From the Director's Desk

Greetings Arizona sportsmen, sportswomen, and juniors, I am privileged to introduce to you the 2012-13 Arizona Hunting and Trapping Regulations, and congratulate you on participating in a uniquely American pastime. Unlike most conservation systems in the world, hunting in America is not a privilege reserved for a chosen few by birthright or personal wealth. Under the tenets of the North American Model of Wildlife Conservation, wildlife is not owned by any individual or the state, but held in trust by the state for the enjoyment of all. In America, virtually everyone wishing to hunt may do so.

Many benefits of hunting are underappreciated by society. Hunting promotes close bonding between parent and child, requiring parents to provide tutelage in safe, responsible use of firearms. It involves rising before dawn, struggling through inclement weather and physical adversity in pursuit of elusive quarry, and embracing moments of truth when the opportunity of a lifetime, or a season, is either achieved or lost in an instant. Character-building aspects of hunting may have been fundamental to the European model of conservation, in which royalty and nobility owned the wildlife and hunting was reserved only for them. However, the character-building value of hunting under the tenets of the North American Model of Conservation, where hunting is available to all, has had a distinguishing impact on the development of the remarkable spirit of our nation.

As you join us afield, I challenge you to bring along a child or new adult hunter. By doing so, you help preserve the special heritage of hunting and reinvigorate the character and spirit of America.

Hunting remains a treasured activity in Arizona. The overwhelming popularity of the most recent online draw application and interest in the posted results clearly demonstrated that the sport's enthusiasts have great passion for this state's hunting tradition. So many eager hunters logged on to view results posted online that the system slowed to a near-standstill. Nevertheless, the online system proved operationally secure, the problem was quickly resolved and steps have been taken to assure speedy, safe results with a high volume of online visitors for the next draw.

The Department is making it easier to understand

and meet hunting requirements. To that end, a new information technology chief, Doug Cummings, has been hired, bringing years of experience leading information technology operations with world-class companies. His efforts will streamline and simplify the process, improving customer service and convenience. Most importantly, Doug is a lifetime hunter and customer who has first-hand experience with the on-line application system.

The upcoming draw deadline for deer, bighorn, etc., is Tuesday, June 12. Hunters are encouraged to use the convenient online application alternative, which features benefits such as fewer errors and speedier processing. To submit your application for the June draw, visit www.azgfd.gov.

Please review these new hunting regulations carefully. They contain several changes intended to conserve and protect our wildlife and habitat. Now is the time for responsible stewardship, for creating memories, and for passing on to future generations the fragile freedom upon which our hunting traditions are built.

Good luck and safe hunting,

Important Information for 2012-2013

This list is for informational purposes only and lists the major changes that have occurred since publication of the last regulations booklet. Individuals should thoroughly read and understand the appropriate regulations prior to submitting an application or going afield. If you have questions, please call (602) 942-3000.

Daylong Shooting Hours Daylong means the 24-hour period between midnight and midnight. Daylong shooting hours have been authorized in some areas for mountain lion and coyotes, refer to Commission Order 10 on page 60 and Commission Order 13 on page 82. The use of artificial light is legal during a daylong season; however, it is not legal to take wildlife from a vehicle or to take wildlife while using an artificial light attached to or operated from a vehicle.

National Forest System Lands In the last two years the Coconino National Forest and both the Williams and Tusayan Ranger Districts on the Kaibab National Forest established new restrictions on motor vehicle use. Other Forests such as the Prescott National Forest and Coronado National Forest have had these rules in place for several years. These rules require motor vehicles to stay on designated roads, trails, and areas as shown on a Motor Vehicle Use Map. It is likely the motor vehicle use rules may affect where you can drive to camp and whether you can drive off-road for purposes of big game retrieval. Motor Vehicle Use Maps are free to the public and available at each Forest Service office. Know before you go by picking up a free Motor Vehicle Use Map prior to hunting on the national forests.

Small Game Hunting Notes Small Game hunting notes are on pages 93-94. You will not find them after each individual commission order, they have been grouped in the back of the small game section.

Law Changes Open Areas to Hunting Recent state law changes by SB 1334 have transferred the authority to regulate the take of wildlife in municipalities to the Arizona Game and Fish Commission. Hunters will find new information in descriptions and through hunting notes that further define open and closed areas to hunting in these regulations and should read them carefully. The benefit of these law changes is they open up many of the open, undeveloped, uninhabited areas on state trust and public lands within city limits to safe, responsible hunting. However, hunters and citizens alike should be aware, these changes and these regulations do not allow hunting in developed communities or neighborhoods. It is still illegal and a revocable offense to shoot a firearm within 1/4-mile of an occupied building; to shoot from, on, or across a roadway; or to trespass on private property. To learn more about these law changes, visit www.azgfd.gov.

Big Game Surveys The Arizona Game and Fish Department routinely conducts big game surveys with aircraft in all of the state's Game Management Units. These flights are a vital tool used by our wildlife managers to accurately set annual hunt permit numbers to ensure the fitness of big game populations. Although we attempt to conduct these flights so that there is minimal conflict with ongoing hunts, surveys may overlap with an open hunt. Pursuant to ARS 17-309 A.1 and Commission Rule R12-4-319, it is illegal for any aircraft to pursue wildlife during an established hunting season EXCEPT for official game management purposes. If you witness ANY aircraft display this type of activity please call the Operation Game Thief line at 1 (800) 352-0700.

Hunter Questionnaires Please return your hunter questionnaire. Your hunt information is a key part of game management in Arizona. You will receive a postcard which includes your username, password, and permit number in the mail shortly after the end of your hunt. You may respond online at www.azgfd.gov/huntersurvey or by mail. Thank you for taking the time to be a part of game management. We believe we have one of the most accurate harvest surveys in the nation.

Getting Started Checklist

Welcome to hunting in Arizona. If you don't know where you want to hunt, what you need, or even what you can hunt in Arizona, this section is for you. It is designed to help NEW hunters get started. Following is some basic information you should consider while planning your hunt. The best way for all hunters to prepare themselves to hunt in Arizona is to take a Department-sponsored hunter education course (see page 36).

□ Step 1. Where to Start

1. What animal(s) can you hunt?

- Small game: cottontail rabbit, tree squirrel, migratory game birds, and upland game birds like quail.
- Big game: black bear, bighorn sheep, buffalo, deer (mule and white-tailed), elk, javelina, mountain lion, pronghorn antelope, and turkey.
- Predator/furbearer: coyotes, skunks, foxes, raccoons, bobcat, ringtail, weasel, and badgers.
- Other birds and mammals.

2. Do you have a hunting license?

To hunt in Arizona, a license is required. Check out page 14 for a list of our hunting permit and license fees. You can purchase hunting licenses online at www.azgfd.gov. You also can purchase licenses, tags, and/or stamps from any of our 340 license dealers (information is online at www.azgfd.gov), or Department offices statewide (see page 3 for office locations). For children ages 10-17, see Youth Opportunities, page 22.

3. Did you validate your license?

You must first sign your license. For some species you must also purchase a stamp or stamp privilege for the license to be valid. You will need a tag in addition to a valid license to hunt big game, sandhill cranes, and pheasants. You must also sign all tags before going afield for them to be valid.

□ Step 2. Where/When to Hunt

1. Where do you want to hunt?

Arizona is divided into Game Management Units (GMU or unit) composed of state, federal, military, and private land. Review the GMU maps (pages 70-77), and the "Where you can hunt section" (page 96) for more information.

2. When do you want to hunt?

There are several different seasons in which you can hunt a species. Go to individual species to determine their seasons.

□ Step 3. "To Apply or not to Apply?"

1. Don't Apply.

For most small game species, and all predator/furbearer and other birds and mammals you simply need a license and any required validations (for example: stamps) to hunt.

There are also several big game species that you may pursue simply by purchasing an over-the-counter nonpermit-tag in addition to your license. These hunts include archery turkey, mountain lion, fall bear, some archery deer and elk. Over-the-counter archery deer, mountain lion, buffalo, bear and bighorn sheep have mandatory reporting requirements, so check the information on the corresponding Commission Order.

2. Apply.

Permits for most big game species, sandhill crane, and pheasant are issued through a hunt drawing. If interested in hunting any of these species, you must apply for a tag in a drawing; refer to page 14 in this booklet or the appropriate supplement for specific information. You can apply online or by paper application. The sample application form on page 18 will help you to apply for both a tag and license. Follow the instructions on the sample form and DON'T forget to include your correct fee(s).

□ Step 4. Do Your Homework

1. Common violations

Before you go hunting we recommend you read pages 106-107 to be aware of the most common violations. Also, take a look at the Arizona laws and rules beginning on page 110 to learn what you can and can't do in Arizona. If you are witness to a violation please call our Operation Game Thief hotline at 1-800-352-0700 to report the violation. You may be eligible for a cash reward.

2. Care/transport information

Before you go in the field, review our laws and rules to understand requirements to possess and transport wildlife after your hunt. Generally, you need to keep your license on your person and your tag affixed to your carcass at all times during transport. The Department has information available to properly care for your wildlife (see page 3 for regional office locations and phone numbers).

3. You're on your way!

These are just some basic steps to help you start your first hunt. Please read through the rest of the hunting and trapping regulations to better familiarize yourself with hunting in Arizona. If this section fails to answer your questions, contact any Arizona Game and Fish office or visit our website www.azgfd.gov.

Definitions

Big Game: Any of the following species: mule deer, white-tailed deer, pronghorn antelope, elk, turkey, javelina, bear, bighorn sheep, buffalo and mountain lion. All species require a hunt permit-tag, except for archery turkey, juniors turkey, fall bear, mountain lion and some archery deer; these species require a nonpermit-tag.

Big Game Drawing: A random computerized lottery drawing to determine issuance of hunt permit-tags. Three separate draws occur each year for various species.

Bonus Point: An accumulated credit that authorizes the Department to issue a Big Game Drawing applicant additional computer-generated random numbers during a draw.

Commission Order: A document adopted by the Commission that does any or all of the following: open, close, or alter seasons and open areas for taking wildlife; specify wildlife that may or may not be taken; set bag or possession limits for wildlife; or set the number of permits available for a hunt.

Daylong: the 24-hour period between midnight and midnight.

Department ID: A number used to identify the hunter by name and address, and to accumulate bonus points. A hunter may designate their Social Security number or a Department issued, computer-generated number. (Federal regulations require all applicants must provide their Social Security number.)

Game Management Unit: An area established by the Commission for management purposes, commonly referred to as GMU or Unit (see maps on pages 70-77, and boundary definitions on page 116).

Genus: A major category in the classification of animals and plants ranking above the Species level and below the Family level.

HAM: Designates weapon type as handgun, archery, or muzzleloader.

Hunt Area: A game management unit (GMU or unit), portion of a unit, or group of units that is open to hunting by a particular hunt number.

Hunt Number: The number assigned by Commission Order to a hunt where a limited number of hunt permit-tags is available. The hunt number will specify species, dates, boundaries of the hunt area, weapon type, number of available permits, legal wildlife, and who may hunt. Hunt numbers are assigned for any species where hunt permit-tags are issued through a drawing.

Hunt Permit-tag: A tag for a hunt in which a Commission Order has assigned a hunt number. The number of tags is limited by the Commission Order and may only be obtained through a random drawing. A hunt permit-tag along with a license authorizes an individual to hunt a designated species during the designated hunt.

Hunter Pool: A computerized database comprised of individuals wishing to be considered for a restricted nonpermit-tag when a supplemental hunt is authorized. Entry into the hunter pool consists of completing an application (page 64) and submitting it along with the application fee to the Department.

License Dealer: A business authorized to sell Arizona hunting, fishing, and other licenses and stamps.

Muzzleloading Handgun: A firearm intended to be fired from the hand, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Muzzleloading Rifle: A firearm intended to be fired from the shoulder, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Nonpermit-tag: A tag for a hunt in which a Commission Order does not assign a hunt number and the number of tags is not limited (over-the-counter tag). A nonpermit-tag along with a license authorizes a hunter to hunt certain game species. A nonpermit-tag may be purchased at Department offices or from licensed dealers.

Resident: A person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Species: A naturally existing population of similar organisms that usually interbreed only among themselves.

Stamp: A form of authorization in addition to a license that allows the license holder to take wildlife specified by the stamp. The form of the stamp may be an actual stamp affixed to the back of the license, a printed privilege on the license itself, or a printed privilege on a separate license form.

Supplemental Hunt: A season established for a particular species by the Commission for the following purposes: take of depredating wildlife, take of wildlife under an Emergency Season, or take of wildlife under a population management hunt. The Commission through Commission Order shall approve a season or seasons and prescribe a maximum number of restricted nonpermit-tags for specific species that the Director may authorize for issuance.

Trapper Registration Number: A trapper's registered number shall be issued by the Department and entered upon the trapping license at the time of purchase. A trapper's registration number is not transferable. All traps shall plainly be identified with the trapper registration number or the trapper's name and address.

The North American Model of Wildlife Conservation

Did You Know?

The Arizona Game and Fish Department is responsible for wildlife management in the state and receives no state tax dollars. Hunters and anglers pay for wildlife conservation through their purchase of licenses, tags and stamps, and excise taxes on hunting and fishing gear. The conservation dollars paid by hunters and anglers benefit both game and nongame species and their habitats.

What Is It?

The North American Model of Wildlife Conservation is the world's most successful system of conservation. No other continent retains such a complete balance of native wildlife species. While other countries struggle to conserve the little they have left, we enjoy great diversity and abundance of wildlife. This user-pay-user-benefit model relies on sound science, public participation, active habitat management, strict regulation, and active law enforcement to sustain wildlife populations. The end result is a harvestable surplus of game species every year, and an opportunity for all to enjoy it.

A Renewable Resource

Sportsmen's Role in Wildlife Conservation

Whether one chooses to actively participate in hunting or angling, people interested in wildlife and its future should understand the conservation role sportsmen play. Hunters and anglers were the forward-thinking conservationists for the North American Model of Wildlife Conservation over a century ago and through their leadership have remained its leading proponent. Hunting and angling continue to be the primary source of funding for conservation efforts in North America. Through a 10 percent to 12 percent excise tax on hunting, angling and shooting sports equipment, hunters and anglers have generated more than \$10 billion toward wildlife conservation since 1937.

Sandhill cranes

Though past conservation efforts have focused on hunted species, non-hunted species reap the rewards as well. Countless numbers of non-hunted species have been saved from peril by protecting wetlands for ducks, forests for deer and grasslands for pronghorn.

If Hunting Ended

Hunters and anglers actively support wildlife conservation through tangible actions such as buying licenses and paying taxes on hunting and fishing equipment.

Why are hunters and anglers so willing to support conservation through their pocketbooks? Because people place added value on – and are willing to pay for – what they can use.

In some states, the number of hunting and fishing licenses sold has remained stable in recent years. But given the rate of human population growth, particularly in Western states, the percentage of people participating in hunting and fishing is actually decreasing.

There is no alternative funding system in place to replace the potential lost funds for conservation. If hunting ends, funding for conserving wildlife will be jeopardized.

To learn more about hunting or participate in the wildlife conservation movement led by hunters for more than a century, visit any Arizona Game and Fish Department office or visit www.azgfd.gov/hunting.

The North American Model of Wildlife Conservation

Arizona's Core Concepts

The North American Model of Wildlife Conservation is the foundation for wildlife conservation in Arizona and throughout the country. Hunters and anglers are its backbone. The Arizona Game and Fish Department's core concepts of the North American Model are:

Wildlife is held in the public trust

The public trust doctrine means that wildlife belongs to everyone. Through shared ownership and responsibility, opportunity is provided to all.

Regulated commerce in wildlife

Early laws banning commercial hunting and the sale of meat and hides ensure sustainability through regulation of harvest and regulating commerce of wildlife parts.

Hunting and angling opportunity for all

Opportunity to participate in hunting, angling and wildlife conservation is guaranteed for all in good standing, not by social status or privilege, financial capacity or land ownership. This concept ensures a broad base of financial support and advocacy for research, monitoring, habitat conservation and law enforcement.

Hunting and angling laws are created through public process

Hunting seasons, harvest limits and penalties imposed for violations are established through laws and regulations. Everyone has the opportunity to shape the laws and regulations applied in wildlife conservation.

Hunters and anglers fund conservation

Hunting and fishing license sales and excise taxes on hunting and fishing equipment pay for management of all wildlife, including wildlife species that are not hunted.

Wildlife is an international resource

Proper stewardship of wildlife and habitats is both a source of national pride and an opportunity to cooperate with other nations with whom we share natural resources. Cooperative management of migrating waterfowl is one example of successful international collaboration.

Science is the basis for wildlife policy

The limited use of wildlife as a renewable natural resource is based on sound science. We learn as we go, adapting our management strategies based on monitoring to achieve sustainability.

Scientific information gathered from animals, like this radio-collared elk, contribute to wise wildlife management decisions. Sportsmen's dollars help pay for wildlife research in the user-pay-user-benefit model of conservation.

Regulations for the taking of wildlife are forged through public input. Enforcement of these laws is critical to wildlife conservation.

The reward for this successful model of conservation is the opportunity for all.

Ethical Hunting is Everyone's Business

"Ethics is not only about what you should not do, but what you should do. Offer to lend a hand to another hunter if they are retrieving downed game, share information on hunting conditions and engage in helpful conversation with beginners you happen to meet. Hunting is a heritage we all share, and together, we can continue to share it for generations to come."
– Brian Wakeling, Game Branch Chief, Arizona Game and Fish Department

What are Ethics?

Ethics generally relate to fairness, respect and responsibility. Aldo Leopold once said "ethical behavior is doing the right thing when no one else is watching—even when doing the wrong thing is legal." They are the personal unwritten rules that we value. When we talk about an ethical hunter their behavior is an example of the sportsmanship they demonstrate in the field.

Ethics with Landowners

- Ask permission for access prior to the season before hunting on private property;
- Go out of your way to respect landowners and their property. Be courteous, visit with them, be thankful, offer assistance when necessary, or share your harvest with them;
- Leave the land better than you found it. Return all gates to the way they were. Notify the landowner of any damage or repairs needed to fences that you find and offer your help;
- When "nature calls," walk away from roads and trails. Find a discrete location and bury the waste;
- Drive only on existing roads approved for use;
- Leave livestock and other property undisturbed.

Ethics with Other Hunters

- Follow safe firearms and bow handling practices at all times;
- Abide by game laws and regulations;
- Refrain from interfering with another hunter's hunt or campsite. If you see someone in that area, back out;
- If you meet up with another hunter in the

field be polite engage in conversation and share information.

- A trophy is calculated not by score but by memories. Be respectful and congratulate others for their harvest, regardless of antler size.

Ethics with Waterholes

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access;
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first;
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt;
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present;
- Hanging a tree stand or setting a blind near a waterhole does not entitle a person to exclusive hunting rights to that waterhole. Depending on the location it may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- It is unlawful for a person to camp within one-fourth mile of a natural water hole containing water or a man-made watering facility containing water in such a place that wildlife or domestic stock will be denied access to the only reasonably available water.

Ethics about "First Come – First Serve"

"First Come – First Serve" is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or disorderly conduct can result in citations, arrests and/or jail time. Please refrain from confrontational behavior – ethical hunting is everyone's business.

Ethics with the Quarry

- Only take a well-placed shot in a vital area of the game species you are permitted to take;
- Know your limitations. Be mindful of your effective shot range. Avoid extreme distance shots, risky angles and situations where you do not feel confident in your shot. Strive for a quick, clean harvest;
- Select appropriate equipment for your quarry. Be aware of the equipment's limitations as well as your effective range. Take time to practice to ensure an accurate shot;
- Respect your personal capabilities under various conditions that you could potentially encounter during a hunt. Consider your general health, physical condition, weather and elevation in the area you plan to hunt. Be sure to hunt areas that are within your physical limitations.
- Bowhunters should keep in mind shots at greater distances may result in the quarry moving before the arrow reaches it. Kinetic energy is extremely important on larger game animals as energy is lost at longer distances which can result in wounded or lost game;
- Learn about the habits and habitat of the game species you are hunting;
- Make every possible effort to recover game;
- Adhere to the rules of fair chase;
- Follow up every shot at game with a search for sign. You cannot always tell immediately that an animal has been hit.

Ethics with Carcass Disposal

Thanks to sportsmen and the general public the Operation Game Thief Program has enjoyed great success with the Department receiving thousands of calls each year many of which lead to the apprehension of wildlife law violators. The Arizona Game and Fish Department also receives calls regarding the dumping of wildlife that have been legally killed because the reporting party is unable to discern that the animal was taken legally. Under these circumstances the Department expects and appreciates notification. In most cases the reports are from individuals that find the carcasses in dumpsters, close to urban areas, and in or near a campsites and roads. In an effort to reduce unnecessary reports the

Ethics

Department asks that sportsmen take care to dispose of their lawfully taken carcasses so that they are not discovered by the general public. The Department recommends burying the carcasses or leaving them under a tree away from camping areas and roads. Additionally if utilizing a dumpster use trash bags or wrap the carcass to reduce offensive odors. Remember that sportsmen are obligated to remove game from the field and are prohibited from wasting game meat.

Ethics with Non-hunters

- Show respect for other users of the land and their property. They possess the same rights as you do to use the lands;
- Be courteous to non-hunters when transporting your game from the field. Transport animals discreetly;
- Don't leave remains of field dressing in

places where it is easily visible. Respect other people that may be walking by;

- Clean up to the best of your ability before entering into a public place when returning from a hunt if you cannot change clothes. Present a professional image;
- Take tasteful photographs of your hunt;
- Invite someone new to come hunting with you.

Ethics in Reporting Honest Mistakes

The Arizona Game and Fish Department realizes that with the hundreds of thousands of hunters that take to the field each year there are bound to be some unfortunate circumstance that may occur. It might be a case where a hunter mistakes a doe for a buck, shoots a second elk due to a pass-through shot, or ac-

identally shoots an extra dove over the limit. While these accidents are infrequent, they do occur to honest hunters every year.

Your decisions in the time immediately after you make a mistake can make a huge difference in the outcome. Mistake or accident, the sportsman is ultimately responsible for their actions. Although self-reporting may not get you out of a citation, it will greatly reduce the likelihood of being cited for a revocable offense. When accidents happen it is critical you notify the Department as soon as possible. If you find yourself in this situation don't compound your mistake by trying to conceal it. Call the Operation Game Thief Hotline (1-800-352-0700) at your first opportunity and follow the instructions provided by the operator. A wildlife manager will be dispatched the scene to assist you. In almost all cases, the meat from animals involved in a self-reported violation will be donated to a charitable organization.

Ethical Outdoorsman Recognition

The Arizona Game and Fish Department and the Hunting and Angling Heritage Workgroup are announcing the Ethical Outdoorsman Recognition Program. Outdoorsmen and women have sustained a tremendous legacy of promoting wildlife conservation and ethical enjoyment of natural resources. This program provides outdoorsmen and women the opportunity to recognize their

peers for responsible stewardship of Arizona's public and private lands, ethical behavior in the outdoors, or selfless acts of sportsmanship. We are excited to celebrate this tremendous legacy of sportsmanship with all of the citizens of Arizona through this recognition program.

Any outdoorsman or woman can be nominated for recognition. Forms are available online

at www.azgfd.gov/getoutside. A detailed description of the ethical or sportsman-like behavior is required on the nomination form. Forms can be submitted at any time and will be reviewed by members of the Hunting and Angling Heritage Workgroup. Recipients will receive a certificate and window sticker to proudly display **"I Have Been Recognized as an Ethical Outdoorsman."**

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Class H Three-Day Non-resident Hunting License nor an Apprentice Hunting License is valid for big game.

YOUNG HUNTERS – Anyone 14 years of age or older needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may hunt big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid hunt or combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags, nonpermit-tags and stamps.

Where to Buy Licenses

Arizona hunting licenses may be purchased online at www.azgfd.gov. If you purchase a hunting or fishing license online, **you must print the license from your home printer**. The Arizona Game and Fish Department will not mail your license to you. Licenses also can be obtained from license dealers throughout the state or from any Arizona Game and Fish Department office (see locations on page 3 of this booklet).

A list of license dealers can be found at www.azgfd.gov by selecting the licenses icon box on the home page.

If you are applying for a big game permit-tag or bonus points on a paper application, you may purchase your general hunt or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until the draw is complete. If you wish to use your license before the draw is complete, you must pre-purchase a license before applying. Al-

though they are valid for a big game drawing application, Family Licenses, Super Conservation Licenses, and Child General Hunting and Combination Licenses **may not be obtained through the draw**; these licenses must be purchased at Department offices.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

“Resident” means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag, or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

Three-Day Non-Resident License

A Class H, Three-Day Non-resident license, valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, upland game birds and migratory game birds (with applicable stamps) is available at all license dealers. This license is not valid for hunting big game nor is it valid when applying for big game hunts through the draw process.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An apprentice hunting license is valid for two consecutive days when the apprentice is

accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice License. An apprentice may be a resident or nonresident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a bona fide resident of this state who is at least 18 years of age and must possess a class F, G, J, K, M or N license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield. Consult A.R.S. 17-333 for more information.

Honorary Scout License

Honorary Scout Class F Youth Combination Hunting and Fishing license is offered to a resident youth who has attained either the rank of Eagle Scout (Boy Scout) or received a Gold Award (Girl Scout). The fee for the reduced license is \$5; a savings of \$21.50. The applicant must present proof of their rank or award by providing their certification letter, wallet card, or award certificate at any Department office, and complete the Honorary Scout License application (Form 306, available on the Department website or at any Department office). This license is not available through the draw. At the age of 21, an Eagle Scout or Gold Award recipient is no longer eligible for the Honorary Scout Youth Class F license, and from that point forward would be required to purchase an adult class license. A number of sportsmen’s groups will sponsor a license by offering benefits, such as free membership to their organization. Ask for a list of sponsoring organizations when picking up your license.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/

License Information

Mobility Permit (CHAMP). Consult R12-4-217 for a description of this permit. Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to new regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (304) 616-4550, or download an application from the ATF website at www.atf.gov.

Tag Transfers

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags

to children. Beginning Jan. 1, 2012, a \$4 transfer fee applies.

A parent, grandparent or legal guardian holding a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;
- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent's permit or tag, the grandparent, parent or the child's guardian must accompany the child in the field. In either case, the adult must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department office, the original permittee may no longer use it.

A person may also transfer his or her game tag for use by a child with a life threatening medical condition or a qualifying permanent physical disability. Consult A.R.S. 17-332 for more information, or visit www.azgfd.gov.

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions or qualifying permanent physical disabilities. The \$4 transfer fee does not apply to nonprofit organizations. You may contact the following organizations to arrange for a donation.

- Hunt of a Lifetime at www.hoalarizona.org.
- Outdoor Experience 4 All at www.outdoorexperienceforall.org
- Catch-A-Dream at <http://catchadream.org>.

Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a formula based on hunting license sales and the state's land area. In 2011, that meant over \$9.3 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and

most successful wildlife conservation programs in the world...thank you.

The Wildlife and Sport Fish Restoration Acts fostered partnerships between Federal and State fish and wildlife agencies, the sporting arms industry, conservation groups, and sportsmen to benefit wildlife – and has been key to implementing the North Amer-

ican Model of Wildlife Conservation. In 2012, we will proudly observe 75 years of the Wildlife and Sport Fish Restoration program and the success of the partnerships that have made this program what it is today. We hope the anniversary will act as a catalyst to make the program even stronger in the years ahead.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags. Nonpermit-tags may be purchased directly from Department offices or through license dealers.

Qualifications

Individuals wishing to participate in a drawing or to obtain bonus points must apply online or in writing using the Hunt Permit-Tag Application Form, and submit the form by the deadline specified in the Hunt Permit-tag Application Schedule found in the current year's hunt regulations (page 20).

Each applicant must possess a valid license for the year in which the hunt will take place or possess a lifetime, pioneer or disabled veteran's license. Non-resident Three-Day Class H licenses may not be used in applying for big game hunt permit-tags. **Youth applying for big game hunts must be licensed.** Applicants not licensed for the year in which the hunt will take place must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued to you and you will receive a refund for the other license fees submitted. The license will not be issued and mailed until the draw is complete.

Applying for a Hunt

Paper applications for hunt permit-tags must be made on Hunt Permit-Tag Application Forms available at Department offices, website, and license dealers. Please use the current year's application form, that is **WHITE** in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply on one application in one envelope. All applicants in a

group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person, including juniors, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-Tag Application Form. Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Only a single application and the correct fees must be included in one (1) envelope. More than one (1) application in an envelope may result in rejection of all applications.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

Fees

Information about fees associated with the online draw process may be found on page 18.

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.

2. Fee for a hunting license, if a license is requested. Be sure to enclose license fees on **each** application, if required, for each person who is applying on the application for a hunting license. Only one license will be issued per person.

3. **Discounted hunt permit-tag fees are for "Juniors-Only" designated hunts. A youth must pay the higher fee unless applying only for "Juniors-Only" hunts.**

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application, or separate checks or money orders may be submitted in one envelope for each individual applicant.

The permit and license fees are specified in the fee schedule on pages 14-15. The hunt permit-tag fees on page 14 include the non-refundable application fee.

Mailed applications must be sent only to the Department's Phoenix Office at P.O. Box 74020, Phoenix, AZ 85087-1052. On deadline days, Department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 7:00 p.m., (MST). Drop boxes are locked promptly at 7:00 p.m., (MST). All applications must be **received** by the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-Tag Application Schedule on page 20. **Postmarks don't count.**

Draw Information

Applications will be accepted as soon as the applicable year's hunt regulations are available. Please consult the current year's hunt regulations as unit areas and season dates may change each year.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens to My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If there is an error that will result in the rejection of an application and the application is received by the Department on or before Friday, May 25, 2012, the Department will make three attempts within a 24-hour period to notify you by telephone if a phone number is provided. If the Department is able to contact you by phone and customer service representatives can correct the application at that time, they will do so and enter the application in the Draw. If an error cannot be corrected by phone, the Department will still attempt to notify you of the error and advise you to re-submit your application. The applicants may then prepare a new Hunt Permit-Tag Application Form, include the appropriate fees and re-apply by the scheduled deadline date.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What if I'm not Drawn?

Please use one of the methods (telephone or Internet) listed on this page to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-Tag Application Form. Application and license fees will not be refunded. You will not be issued more than one license and a refund of any additional request will be issued.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded.

If an application is rejected and a license has been requested, the license will not be issued. The license fee will be refunded, however, the application fee will not be refunded.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 20.

Obtaining a Bonus Point Only

In the event you do not wish to participate in a big game drawing for deer, javelina, bighorn sheep or buffalo, but still wish to accumulate bonus points for these genera, you may "obtain a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose

any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may obtain only one bonus point per genus per drawing.

To obtain a bonus point, the individual must be 10 years old by the deadline date as specified in the hunt permit-tag application schedule on page 20.

To obtain a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point costs you only the license fee (if needed) and the \$7.50 application fee per applicant.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

The online application will be available early to mid-May.

How to Submit an Online Application

You will be able to apply for big game hunts and bonus points at www.azgfd.gov prior to deadline. There are many advantages in submitting an online application. By using the online method, you can meet deadlines without mailing applications or traveling to a department office to drop off applications. The possibility of your application being rejected is drastically reduced due to the fact that the online application program will prompt you to accurately complete your application.

Additionally, at the time of application you will only have to pay for the application fee, the license fee (if you have not previously purchased a license for the year in which the hunt takes place) and any donations you might wish to make to the Big Game Habitat Fund. Hunt permit-tag fees will be charged after the drawing is completed and you are successful in the draw. This eliminates the requirement to pay your tag fees in advance and/or issue a refund if you are not successful in the draw. Costs are identical to the paper application process. No additional fees are charged for using the online application.

If you are applying for a bonus point, you are charged only the application fee and the license fee (if needed). A valid license for the year in which the applicable hunt will take place is required to apply for a hunt permit-tag or a bonus point. A valid credit or debit card (Visa or MasterCard) must be used when applying online.

Please be aware that if you are successful in the draw and the credit or debit card used for the application is not approved for the amount of the required fees after the draw, your application will be rejected. The department is not responsible for any overdraft charges incurred due to insufficient funds. If your credit or debit card is lost or stolen after using it to apply online or if it should expire prior to the draw, you may update your credit or debit card information online by selecting the "update my payment information" option and providing a valid credit or debit card number prior to the completion of the draw. Deadline for updating your credit or debit card information online is 11:59 p.m. (MST) Friday, July 13, 2012. Even if you are successful in the draw, your application will be rejected if payment on your credit or debit card is declined.

To apply online, simply log on to the Arizona Game and Fish Department Web site at azgfd.gov, place the cursor on "Big Game Draw" located on the green bar on the main Web page and follow the step-by-step instructions. Please have your hunter list completed with all the required information for each hunter prior to logging on to apply.

Completing Your Paper Hunt Permit-tag Application Form

If you choose not to participate in the online application, you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 300 license dealers statewide, and as a downloadable PDF electronic document from the Department's website at www.azgfd.gov/draw. A list of dealers can be found on the Department's website. The use of the PDF form requires that the free Adobe Reader software be installed on your computer. The PDF form can be printed from your computer and then filled out using an ink pen or you can fill it out on your computer using your keyboard (this form does not alert you if an error is made). Once the form has been correctly filled out, it must be printed, signed and submitted by mail or dropped off at the Department along with a check or money order for the correct amount.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers circled on the SAMPLE form, use it to assist you

in completing your form, which can be found online, at any license dealer or Department office.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. **YOU CANNOT MIX HUNT SERIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES.** You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. You may only apply for either a bonus point or a valid hunt number for any genus, NOT both.

2 Enter your correct date of birth (mm/dd/yyyy).

3 Enter your Social Security Number. In accordance with Federal Requirement, 42 U.S.C. Section 666 (A)(13) and A.R.S. 25-320 (P) and 25-502 (K), all applicants **must** provide their valid Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. Any invalid SSN will result in rejection of the application. If you are not a U.S. citizen you

must write "NOT US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number prior to submitting and enter it on the application. See #6. You may obtain a Department issued ID number by calling (602) 942-3000 during business hours.

4 Check the appropriate resident or nonresident box. Resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application, or a member of the Armed Forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

5 Enter your valid Arizona hunting license number for the year in which the hunt for which you are applying occurs. The hunting license number consists of two letters and six numbers. You may purchase a license through the draw by completing the License Application Form at the bottom of the application and submitting payment with each of your applications if you are not licensed.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is for those individuals who choose to use a Department issued I.D. Number instead of a social security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from

How to Apply for the Draw

SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department. You **must** still provide a valid SSN even if you provide a valid Department I.D. Number. See #3.

7 Enter your correct full name (last name first), your P.O. Box or home mailing address, city, state and zip code.

8 The Department will make three attempts within a 24-hour period to notify you of errors that will result in the rejection of your application if the application is received on or before Friday, May 25, 2012. If you wish to participate in this service, please list a telephone number where you can be reached. You are not required to enter your telephone number.

9 Each individual applying, or an appointed individual, must sign the appropriate application section.

COMPLETE 10-16 ONLY IF APPLYING FOR A LICENSE.

Special Youth Opportunities

Robbins Butte Dove Hunt

Robbins Butte Wildlife Area (RBWA) is about seven miles southwest of Buckeye and comprises over 1600 acres. RBWA was purchased for its potential as waterfowl habitat. Three ponds were built in 1952 and by 1957 an estimated 30,000 ducks used these ponds. However, increased demand for agricultural water coupled with invasion of salt cedar trees led to dramatic waterfowl declines by 1960.

In response, the Department purchased the adjacent Black Butte Farm to expand RBWA. This land contained some of the last pristine honey mesquite bosque remaining along the lower Gila River. This acquisition protected the bosque, and provided cultivated grain crops for small game. The combination of wildlife food crops, natural foods and nesting habitat now attracts a combined average of 5,000 breeding white-winged and mourning doves each year.

A portion of RBWA is managed strictly for junior hunters. The "juniors only" hunt in early September gives hunters a chance to pursue doves without adult competition. Hunters under the age of 14 may hunt without a license when accompanied by a licensed adult (each adult can bring up to two young hunters). Shooting locations are assigned on a first-come, first-served basis. Participants must check in prior to hunting and check out when finished. Plan to arrive by 4:30 a.m. for a safety briefing. Afterward, visit the check-in tables and

enjoy a free breakfast provided by the Chandler Rod and Gun Club. Oh, and don't forget to bring plenty of shells. This area can produce lots of chances to fill your bag. Please refer to the current Dove and Band-tailed Pigeon Regulations for specific season dates.

Pheasant Hunt

Arizona's top hunter education graduates are randomly drawn each year for the AZGFD Youth Pheasant Hunt. While taking a hunter education class instructors identify their top students and submit them for this unique opportunity. About 500 kids are nominated each year and 80 lucky hunters are drawn in December and invited to participate in a youth pheasant hunt in Prescott Valley. The event has been sponsored in the past by the Arizona State Chapter of Safari Club International, the National Wild Turkey Federation and the Arizona Wildlife Conservation Council.

Young hunters shoot sporting clays, learn about preparing pheasant for the home table, and hunt behind top quality pointing dogs while being mentored by an experienced Hunter Education volunteer instructor.

A scrumptious lunch is provided for everyone attending. This event is a very positive experience for both parents and young hunters. By attending an Arizona hunter education class and demonstrating exemplary behavior or performance, youth under the age of 18 could be lucky invitees to the 2013 Youth Pheasant Hunt.

Shooting Ranges are Great for Practice

Shooting facilities provide a safe environment to practice for upcoming hunting seasons. Shooting ranges provide shooters with many benefits, including controlled settings, training and education. At a range, shooters at any skill level can practice, sight-in firearms, receive instruction and discover communities of like-minded enthusiasts.

The Where to Shoot website (www.wheretoshoot.org) provides easy access to target shooting and hunting facilities. Simply specify a state to view all ranges within that state, or narrow the search by area code or zip code.

Game Camps, Scholastic Clays and Archery

Learn to Hunt Events

The Arizona Game and Fish Department offers camps on hunting basics to individuals who are interested in hunting but may not know where to start. These hands-on workshops teach the skills necessary to successfully pursue the variety of game animals found in Arizona. Both adults and youths are invited to participate. The camps include instruction and the opportunity to interact with experienced mentors and other camp participants. Attendees will learn information on firearm safety, hunting opportunities, game care, archery instruction and more. There will also be hands-on hunting opportunities. A schedule of upcoming camps is listed on pages 24-26 and also at www.azgfd.gov/outdoorskills.

Scholastic Clay Target Program (SCTP)

The Arizona Game and Fish Department Scholastic Clay Target Program is a team-based youth development program that uses the shotgun sports

to instill discipline, safety, teamwork, ethics, self-confidence and other life values. Team members can participate in any or all three clay target disciplines: trap, skeet and sporting clays. For more information, contact the Shooting Sports coordinator at (623) 236-7305 or visit www.azgfd.gov/sctp.

National Archery in the Schools Program (NASP)

The Arizona Game and Fish Department offers the national Archery in the Schools Program based on a national physical education curriculum introduced in 2003. The core content covers archery, history, safety, techniques, equipment, mental concentration and self-improvement. In addition, the curriculum provides interesting and creative possibilities for integration with core content in social studies, mathematics, visual arts, history and English/language arts. The program provides school PE programs with training, equipment and curriculum to introduce youth to archery. For more information, contact the Archery coordinator at (623) 236-7233 or visit www.azgfd.gov/archery.

New to Hunting?

The Arizona Game and Fish Department is dedicated to introducing children to the American tradition of hunting by offering a wide variety of juniors-only hunting and shooting programs. These programs are designed to get children in the field with a parent, guardian, or mentor who can focus completely on the child, and provide the guidance needed to teach the next generation of hunters how to be safe, responsible stewards and ethical conservationists.

To provide plenty of opportunities, Game and Fish is partnering with sportsmen's groups, gun clubs, and conservation organizations to host mentored events and camps for beginners to assure a positive experience hunting in the great outdoors. Below is a listing of some of the upcoming events.

Who is a Junior?

There are several different categories of “Junior” in Arizona. All of the definitions are listed here:

- A person under 14 may hunt wildlife other than big game without a license when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.
- No one under the age of 14 may take big game without having completed a hunter education course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10-13 years of age must have in their possession a valid hunting license, a valid Hunter Education Course completion card, plus any required permit tags or stamps.

- Trapping: A trapper under the age of 14 is not required to purchase a trapping license, but shall obtain a registration number from any Department office before taking wildlife with a trap. A trapper’s registration number is not transferable.
- Anyone up to and throughout the calendar year of their 20th birthday may purchase a youth combination hunting and fishing license.

JUNIORS-ONLY HUNTS: Eligible hunters: Persons are eligible to participate up to and throughout the calendar year of their 17th birthday, provided that persons between the ages of 10-13 have satisfactorily completed a hunter education course that is approved by the Director as per A.R.S. 17-335 (C).

License, Tag Requirements

See special youth prices on pages 14–15.

Regular Hunts: Junior Eligibility

The Arizona Game and Fish Department is providing this section on juniors-only hunting to highlight the hunts for which hunters have exclusive application opportunity. Some of these hunts have reduced fees. But juniors are not only limited to these hunts. **Juniors may apply for other season hunts (beginning on page 42), but must include the higher fees when applying.** If a junior chooses to apply with an adult, they are not eligible to apply for hunts of the same species listed in the juniors-only seasons.

Transfer Tags

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children. Beginning Jan. 1, 2012, a \$4 transfer fee will apply.

A parent, grandparent or legal guardian holding a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;
- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent’s permit or tag, the grandparent, parent or the child’s guardian must accompany the child in the field. In either case, the adult must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department office, the original permittee may no longer use it.

A person may also transfer his or her game tag for use by a child with a life threatening medical condition or a qualifying permanent physical disability. Consult A.R.S. 17-332 for more information, or visit www.azgfd.gov.

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions or qualifying permanent physical disabilities. The \$4 transfer fee does not apply to nonprofit organizations. You may contact the following organizations to arrange for a donation.

Hunter Education

Hunter Education classes fill up quickly. If you need your Hunter Education card before your hunt, get ahead of the game and register now. To register for a Hunter Education class, visit www.azgfd.gov and select Education or call (602) 942-3000 or toll free at 1 (800) 824-2456.

Get Ahead of the Game

The purpose of Arizona's Hunter Education Program is to promote safe, knowledgeable and responsible hunter conduct, to emphasize the importance of wildlife management, laws and regulations, and to encourage the safe handling of firearms and bowhunting equipment.

Any individual nine years of age or older may complete a hunter education course offered through the Department. To hunt big game youth under the age of 14 must complete hunter education. While you must be 10 years of age to hunt big game you may complete Hunter Education at the age of 9 however, the hunter education completion card and certificate does not become valid until the child's 10th birthday.

You may take Hunter Education in Arizona two different formats: through a traditional classroom setting or an on-line curriculum. Both courses require a hands-on field day and exam. Classroom setting courses are a minimum of 12 hours of classroom learning. Bowhunter specific Hunter Education courses are also available however graduates will not receive a permanent bonus point.

Classroom courses are generally offered during weekends and week-nights across the state. Field days are conducted at a local shooting range.

At a minimum your Hunter Education Course will include the following topics:

- Responsibility, safety skills.
- Funding sources.
- Conservation, fair chase, fair share, hunters' ethics and hunters' image.
- Planning and preparation, maps and compasses, survival skills, coping with extreme weather and basic first aid.

The Arizona hunter education program is not just for children or hunters. This educational program is a valuable experience for anyone who enjoys the outdoors and has an interest in conservation.

- Firearm safety, nomenclature, function, handling and shot-selection.
- Basic muzzleloading, bowhunting, handguns, use of boats in hunting and use of off-highway vehicles.
- Wildlife conservation, management and identification.
- Marksmanship, rifle and shotgun shooting, hunting strategies, vital shots and care of game.
- Arizona hunting laws and regulations and licensing.

Parents are encouraged to participate in the course with their child. For veteran hunters, the course serves as an excellent refresher.

To register for a Hunter Education class, visit www.azgfd.gov and select Education or call (602) 942-3000 or toll free at 1 (800) 824-2456.

TAB +1 The Four Primary Rules of Firearm Safety

- **T**reat every firearm as if it were loaded.
- **A**lways keep the muzzle in a safe direction.
- **B**e sure of the target and beyond.
- **+1** Keep your finger outside the trigger guard until ready to shoot.
- Practice the rest of the 10 Commandments of hunter safety.
- Check your barrel and ammunition.
- Unload firearm when not in use.
- Point a firearm only at something you intend to shoot.
- Don't run, jump, or climb with a loaded firearm.
- Store firearms and ammunition separately and safely.
- Avoid alcoholic beverages before and during shooting.

Hunters Need To Be Prepared

Failing to prepare can lead to injury and death. The cost of the average search and rescue mission can range from \$1,500 to \$4,000 and some searches that are extended operations or require a lot of air support may reach into the tens of thousands of dollars. Hunters should be prepared for any conditions they may face during their hunt. Below are some tips and a list of equipment that should help hunters have a more enjoyable trip.

Motorized Game Retrieval

Motorized game retrieval is prohibited in many areas around Arizona. Hunters should be aware of rules and regulations for the area they plan to hunt. Hunters should be prepared for retrieving their downed game without the use of motorized vehicles. Alternative options include horseback, backpack, and game carriers with or without wheels, depending on land status. See page 43 for more information.

Arizona's top hunter education graduates are randomly drawn each year for the AGFD Youth Pheasant Hunt. While taking a hunter education class, instructors identify their top students and submit them for this random drawing conducted in December. Upcoming classroom hunter education course information can be found at www.azgfd.gov. All classroom hunter education courses are taught by Arizona Game and Fish Department certified volunteer instructors.

Rules of Survival

S	Stop when you realize you have a problem. The first thing to do is admit to yourself that you are in trouble.
T	Think about what you need to do to survive.
O	Observe the area, look for shelter, fuel, etc.
P	Plan how you are going to use your survival kit and other resources. Don't wait until dark to plan!

SURVIVAL TIPS:

- Give a responsible person your hunting or hiking plan.
- Don't travel or hunt alone.
- Take enough food and water to last for several days in an emergency.
- Bring a map and compass, and always orient yourself before leaving camp.
- Wear layered clothing and take extra clothing, preferably wool and polyester, with you.
- Plan your outings so that you can return to camp before dark.
- Never leave camp without taking fire-starting equipment and a foil blanket.
- Don't panic if you become lost.

Youth big game hunters need a Hunter Education card to hunt. They do not need a Hunter Education card to apply for the draw, only a hunting license. Youth hunters can purchase a hunting license without having attended Hunter Education.

Lead and Wildlife

Know the facts and make your own choice

- Lead is a naturally occurring element in the environment and has many beneficial uses. However, it is a known toxin and has been removed from many consumer products like pipes, paint and gasoline.
- Lead has been used in the manufacture of ammunition and fishing tackle for centuries because of its unique properties, availability, performance, and ease and low cost to manufacture.
- Spent ammunition, lost fishing tackle and lead fragments in carcasses and gut piles can be ingested by wildlife. In some cases, these lead sources can cause illness or death in individual animals.
- Birds are the most susceptible to lead toxicity, and population-level effects have been documented in waterfowl, bald eagles, and California condors.
- State fish and wildlife agencies have primary responsibility for managing fish and wildlife resources and use the best science to implement focused management solutions when population effects are documented. Educating the public about wildlife issues is part of their mission.
- Hunters and anglers have been the primary supporters of wildlife conservation in North America since the early 1900s. Collaboration with industry, conservation organizations and shooting-sports interests is also essential to ensuring continued protection of our wildlife resources and conservation heritage.
- Non-lead ammunition and fishing tackle alternatives are becoming more widely available and reasonably priced. Using non-lead alternatives can prevent lead poisoning of individual wildlife and may offer better performance.

Availability

Non-lead ammo alternatives are available for big game, varmint and small game hunting. Non-fragmenting solid copper or copper alloy bullets are now loaded in most hunting calibers. Highly frangible non-lead varmint bullets (compressed copper or tin powder) are available in both centerfire and rimfire cartridges. Non-lead shot (steel, tungsten, and bismuth) is also available.

To learn more about lead and wildlife, visit www.azgfd.gov/lead.

What hunting magazines and Arizona hunters say about solid copper bullets:

"I was very impressed with the bullet's performance, the buck literally dropped in its tracks." – *Kaibab deer hunter*

"Accurate, zero bloodshot, no wasted game meat." – *Kaibab deer hunter*

"I've never seen deadlier performance on game." – *Safari Club International Article*

"While their terminal performance is the stuff of legend, they are also capable of remarkable accuracy." – *American Rifleman Article*

Welcome to Big Game Hunting in Arizona

Arizona has 10 species of wildlife designated as big game by state statute: mule deer, white-tailed deer, pronghorn, elk, turkey, javelina, bighorn sheep, buffalo, bear, and mountain lion. If you also consider that Arizona is occupied by two recognized subspecies of bighorn sheep (Rocky Mountain and desert) and three subspecies of turkeys (Gould's, Merriam's and Rio Grande), there is ample evidence of the diversity of Arizona's big game, and the opportunities a hunter has to pursue. While the diverse habitats in Arizona are home to a lot of different species, no individual species is particularly numerous. Consequently, most big game hunts have a limited number of permits for which you must be drawn to participate.

Elk and pronghorn application information was provided earlier this year. In fact, the draw for elk and pronghorn is complete and you should know if you received one of these tags. This knowledge should help you determine if

you wish to participate in another hunt, and if so, for which deer, turkey, javelina, bighorn sheep, and buffalo hunts to apply.

The Arizona Game and Fish Commission again authorized fall javelina permits for junior hunters. If a junior hunter didn't take a javelina in the spring, that hunter is eligible to apply for these hunts. Junior hunters may wish to apply for a javelina hunt that will complement another deer hunt in which they may participate in this fall. Juniors-only deer hunters in selected units (see juniors-only deer hunts on page 28) will also be provided the opportunity to purchase over-the-counter companion javelina tags, allowing these hunters to hunt for deer and javelina at the same time. These hunts are excellent ways to introduce a junior hunter to big game hunting.

Compared with last year, deer permit levels have decreased, whereas turkey hunting opportunity is comparable to last year, and

bighorn sheep tags have decreased by one. Junior turkey hunters may purchase a turkey tag over the counter and hunt in any unit listed in the Juniors-Only section.

The Commission authorized the continuation of the population management seasons for buffalo in Unit 12A. If you are fortunate enough to be drawn for deer in Unit 12A, you will have the opportunity to purchase a buffalo permit to harvest one of these animals. Keep in mind, these restricted nonpermit tags are offered in areas where the named wildlife are not abundant, so your chances of success are low.

As with any season or upcoming hunt, make sure you do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov/hunting.

Draw Cycles

The Arizona Game and Fish Department conducts three separate application and draw cycles for big game hunt permit-tags. 2007 was the first year the Department held a separate draw for pronghorn antelope and elk. This change was made to let hunters know earlier if they have been drawn for these two popular big game animals. The three draw cycles are:

SPECIES	DRAW DEADLINE
Pronghorn antelope, elk	Second Tuesday in February (pending Commission approval)
Deer, fall turkey, fall javelina, bighorn sheep, fall buffalo, pheasant	Second Tuesday in June (pending Commission approval)
Spring javelina, spring bear, spring turkey, spring buffalo	Second Tuesday in October (pending Commission approval)

To hunt deer during a General, Juniors-Only, Muzzleloader or Archery-Only season, you must apply through a draw for a hunt permit-tag. For Archery-Only Nonpermit Tag hunts, you may purchase a nonpermit-tag from a license dealer as prescribed in R12-4-114. **If a person is applying for a Juniors-Only hunt and a regular hunt on the same application, the higher of the tag fees must be enclosed.***

Archery deer hunters, except those issued a hunt permit-tag through the draw process, must contact the Arizona Game and Fish Department office in person, or by telephone (1-866-903-DEER [3337]) within 10 days of taking a deer (pursuant to R12-4-308). Those issued hunt permit-tags through the draw process will receive, in the mail, a hunter questionnaire to complete and return.

The U.S. Forest Service is concerned about road damage occurring during periods of very wet weather. To prevent road damage, provide for public safety, and protect natural resources, the Forest Service may temporarily close some of its roads to motor vehicle use when soils are saturated and damage is occurring. Hunters should call the appropriate Forest Service office in which their hunt occurs or visit the Forest Service website at www.fs.fed.us/r3 and choose the forest they will be visiting. Once there, go to the current conditions page for the latest road information.

Motorized Big Game Retrieval on National Forest Lands

All national forests are undergoing or have recently completed travel management planning, which will result in changes to motor vehicle access on national forest lands. National forests that have made a decision implementing the Travel Management Rule (<http://www.fs.fed.us/recreation/programs/ohv/final.pdf>) only allow motorized use on designated roads, trails and areas as identified on a Motor Vehicle Use Map (MVUM). These maps are available for free at Forest Service offices.

In designating roads and trails, the new travel management rules include restrictions on driving off-road for game retrieval. The Coronado National Forest and Prescott National Forest have made a decision implementing the new travel management rules and have released MVUM maps; motorized big game retrieval off the designated system is not allowed on either Forest. The Kaibab National Forest (Williams

and Tusayan Ranger Districts) and the Coconino National Forest have also recently established new travel management rules and published MVUMs. Both Forests do not allow for driving off-road for retrieval of deer or other species besides elk.

Other national forests including the Apache-Sitgreaves National Forests, Tonto National Forest, and the North Kaibab Ranger District of the Kaibab National Forest are engaged in travel management planning and have not yet issued decisions. Many of these forests may issue travel management decisions prior to the 2013 hunting season. If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please contact the appropriate national forest(s) for updated information relative to motor vehicle use and motorized big game retrieval.

Hunters can Help Monitor Arizona Deer Health – Submit Deer Heads for CWD Testing

Bring the head of your recently harvested deer to any Game and Fish department office between 8 a.m. and 5 p.m., Monday through Friday (office addresses are listed on page 3). Department personnel will collect a tissue sample for Chronic Wasting Disease testing. Hunters that are successful in Units 1, 2, 3, 27, and 28 are especially encouraged to submit heads because these units are close to New Mexico, a state with infected deer and elk.

It is best if the head has been kept cool and is submitted within a day of harvest. The head may be placed in a garbage bag for delivery. You will be asked to provide information on approximately where the animal was harvested (gmu) and where you can be reached (phone number) in case the test is positive. No CWD has been detected in Arizona's deer or elk to date.

CWD results can be found here:

<http://azgfdservices.com/cwdlogin.aspx>

Keep CWD out of AZ

To protect Arizona's deer and elk herds from Chronic Wasting Disease (CWD), hunters are encouraged to take these voluntary precautions when hunting deer or elk out-of-state, including:

- Don't bring the brain, intact skull, or spinal column into Arizona.

The following elk or deer parts harvested out-of-state are okay to bring back into Arizona:

- Boneless portions of meat, or meat that has been cut and packaged without any portion of the spinal column;
- Clean hides and capes with no skull or soft tissue attached;
- Antlers, clean skull plates, or skulls with antlers attached with no meat or soft tissue remaining;
- Finished taxidermy mounts or products; and
- Upper canine teeth (buglers, whistlers, ivories) with no meat or tissue attached.

CWD is present in the neighboring states of Utah, Colorado, and New Mexico, as well as many other popular hunting destinations for deer and elk. Some states have strict regulations governing carcass movement, so we encourage you to contact the wildlife agency where you travel for any applicable regulations.

<i>To hunt mountain lion in Arizona, you need a valid hunting or combination license and a mountain lion tag. To hunt mountain lion in any season, you must obtain a hunt nonpermit-tag from a license dealer as prescribed in R12-4-114.</i>	
<i>As prescribed in R12-4-308, all hunters must contact an Arizona Game and Fish Department office in person or by telephone at 1-877-438-0447 within 48 hours of taking a lion. The report shall include the hunter's name, hunting license number, tag number, sex of the lion taken, management unit where the lion was taken, and telephone number at which the hunter can be reached to obtain additional information. <i>Hunters may encounter mountain lions wearing radio collars around Flagstaff, Prescott, Payson, Tucson, and western Maricopa County. The lions instrumented with these collars are part of several ongoing research projects. The collars are used to track lion movements as researchers try to learn how the lions use various habitat types and urban interface areas. The longevity of these lions is important to the ongoing research, and data collected will help to improve Arizona's management of lions in the future. If you would like more information about any of these research efforts please contact the Arizona Game and Fish Department Research Branch at (623) 236-7247. Also, if one of these animals is harvested, the hunter is asked to return the collar, as well as any other marking device, such as an ear tag, to a Department office or officer when doing the required physical check-in of the carcass parts.</i>

Population Management Hunts

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (page 120).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department Dec. 31, 2012. You may apply at any time during the

year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).

- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$7.50 application fee (note: one \$7.50 application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department will attempt to contact you three times by telephone

within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.

- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

Condor Country: Why Non-lead Ammunition?

Hunters are helping

For the past five years, 80 to 90 percent of fall hunters have participated in the Department's voluntary lead reduction program by using non-lead ammunition or removing gut piles from the field in the condor's core range.

The hunting community should be proud of this accomplishment, but we still need more hunters to help. Please help us prove to our critics that we can solve this problem on our own and that mandatory measures are not needed.

Hunters who use non-lead ammunition in condor range carry on sportsmen's proud tradition of wildlife conservation. If you choose to use lead ammunition, you can still help by removing your entire game carcass (including small game and varmints) and gut pile from the field. Local landfills accept and bury animal remains.

Hunters praise non-lead bullets

Copper bullets have superior penetration, are less toxic, and do not fragment like lead. 93 percent of hunters say that non-lead bullets perform as well as or better than lead bullets on game. Non-lead shot and frangible bullets also are available for varmint and small game hunting.

The Arizona Game and Fish Department and our partners ask you to be part of the solution by using non-lead ammunition when hunting in condor country (Game Management Units 9, 10, 12A, 12B, 13A, and 13B).

These sportsmen's groups ask you to use non-lead ammunition in condor range:

- Arizona Deer Association
- Arizona Elk Society
- Arizona Antelope Foundation
- Arizona Desert Bighorn Sheep Society
- Arizona Chapter of the National Wild Turkey Federation

Hunters drawn for hunts in condor range will be mailed more information before their hunt.

Lead poisoning is the leading cause of death in condors and the main obstacle to a self-sustaining population. There are currently 79 free-flying condors in Arizona and Utah. At least 22 condors have died from lead poisoning – including three in 2012. Several had lead shot and bullet fragments in their digestive tract. More than 450 cases of lead exposure have been documented in the condor population since 1999.

Lead bullet fragments remain in game carcasses and gut piles left in the field by hunters. These X-rays show hundreds of lead fragments (fragments appear bright white in X-ray) in a deer carcass and gut pile. Condors are group feeders, so several birds can ingest fragments from one carcass or gut pile containing lead.

Studies have concluded that lead shot and bullet fragments found in game carcasses and gut piles are the main source of lead in condors. To learn more about the condor program and for a complete list of non-lead ammunition available, visit: www.azgfd.gov/condor.

Lead varmint and small game ammunition also fragments significantly. This x-ray of a coyote illustrates the amount of lead (bright white fragments) left in the carcass. Each spring condor lead exposures increase as they forage on animal remains left in the field by hunters. Hunters can help by either using non-lead ammunition OR removing ALL varmint and small game carcasses from the field.

ATTENTION SPORTSMEN: Wolves, Jaguars and Ocelots may be Encountered in Arizona

It is your responsibility to identify your target.

Sportsmen may encounter wolves, jaguars or ocelots while engaged in outdoor activities. All three species are listed as endangered in the United States under the Endangered Species Act (Act), and Take, which under federal law means "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct" is generally unlawful and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000. You are responsible for identifying your target before shooting.

Once hunters are aware that they or their dogs are in pursuit of a jaguar or ocelot, they should stop the pursuit immediately. Dogs, if present, should be called off immediately. Sportsmen should let the animal leave the area and take all necessary steps to not intentionally harass or pursue the animal. Wolves, jaguars and ocelots that have been trapped and cannot be safely released should be reported to the Arizona Game and Fish Department immediately.

Jaguar tracks are similar to mountain lion tracks. The front feet of jaguars

are larger than the hind feet (both pads and toes). Typically, jaguar tracks have rounder toes and shorter pad height than mountain lions. Overall, jaguar tracks tend to be wider than those of mountain lions (measuring up to six inches). There is overlap in size between the two species however and their tracks are often difficult to distinguish. Scats are also similar.

The Department asks sportsmen to contact its 24-hour dispatch at (623) 236-7573 **immediately** if a jaguar or ocelot encounter is believed to represent a threat to either the animal or public safety. All other sightings should be reported at the same number as soon as possible, providing location and a description of any physical evidence that may be available. You also may send sighting information (location, physical description and photographs) to rarewlsightings@azgfd.gov.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

ATTENTION SPORTSMEN: Wolves, Jaguars and Ocelots may be Encountered in Arizona

Mexican Wolves in Arizona

During the past several years, many wolves have been illegally shot in Arizona and New Mexico, causing significant setbacks to the Blue Range reintroduction project. It is possible that some of these shootings were cases of mistaken identity, where the shooter believed the target was a coyote. It can be difficult to distinguish wolves from coyotes, especially when the sighting is brief, the animal is far away, if it's a juvenile wolf, or a wolf in its summer coat. Coyote hunters should exercise extra caution from July to November because wolf pups are active, and their appearance and behavior make them appear like coyotes. You are responsible for identifying your target before shooting.

If you are hunting in or near Unit 1 or 27, or near the United States/Mexico border east of Nogales, please be aware that Mexican wolves may be present. Mexican wolves are protected under the Endangered Species Act (Act). Take, which means "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct," is generally unlawful, and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000.

Helping wolves, humans coexist

The gray wolf (*Canis lupus*) is classified as an endangered species in Arizona and New Mexico except between Interstate Highway 10 and Interstate Highway 40. Between these two highways, the wolf is classified as a non-essential, experimental population under section 10(j) of the Act (see map).

All wolves in Arizona are protected, and outside of specific exceptions contained in the 10(j) rule pertaining to the non-essential experimental zone, you may only kill a wolf in defense of human life but and you must report it to the U.S. Fish and Wildlife Service within 24 hours.

Ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if when camping, people feed wolves (or leave dog food out at night).

If a wolf should approach you, raise your arms and look as big as possible. Yell or throw rocks to scare it away. Back away slowly – never run.

Some other tips

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Keep pets close to you. Do not leave them unattended or allow to run free.
- Never feed wildlife – including wolves.

Welcome to Small Game Hunting in Arizona

Small game hunters in Arizona are very fortunate. Few places in North America offer such a diversity of hunts with lengthy seasons as does Arizona. Within this section are the season dates, bag limits, and other pertinent information necessary to hunt small game and other wildlife. The 2012-13 hunting season shows promise as a slightly better year for the small game hunter.

All of our small game species go through boom and bust cycles with varying frequency. Generally, population fluctuations correspond with precipitation patterns. During the past few years, many of our small game populations have suffered ebbs in the cycle. The astute and successful small game hunter keeps a watchful eye on rainfall patterns and increases hunt success by targeting the species or portion of the state where small game populations are most favorable.

Quail and cottontail respond well to rainfall. In some areas these species abound because of increase precipitation, while apparent voids exist in other areas due to the lack of rain. Yet, knowing when rain falls is just as important as knowing where. In the case of quail, Gambel's quail respond to winter rains, scaled quail respond to spring rains, and Mearns' quail respond to summer monsoonal rains. These time-period-specific precipitation patterns affect the hatches and juvenile survival of each species. When precipitation increases during these time periods, these quail populations generally increase as well.

Yet, not all precipitation is good precipitation. In the case of Abert's tree squirrels, an extended period of heavy snows with deep snow pack decreases their overwinter survival because

they are forced to feed on less nutritious pine stems rather than the protein and fat-packed seeds buried under the snow. By watching precipitation patterns across the state, small game hunters can identify those small game species and localities that are likely to provide the best hunting next year.

If you're up for a challenge and want to explore new areas of the state, don't forget about pursuing some of Arizona's other upland game. Chukars, dusky (blue) grouse, and pheasant can take you on an adventure that few others can.

As with any season or upcoming hunt, make sure you do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov/hunting.

To do this we are asking grouse hunters to provide an address or email to the Department's small game biologist so that they can be surveyed directly after the end of the season. This may be done by sending an email to: jodell@azgfd.gov or through regular mail to the Department's main office: Attention Game Branch.

The transportation tag previously completed and attached to the bobcat by the trapper (above) will be collected from the pelt or carcass at the time the CITES tag is attached.

Small Game and Other Wildlife Seasons

Where, When and How Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 42-64 and 78-92). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** manages 16 percent of the state. Call (602) 417-9200 for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 119) delineates the rights and privileges of sportsmen and landowners or operators as regards to state lands. Note that “State Land - No Trespassing”

signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see R12-4-110, paragraph I, page 120. The State Land Department is at (602) 542-4621.

- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 121.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See below for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 70-77 show hunt unit boundaries, which are described in detail in R12-4-108 on page 116. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 42-64 and 78-92).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 124). For special requirements in state wildlife areas, see R12-4-802 (page 129).

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Arizona state law requires all vehicles and operators to be licensed, registered, insured and properly equipped in order to travel on maintained roads or highways. All roads open to vehicle use by the public on NWRs are categorized as “designated routes of travel” which are “maintained” routes. Therefore all vehicles must be “street legal” in order to travel upon NWRs. Any travel off of these roads is prohibited.
2. Any discharge of a firearm except to take legal game is not permitted.
3. Pits, permanent blinds and stands; trail or scouting cameras; and baiting are prohibited.
4. The use or possession of alcoholic beverages while hunting is prohibited.
5. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day’s hunt.
6. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

More information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge at:

- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. You may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation.

Where, When and How Can You Hunt?

Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a privilege, not a right. Your actions may be the determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Homeland Security

Homeland security issues along the international border may affect the quality of a person's hunt. Call 1 (877) 872-7435 to reach the U.S. Border Patrol and report suspicious activity.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Trapping

Trapping on private land is legal in Arizona, with seasons generally running from November through February. All traps must be inspected daily. It is illegal to disturb traps or trapped animals without permission of the trap owner. If you must disturb a trap, for example to release your own dog, leave the trap where you found it. See Trapping Commission Orders on page 92 and A.R.S. 17-301D.

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within 10 days.

Carcass Disposal

Dispose of your carcass discreetly. The Department receives several calls each year reporting the dumping of lawfully taken game. If disposing a carcass in the field, either bury the carcass or place it under a tree away from camping areas and roads. If using a dumpster utilize trash bags or wrap the carcass to reduce the escape of offensive odors.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big game habitat is found on Forest Service lands, the Department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a

vehicle, both of which are illegal. A vehicle is any device designed to carry a person: all terrain vehicles, utility terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301B on page 110.

It is illegal to use an aircraft to pursue, shoot, hunt or otherwise take wildlife. See R12-4-319 on page 128.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 42-64 and 78-92). Seasons for all wildlife are closed unless specifically opened by Commission Order. Special restrictions apply on state wildlife areas (see R12-4-802, page 129), as well as at certain times on parks, refuges and similar areas (see pages 96-98).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 105) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, pages 124-126. Other time requirements apply for migratory birds (see Migratory Bird Regulations).

Operation Game Thief: Wildlife's Answer to Dialing 911

Poachers are a serious threat to Arizona's wildlife. They contribute nothing, yet every animal they take deprives hunters and non-hunters alike of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$8,000 may be offered upon arrest in certain cases. Poachers are a "Mutiny on your Bounty" so please help us put them out of business.

License Revocations and Civil Assessments

The Arizona Game and Fish Commission has the authority to revoke an individual's privilege to take wildlife. It also can bring a civil action against the individual to reimburse the State for the value of any unlawfully taken wildlife. For repeat offenders, the Commission may revoke a person's license to take wildlife for the rest of his or her life. Civil values vary depending on the species of wildlife taken and the size. The current civil assessment for trophy class wildlife starts at \$8,000.

POACHING IS A CRIME

– Minimum Rewards – For information which leads to an arrest.

- \$350** Elk, bighorn sheep, eagles, buffalo, endangered species
- \$250** Deer, antelope, bear, lion, turkey, javelina
- Up to \$150** Beaver, geese, raptors, ducks, small game, nongame birds, fish

Rewards of up to \$8,000 can be offered for information about major violations, repeat offenders and commercial poachers. You need not appear in court or give out your name. Upon the arrest of a violator, a reward may be paid to you in such a manner that you will remain anonymous.

– Other Rewards Of \$50–\$8,000 –

In addition, several sportsmen's groups provide reward monies which allow payment ranging from \$50 to \$8,000 in cases where under state law Operation Game Thief is not able to pay. Nevertheless, the rewards are for cases where the tip was provided originally through Operation Game Thief. Decisions on these are made in consultation with the boards of these organizations:

Arizona Antelope Foundation, Arizona Bowhunters Association, Arizona Elk Society, Tucson Rod and Gun Club, Arizona Desert Bighorn Sheep Society, Arizona Bowhunters and Field Archers Association, Arizona Muzzleloading Association, Central Arizona Bow-hunters, Sportsman's Voice, Phoenix Varmint Callers, Arizona Trapper's Association, North American Bear Society, Sportsman's Gun Club, Tucson Chapter of Safari Club International, Phoenix Chapter of Safari Club International, Arizona Chapter of the National Wild Turkey Federation, and the Arizona Deer Association.

The Arizona Houndsmen have offered a reward up to \$5,000. Please see page 105.

Operation Game Thief Needs Your Help

A majority of cases were initiated by concerned sportsmen, such as you, making a call on the Operation Game Thief hotline. You can and do make a difference! If you witness a violation the following information will assist us during our investigation.

What is the violation?

Where did it occur? Be as specific as possible. It is necessary that our officers return to the site.

When did it occur?

Specific violator/vehicle information. What did the individual look like and what were they wearing? What make, model, and color vehicle were they driving? Record the license plate if possible and, if they left, the direction of travel.

Your name and telephone number. Although this is optional, the number of cases that are actually prosecuted from anonymous tips is very low. This is simply because most people do not know the type of information needed to successfully charge and prosecute a violation. Our officers want to talk with you and will guarantee that no one knows your name. We also want to give you a reward for the information you provided if an arrest is made in the case. Each year we pay out thousands of dollars in reward payments to concerned sportsmen. During the past five years the Operation Game Thief Program has paid more than \$58,000 in rewards.

Off-Highway Vehicles

The use of off-highway vehicles (OHVs), specifically all-terrain vehicles (ATVs, UTVs), by hunters is growing. The Arizona Game and Fish Department's Off-Highway Vehicle Program promotes responsible and safe use of off-highway vehicles.

OHV rules and laws:

- No one may use a motor vehicle to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit, R12-4-217).
- An off-highway vehicle may only be used as a means of travel. It is unlawful to shoot from any OHV, to shoot across, near or from any railroad or roadway.
- It is unlawful to chase or harass any wildlife with a motorized vehicle.
- Cross-country travel is illegal in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.) Always check with the land management agency. Stay on roads and trails.
- As of Jan. 1, 2009, you are required to display the OHV Decal on your vehicle if it meets the two following requirements:
 1. It is made by the manufacturer primarily for travel over unimproved terrain **and**
 2. Has an unladen weight of 1,800 pounds or less(If you have a "street legal" vehicle and you meet these requirements you will also need the OHV decal)
- As of July 1, 2009, all OHVs are required to have a certificate of title. You can obtain a title from the Arizona Department of Transportation Motor Vehicle Division (MVD).
- Anyone under 18 riding **on** an OHV or ATV is required by law to wear a properly fitted and fastened U.S. Department of Transportation approved helmet. For safety reasons, it's recommended that riders under 18 riding **in** a UTV also wear a helmet.
- All OHVs are required to have a USDA approved spark arrestor device.
- All OHVs are required to have either a muffler or other noise dissipative device that prevents sound above 96 decibels.
- It is unlawful to drive an OHV on roads, trails, routes or areas marked closed by any land management agency or private land owner.
- A person from out-of-state may operate an OHV in Arizona if all of the following apply:
 1. The person is not a resident of this state **and**
 2. The person owns the vehicle **and**
 3. The vehicle displays a current OHV sticker/decal/title/registration from the person's state of residence **and**
 4. the vehicle is not in this state for more than 30 consecutive days
- If you witness habitat damage or vandalism, report it at 1-800-VANDALS (826-3257).
- Call Operation Game Thief at 1-800-352-0700 to report wildlife-related violations.

Tips for OHV users:

- Always remember: Nature Rules! Stay on roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.
- It is your responsibility to know applicable OHV laws.
- If traveling across country to retrieve game, do so with such care so that your use is low impact and will not be viewed as a new road by other users.
- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone numbers to federal and state land management agencies are on pages 96-98.

Firearms safety:

- When carrying a rifle or shotgun on an ATV, it should be unloaded and put in a case that is firmly attached to the vehicle.
- It is unsafe to carry a rifle or shotgun mounted on the handlebars of an ATV. The firearm could be wider than the ATV, causing an increase in the chance that the firearm could hit something and lead to loss of control.
- Don't forget T.A.B. +1 – **T**reat every gun as if it were loaded, **A**lways point the muzzle in a safe direction, and **B**e sure of your target and beyond. **+1** Keep your finger outside the trigger guard until ready to shoot.

Hunter Emergency Card

Should a family emergency occur while you are hunting or fishing, or events develop that prevent you from returning home on time, providing the following information can be critical. The information you provide on this form will assist the Department or Sherrif's Office in the event they should need to contact you in the field. Please fill out the form provided and leave it with a relative or friend.

Leave this card with a responsible adult such as an employer, spouse or friend. The County Sherrif is responsible for all rural search and rescue operations. Contact your local Sherrif's Department if you have an emergency that requires contacting a hunter or fisherman in the field, or if someone is overdue in returning home.

Hunters Need To Be Prepared

Failing to prepare can lead to injury and death. The cost of the average search and rescue mission can range from \$1,500 to \$4,000 and some searches that are extended operations or require a lot of air support may reach into the tens of thousands of dollars. Hunters should be prepared for any conditions they may face during their hunt. Below are some tips and a list of equipment that should help hunters have a more enjoyable trip.

Essentials

- Water
- Fire source
- Space blanket
- First aid kit
- Signal device
- Rope / shoe lace
- Clothing for both night and day
- Maps and navigational device
- Water purification tablets or device
- Extra Food
- Pocket knife
- Flashlight/ headlamp
- Cell phone
- Radio (FRS type radios)

Tips

- Planning ahead; inform family/friends of trip location & return time, be familiar with geographical area, environmental conditions (weather)
- Be prepared to spend the night out in the wild
- Have a plan to pack game out
- Do not depend on cell phones
- Be familiar with how to use maps and navigation device

Arizona Antelope Foundation

Antelope hunters are encouraged to attend our annual Hunter Clinic, which typically is held in June. Presentation subjects will include optics, trophy evaluation, photography, taxidermy, practical field care, and hunting tactics for firearms and archery. In addition to the formal presentations, representatives from the Arizona Game and Fish Department usually are on hand to discuss the specific hotspots in the game management units drawn by the hunters in the audience. Look for details at www.azantelope.org.

Arizona Desert Bighorn Sheep Society Clinic

The Arizona Desert Bighorn Sheep Society will hold its annual Hunters' Clinic on Saturday, Sept. 29, 2012, at the El Zaribah Shrine Auditorium, 552 N. 40th St., Phoenix. The clinic is provided free-of-charge by the Society as a public service. Registration begins at 7 a.m. and the clinic will run from 7:30 a.m. to noon. Coffee and doughnuts will be provided. Check out this event and others at www.arizonaelksociety.org. Call (623) 594-7074 for information.

Arizona Big Game Super Raffle

Various state and national sportsmen's groups have put together an annual raffle for one each of the 10 big game species in Arizona. The 365-day season dates are Aug. 15, 2012, through Aug. 14, 2013, and include most units. The drawing will be held Saturday July 14, 2012, in conjunction with the annual Outdoor Experience 4 All banquet. An Optics Raffle, featuring a full array of Swarovski equipment, is also being offered as part of the Super Raffle, as well as a fully guided trophy elk hunt. Since its inception in 2006, the Super Raffles have contributed in excess of \$3.4 million toward completing various wildlife projects here in the state of Arizona. For ticket prices, raffle rules, or other questions, please visit the AZBGSR website at www.arizonabiggamesuperraffle.com.

Rocky Mountain Elk Foundation Junior Elk Hunters Camp

The Rocky Mountain Elk Foundation will host a Junior Elk Hunter Information Camp on Oct. 11-14, 2012, at St. Joseph's Youth Camp (located approximately 3 miles north of Mormon Lake Lodge on Forest Service Rd. 90). Activities will begin at 4:30 p.m. Oct. 11 with an information seminar. Arizona Game and Fish Department personnel will make a presentation about elk concentrations and hunting rules and regulations. Other presentations will cover care of game meat, elk hunting techniques and hunter safety. Game and Fish personnel will be present to answer questions after the seminar. The seminar will be followed by a dinner that will be served to all junior hunters and members of their hunting parties. After dinner a raffle will be held with prizes for registered junior hunters, so be sure and arrive early to register and get your raffle ticket. We plan to conclude all camp activities and dinner by 6:30 p.m. so junior hunters can get ready for opening day. The camp will be staffed 24 hours day until 11 a.m. Oct. 14. Beginning at daylight and until dark coffee, hot chocolate and snacks will be available to visitors. A special prize will awarded to the first girl and boy (who have registered) to bring their elk by camp. An information letter will be mailed to all tag holders in early September. Jaguars: Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling (623) 236-7573.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

More Information to Know Before You Go

Contact the Department About Damaged Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the Department, however many also are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest Department office at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

Thank you in advance for your support of Arizona's wildlife.

Common Violations While Hunting Big Game, Small Game And Migratory Birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 1 (800) 352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Take Wildlife Without A License

(A.R.S. 17-331) Page 111

In order to take any wildlife in Arizona, you must have a current year's hunting license in your possession. You should check your license every time that you go hunting, fishing or collecting. Also, you should sign your license and tag before hunting.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 17) Page 111

Any wildlife that is unlawfully taken, may not be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 15 and 16) Page 111

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Improper Tagging of Big Game

(R12-4-302) Page 124

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 113

Only persons who have been a bona fide resident (pages 13 and 110) of Arizona for a minimum of six months, or members of the Armed Forces stationed in Arizona for a mini-

mum of 30 days, prior to applying for resident licenses and permits. Factors that may establish residency would include most, if not all of the following: a resident is considered to be someone who primarily or permanently resides in Arizona, possesses an Arizona drivers license and registers their vehicles in Arizona, maintains a home in Arizona, votes in Arizona and pays Arizona resident income taxes. A person cannot be considered a resident of two states at the same time.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11 and 17-301 A) Page 111 and Page 110

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by Commission Order. Pay particular attention to 1/2 day dove seasons and review the Commission or-

License Revocation

(A.R.S. 17-340) Page 112

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking, selling, bartering or possession of wildlife
- careless use of firearms resulting in human injury or death

Civil Liability

(A.R.S. 17-314) Page 111

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums (updated annually factoring in the current Consumer Price Index):

For each turkey or javelina.....	\$500.00
For each bear, mountain lion, antelope or deer, other than trophy	\$1,500.00
For each elk or eagle, other than trophy or endangered species	\$2,500.00
For each predatory, fur-bearing or nongame animal	\$250.00
For each small game or aquatic wildlife animal	\$50.00
For each trophy or endangered species animal	\$8,000.00

ders related to the species you are pursuing before leaving home. Use of spotlights to locate game is illegal if you have any weapons in your vehicle. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing. Examples are leaving all ammunition, arrows and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 110 and 128

No person may take wildlife from a motor vehicle (including watercraft and aircraft), except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Take Wildlife With Prohibited Device or By An Unlawful Method

*(A.R.S. 17-301.A; 17-309.A 6,10,19, and 21) Page 110 and Page 111
(R-12-4-303) Page 124, and (R-12-4-304) Page 124*

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take wildlife with a semi-automatic rifle with a magazine that holds more than 5 rounds. It is unlawful to take migratory game birds with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 111

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 111

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

Shoot Across Road

(A.R.S. 17-301 B) Page 110

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

application form contained in a single envelope, or submitted electronically over the Internet as part of the same application. No more than four individuals may apply as a group.

- B. An individual is eligible to apply:
1. For a hunt permit-tag if the individual:
 - a. Is at least ten years old at the start of the hunt for which the individual applies;
 - b. Has completed a department-approved hunter education course by the start date of the hunt for which the individual applies, if the individual is under the age of fourteen; and
 - c. Does not have his or her license or license privileges to hunt in this state suspended or revoked at the time the individual submits an application, as a result of an action under either A.R.S. §§ 17-340 or 17-502.
 2. For a bonus point if the individual:
 - a. Is at least ten years old by the deadline to apply; and
 - b. Does not have his or her license or license privileges to hunt in this state suspended or revoked at the time the individual submits an application, as a result of an action under either A.R.S. §§ 17-340 or 17-502.
- C. An applicant for a hunt permit-tag or a bonus point shall complete and submit a Hunt Permit-tag Application Form, available from any Department office, the Department's Internet web site, or a license dealer. An applicant shall apply at the times, locations, and in the manner established by the hunt permit-tag application schedule that is published annually by the Department and available at any Department office, the Department's Internet web site, or a license dealer. Under A.R.S. § 17-231, the Commission shall set application deadlines for hunt permit-tag drawing applications. The Director has the authority to extend any draw deadline date if problems occur that prevent the public from submitting a hunt permit-tag application within the deadlines set by the Commission.
- D. An applicant shall sign the Hunt Permit-tag Application Form, or provide permission for another individual to sign the application form on behalf of the applicant. If applying electronically over the Internet, an applicant shall attest to, or provide permission for another individual to attest to, the information electronically provided.

application, the following fees as prescribed by R12-4-102:

 3. The license fee if the applicant has not previously purchased a license for the year in which the hunt takes place.
- G. An applicant shall enclose payment for a hunt permit-tag with a single hunt permit-tag application form, made payable in U.S. currency to the Arizona Game and Fish Department, by certified check, cashier's check, money order, or personal check. If applying electronically over the Internet or telephone, an applicant shall include payment by valid credit card as a part of the hunt permit-tag application.

If all hunts selected by the applicant are filled at the time the application is processed in the drawing, the Department shall deem the application unsuccessful, unless the application is for a bonus point.
- I. An applicant shall make all hunt choices for the same genus within one application.
- J. An applicant shall not include applications for different genera of wildlife in the same envelope.
- K. All members of a group shall apply for the same hunt numbers and in the same order of preference. The Department shall not issue a hunt permit-tag to any group member unless sufficient hunt permit-tags are available for all group members.
- L. An applicant shall submit only one valid application per genus of wildlife for any calendar year, except:
1. If the bag limit is one per calendar year, an unsuccessful applicant may re-apply for remaining hunt permit-tags in unfilled hunt areas, as specified in the hunt permit-tag application schedule published annually by the Department.
 2. For genera that have multiple draws within a single calendar year, an individual who successfully draws a hunt permit-tag during an earlier season may apply for a later season for the same genus if the individual has not taken the bag limit for that genus during a preceding hunt in the same calendar year.
 3. If the bag limit is more than one per calendar year, an individual may apply as specified in the hunt permit-tag application schedule published annually by the Department for remaining hunt permit-tags in unfilled hunt areas.
- M. An individual shall not apply for a hunt permit-tag for Rocky Mountain bighorn sheep or desert bighorn sheep if that individual has met the lifetime bag limit for that sub-species. An individual shall not apply for a hunt permit-tag for buffalo if the individual has met the lifetime bag limit for that species.
- N. To participate in the bonus point system, an applicant shall comply with R12-4-107.

- P. Any hunt permit-tag issued for an application that is subsequently found not to be in accordance with this Section is invalid.
- Q. The Department or its authorized agent shall mail hunt permit-tags to successful applicants. The Department shall return application overpayments to the applicant designated "A" on the Hunt Permit-tag Application Form. Permit application fees shall not be refunded. License fees submitted with a valid application for a bonus point shall not be refunded.
- R. If the Director determines that Department error caused

an individual to submit an invalid application for a hunt permit-tag, prevented an individual from lawfully submitting an application, caused the rejection of an application for a hunt permit-tag, or caused the denial of a hunt permit-tag, the Director may authorize an additional hunt permit-tag if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted and the application for the hunt permit-tag would have otherwise been successful based on its random number. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. If the Director determines that Department error caused the failure to apply an applicant's bonus points to an application, the Director may authorize an additional hunt permit-tag to correct the error, if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. An individual who is denied a hunt permit-tag or a bonus point under this procedure may appeal to the Commission as provided under A.R.S. Title 41, Chapter 6, Article 10.

R12-4-107

Bonus Point System

- A. For the purpose of this Section, the following definitions apply:
1. "Bonus point hunt number" means the hunt number assigned by the Commission in a Commission Order for use by an applicant applying only for a bonus point for a genus identified in this Section; and
 2. "Loyalty bonus point" means a bonus point awarded to an individual who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.
- B. The bonus point system grants an individual one entry in each drawing for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that individual has accumulated under this Section. Each bonus point entry is in addition to the entry normally granted by R12-4-104. When processing "group" applications, as defined in R12-4-104, the Department shall use the average number of bonus points accumulated by the individuals in the group, rounded to the nearest whole number. If the average is equal to or greater than .5, the total will be rounded to the next higher number.
- C. The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application Form if all of the following apply:
1. The application is unsuccessful in the drawing or the application is for a bonus point only;
 2. The application is not for a hunt permit-tag left over after the drawing and available on a first-come, first-served basis as prescribed in R12-4-114; and
 3. The applicant, before the drawing, purchases a hunting license valid for the year in which the hunt takes place. The applicant shall either provide the hunting license number on the application, or submit an application and fees for the license with the Hunt Permit-tag Application Form.
- D. An applicant who purchases a bonus point only shall:
1. Submit a valid Hunt Permit-tag Application Form, as prescribed in R12-4-104, with the Commission-assigned bonus point hunt number for the particular genus as the first choice hunt number on the application. Placing the bonus point only hunt number as a choice other than the first choice or including any other hunt number on the application will result in rejection of the application;
 2. Include with the application, payment for the hunt permit-tag application fee and a fee for a hunting

license if the applicant does not already possess a license valid for the year for which the draw is conducted (If an applicant who purchases a bonus point has not already purchased a license for the year for which the applicant is applying, the applicant shall also submit all applicable information designated under R12-4-104(E)(4). If an applicant who purchases a bonus point has already purchased a license for the year for which the applicant is applying, the applicant shall also submit the number of the applicant's license); and

3. Submit only one Hunt Permit-tag Application Form for the same genus for each season that bonus points are issued for that genus.
- E. With the exception of the hunter education bonus point, each bonus point accumulated is valid only for the genus designated on the Hunt Permit-tag Application Form.
- F. Except for a permanent bonus point awarded for hunter education or loyalty bonus points that are accrued and forfeited as prescribed in subsection (K), all of an individual's accumulated bonus points for a genus are forfeited if:
1. The individual is issued a hunt permit-tag for that genus in a computer drawing; or
 2. The individual fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
- G. An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come, first-served hunt permit-tag remaining after the computer drawing does not gain a bonus point.
- H. The Department shall award one permanent bonus point for each genus upon an individual's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.
1. The Department shall credit an individual who graduated after January 1, 1980, but before January 1, 1991, or an individual certified by the Department as an active hunter education instructor after January 1, 1980, with one permanent bonus point for each genus if the individual provides the following information on a form available from the Department: Department identification number; name; address; residency status, and length of Arizona residency, if applicable; date of birth; sex; weight; height; color of hair and eyes; and, for an individual other than an instructor, the month and year of graduation from the Department's Arizona Hunter Education Course.
 2. An instructor or an individual who has graduated from the Department's Arizona Hunter Education Course shall submit the required form 30 days before a drawing's application deadline, as specified in the hunt permit-tag application schedule, in order for the bonus point to be counted by the Department in that drawing.
- I. The Department shall make an applicant's total number of accumulated bonus points available on the Department's application web site or IVR telephone system. If the applicant disagrees with the total, the applicant may request from the Department proof of compliance with this Section to prove Department error. In the event of an error, the Department shall correct the applicant's record.
- J. The Department shall credit bonus points under an applicant's Department identification number for the genus on the application. The Department shall not transfer bonus points between individuals or genera.
- K. The following provisions apply to the loyalty bonus point program:
1. The Department shall award a loyalty bonus point if an applicant submits a valid application at least once a year for a hunt permit-tag or a bonus point for a specific genus consecutively for a five-year period.
 2. An applicant retains a loyalty bonus point once accrued as long as the applicant submits a valid

Arizona Game and Fish Commission Rules About Hunting

application annually for a hunt permit-tag or a bonus point for the genus for which the loyalty bonus point was accrued.

3. If an applicant who has accrued a loyalty bonus point fails to apply in any calendar year for a hunt permit-tag for the genus for which the loyalty bonus point was accrued, the applicant's loyalty bonus point for that genus is forfeited.
 4. For the purposes of the loyalty bonus point program, year one of the calculation of consecutive application years is 2001, and the Department shall award a loyalty bonus point to an applicant who qualifies for the loyalty bonus point on or after the effective date of this Section.
 5. A loyalty bonus point is accrued in addition to all other bonus points.
- L. The Department shall reinstate any bonus points forfeited for a successful hunt permit-tag application for military personnel, military reserve personnel, national guard personnel, or public agency employees who are unable to use the hunt permit-tag due to mobilization, activation, or required duty in response to a declared national or state emergency, or required duty in response to an action by the President, Congress, or a governor of the United States or its territories. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection. To request that forfeited bonus points be reinstated under these circumstances, an applicant shall submit all of the following to the Arizona Game and Fish Department, Draw Section, 2221 W. Greenway Rd., Phoenix, AZ 85023:
1. A letter from the applicant requesting reinstatement of bonus points;
 2. The hunt number for which the hunt permit-tag is valid;
 3. Evidence of mobilization or duty status, such as a letter from the public agency or official orders;
 4. An official declaration of a state of emergency from the public agency or authority making the declaration of emergency, if applicable; and
 5. The valid, unused hunt permit-tag, which must be received before the beginning date of the hunt for which the hunt permit-tag is valid, or evidence of mobilization or activation that precluded the applicant from submitting the tag before the beginning date of the hunt.

R12-4-110

Posting and Access to State Land

A. For the purpose of this Section:

1. "Corrals," "feed lots," or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing, including feeding, roundup, branding, doctoring, and other related purposes.
2. "Existing road" means any maintained or unmaintained road, way, highway, trail or path that has been used for motorized vehicular travel and clearly shows or has a history of established vehicle use.
3. "State lands" means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.

B. In addition to those prohibitions against posting in A.R.S. § 17-304, an individual shall not lock a gate, construct a fence, place an obstacle or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife. An individual in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that blocks access to state land.

C. The provisions of this Section do not allow any individual to trespass upon private land to gain access to state land.

D. An individual may post state lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing

Arizona Game and Fish Commission Rules About Hunting

- purposes as closed to hunting, fishing, or trapping without further action by the Commission.
- E. An individual may post state lands other than those referred to in subsection (D) as closed to hunting, fishing, or trapping only if the individual has obtained a permit from the Commission, and the Commission determines that the closing is necessary:
1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
 2. To prevent unreasonable destruction of plant life or habitat; or
 3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- F. An individual shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (E), or to close an existing road under subsection (J), as required by R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by an individual other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections in writing within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- G. An individual may use a vehicle on or off a road to pick up lawfully taken big game animals.
- H. The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- I. State trust land may be posted with signs that read "State Land No Trespassing" but such posting shall not prohibit access to such land by any individual lawfully taking or retrieving wildlife.
- J. The Commission may grant permission to lock or obliterate a gate or close a road or trail that provides legally available access to state lands for licensed hunters and fishermen if access to such lands is provided by a reasonable alternate route. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days. Applications for permits for more than 30 days shall be submitted to the Commission for approval. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- K. When hunting, fishing, or trapping on state land, a license holder shall not:
1. Break or remove any lock or cut any fence to gain access to state land;
 2. Open and not immediately close a gate;
 3. Intentionally or wantonly destroy, deface, injure, remove, or disturb any building, sign, equipment, marker, or other property;
 4. Harvest or remove any vegetative or mineral resources or object of archaeological, historic, or scientific interest;
 5. Appropriately, mutilate, deface, or destroy any natural feature, object of natural beauty, antiquity, or other public or private property;
 6. Dig, remove, or destroy any tree or shrub;
 7. Gather or collect renewable or non-renewable resources for the purpose of sale or barter unless specifically permitted or authorized by law; or
 8. Frighten or chase domestic livestock or wildlife, or endanger the lives or safety of others when using a motorized vehicle or other means.

R12-4-111

Identification Number

- A. An applicant for a Department identification number may either:
1. Assign his or her own number by using his or her social security number; or
 2. Obtain a number from the Department by providing the Department with full name and any aliases, date of birth, and mailing address.

R12-4-112

Diseased, Injured, or Chemically Immobilized Wildlife

- A. The Director may authorize Department employees to condemn the carcass of a lawfully taken and lawfully possessed diseased, injured, or chemically immobilized wildlife taken under any permit tag that is, in the opinion of the employee, unfit for human consumption, if the individual who took the wildlife requests it and this condition was not created by the actions of the individual who took the wildlife. A Department employee may condemn wildlife that is chemically immobilized if the wildlife was taken during the established withdrawal period of that immobilizing drug.
- B. The individual who took the wildlife shall surrender the entire condemned wildlife carcass and any parts thereof to the Department employee.
- C. After condemnation and surrender of the wildlife, the Department employee shall provide written authorization to the individual who took the wildlife to purchase and use a duplicate tag. The license holder may purchase the tag from any dealer where the tag is available. The license dealer shall forward the written authorization to the Department with the report of the tag sale.

R12-4-114

Issuance of Nonpermit-tags and Hunt Permit-tags

- A. In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371, and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.
- B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
 2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt permit-tag is required to take the species in that hunt area.
1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
 2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:
 - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number for antelope, bear, deer, elk, javelina, and turkey to issue to individuals and groups

that have bonus points. The Department shall reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to individuals and groups that have bonus points.

- b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
 - i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
 - c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.
 - d. If the bag limit established by Commission Order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually.
- D. The Department shall not make available more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any draw to nonresidents. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number to nonresidents.
- E. The Department shall not make available more than 10%, rounded down, of the total hunt permit-tags in any hunt number to nonresidents for antelope, antlered deer, bull elk, javelina, or turkey. If a hunt number for antelope, antlered deer, bull elk, javelina or turkey has ten hunt permit-tags or fewer, no more than one hunt permit-tag will be made available to a nonresident, except that if a hunt number has only one hunt permit-tag, that tag shall only be available to a resident.
- F. Any cap established under this Section applies only to hunt permit-tags issued by random drawing under subsections (C)(2)(b) and (c).

R12-4-115

Supplemental Hunts and Hunter Pool

- A. For the purposes of this Section, the following definitions apply:
1. "Management objectives" means goals, recommendations, or guidelines contained in Commission-approved wildlife management plans, which include hunt guidelines, operational plans, or hunt recommendations;
 2. "Hunter pool" means all individuals who have submitted an application for a supplemental hunt; and
 3. "Supplemental hunt" means a season established by the Commission for the following purposes:
 - a. Take of depredated wildlife under A.R.S. § 17-239;
 - b. Take of wildlife under an Emergency Season if the Commission adopts, amends, or repeals a Commission Order for reasons constituting an immediate threat to the health, safety, or management of wildlife or its habitat or to public health or safety; or

Arizona Game and Fish Commission Rules About Hunting

- c. Take of wildlife under a population management hunt if the Commission has prescribed restricted nonpermit-tags by Commission Order for the purpose of meeting management objectives because regular seasons are not, have not been, or will not be sufficient or effective to achieve management objectives.
- B. For the purposes of authorizing a population management hunt, the Commission through Commission Order shall open a season or seasons and prescribe a maximum number of restricted nonpermit-tags that the Director may issue under this Section.
- C. The Director shall implement a population management hunt under the open season or seasons prescribed in subsection (B) if the Director finds that:
1. Regular seasons have not met or will not meet management objectives;
 2. Take of wildlife is necessary to meet management objectives; and
 3. Issuance of a specific number of restricted nonpermit-tags is likely to meet management objectives.
- D. To implement a population management hunt under subsection (B), the Director shall do the following:
1. Select season dates, within the range of dates prescribed by the Commission through Commission Order;
 2. Select specific hunt areas, within the range of hunt areas prescribed by the Commission through Commission Order;
 3. Select the legal animal that may be taken from the list of legal animals prescribed by the Commission through Commission Order;
 4. Determine the number of restricted nonpermit-tags that will be issued from the maximum number of tags prescribed by the Commission through Commission Order; and
 5. Reduce restricted nonpermit-tag fees up to 75% if the normal fee structure will not generate adequate participation from either the hunter pool or hunt permit-tag holders under subsection (J).
- E. The Director shall not issue more restricted nonpermit-tags than the maximum number prescribed by the Commission through Commission Order.
- F. To participate in a supplemental hunt, an individual shall obtain a restricted non-permit tag as prescribed by this Section. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued.
- G. If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.
- H. To obtain a restricted nonpermit-tag under subsection (G), an applicant shall provide to a Department office the applicant's name, address, Department identification number, and hunt permit-tag number on a form prescribed by the Department.
- a. The applicant shall provide verification that the applicant legally obtained the hunt permit-tag for the hunt described under subsection (G) by presenting the hunt permit-tag to a Department office for verification.
 - b. The applicant shall not apply for or obtain a restricted nonpermit-tag to take wildlife in excess of the bag limit prescribed by the Commission.
- I. The Department or its authorized agent shall maintain a hunter pool for supplemental hunts and shall randomly select applicants from the hunter pool for participation in a supplemental hunt, if the season dates and open areas of the supplemental hunt do not exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw.
