.
- J. The Commission may grant permission to lock or obliterate a gate or close a road or trail that provides legally available access to state lands for licensed hunters and fishermen if access to such lands is provided by a reasonable alternate route. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days. Applications for permits for more than 30 days shall be submitted to the Commission for approval. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- K. When hunting, fishing, or trapping on state land, a license holder shall not:
1. Break or remove any lock or cut any fence to gain access to state land;
 2. Open and not immediately close a gate;
 3. Intentionally or wantonly destroy, deface, injure, remove, or disturb any building, sign, equipment, marker, or other property;
 4. Harvest or remove any vegetative or mineral resources or object of archaeological, historic, or scientific interest;

5. Appropriately mutilate, deface, or destroy any natural feature, object of natural beauty, antiquity, or other public or private property;
6. Dig, remove, or destroy any tree or shrub;
7. Gather or collect renewable or non-renewable resources for the purpose of sale or barter unless specifically permitted or authorized by law; or
8. Frighten or chase domestic livestock or wildlife, or endanger the lives or safety of others when using a motorized vehicle or other means.

R12-4-111

Identification Number

- A. An applicant for a Department identification number may either:
1. Assign his or her own number by using his or her social security number; or
 2. Obtain a number from the Department by providing the Department with full name and any aliases, date of birth, and mailing address.

R12-4-112

Diseased, Injured, or Chemically Immobilized Wildlife

- A. The Director may authorize Department employees to condemn the carcass of a lawfully taken and lawfully possessed diseased, injured, or chemically immobilized wildlife taken under any permit tag that is, in the opinion of the employee, unfit for human consumption, if the individual who took the wildlife requests it and this condition was not created by the actions of the individual who took the wildlife. A Department employee may condemn wildlife that is chemically immobilized if the wildlife was taken during the established withdrawal period of that immobilizing drug.
- B. The individual who took the wildlife shall surrender the entire condemned wildlife carcass and any parts thereof to the Department employee.
- C. After condemnation and surrender of the wildlife, the Department employee shall provide written authorization to the individual who took the wildlife to purchase and use a duplicate tag. The license holder may purchase the tag from any dealer where the tag is available. The license dealer shall forward the written authorization to the Department with the report of the tag sale.

R12-4-114

Issuance of Nonpermit-tags and Hunt Permit-tags

- A. In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371, and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.
- B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
 2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt

Arizona Game and Fish Commission Rules About Hunting

permit-tag is required to take the species in that hunt area.

1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:
 - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number for antelope, bear, deer, elk, javelina, and turkey to issue to individuals and groups that have bonus points. The Department shall reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to individuals and groups that have bonus points.
 - b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
 - i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
 - c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.
 - d. If the bag limit established by Commission Order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually.
- D. The Department shall not make available more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any draw to nonresidents. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number to nonresidents.

If a hunt number for antelope, antlered deer, bull elk, javelina or turkey has ten hunt permit-tags or fewer, no more than one hunt permit-tag will be made available to a nonresident, except that if a hunt number has only one hunt permit-tag, that tag shall only be available to a resident.

- E. The Director shall not issue more restricted nonpermit-tags than the maximum number prescribed by the Commission through Commission Order.
- F. To participate in a supplemental hunt, an individual shall obtain a restricted non-permit tag as prescribed by this Section. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued.
- G. If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.

- J. When issuing restricted nonpermit-tags to the hunter pool, the Department or its authorized agent shall randomly select applicants from the hunter pool. The Department or its authorized agent shall attempt to contact each randomly-selected applicant by telephone at least three times during a 24-hour period. If an applicant cannot be contacted or cannot participate in the supplemental hunt, the Department or its authorized agent shall return the application to the hunter pool and draw another application.
