From the Director's Desk

The future of hunting depends on introducing younger generations and women to the world of hunting, and ultimately the management and conservation of wildlife. Before the torch can be passed to the next generation, they must be willing to accept it. Women and young people might very well be some of our best ambassadors for hunting. My daughter, Lena, harvested her first deer at age 11. Over the years she has acquired a unique and practical perspective on hunting. I have invited her to share her thoughts and now yield my space to her. – Director Larry D. Voyles

To hunt is at once one of the most fundamentally, primordially human behaviors in which we can engage, and it is at the same time one of the most transcendent.

One of the great popular myths is the myth of the hunter as triumphant tyrant towering over his slain prey. There is nothing tyrannical about the average North American hunter, and most folks by the time they have made a kill feel not so much triumph as they do awe and gratitude.

Because the hunter goes afield never knowing what he is going to find. He has left behind all the security, all the certainty of his urban existence and its industrial domination of nature. The hunter is not man triumphal, he is man plunged into uncertainty. The average American feels more zealous entitlement seizing a package of pork chops from the chiller case than the average hunter does in felling his quarry.

As he departs from his urbanized, mechanized bubble of security, the hunter places himself in the hands of a force much older and greater. As he relinquishes his dependence on his faceless fellow men, and allows himself instead to be fed directly from the unpredictable wilds of Nature

itself, he is reminded of his covenant with the force that directs Nature to his benefit.

To hunt then becomes a reenactment of that original covenant with the force that moves all things. It serves to remind us that we live in a world in which we are provided for. Neither a world we must beat into submission, as one extreme would have us believe, nor a world too fragile for human hands, in need of shelter from our very humanity, as another extreme would have us believe.

So it is that the hunter embodies the transcendent quality of acceptance. A humble acceptance of the bounty which is prepared for him.

As a hunter, you have a particularly heightened awareness of an ancient truth: the human desire to be not separated from the landscape, but to be an element of it, as fundamental to its existence as a tree or a stone or any of the other large predators that share our ecological niche. And you have the power to give that perspective to those you include in your hunting, as my grandfather shared with my father, and my father shared with me. The ability to share the power of that perspective with

another human is perhaps the most precious resource anyone interested in the natural world could hope to command.

My father was not afraid to wake me before dawn, to lead me through snow and mud and thorn brush to show me the wonder of that perspective, and I wish for you the courage to do likewise for at least one person in your life who has not, as yet, looked through the eyes of a hunter.

Important Information for 2014-2015

This list is for informational purposes only and lists the major changes that have occurred since publication of the last regulations booklet. Individuals should thoroughly read and understand the appropriate regulations prior to submitting an application or going afield. If you have questions, please call (602) 942-3000.

New License and Tag Structure and Fees New hunting and fishing license structure and fees are in effect. For more information, see pages 16-17.

Juniors = Youth Throughout the regulations, the term Junior has been replaced with Youth. All Junior-Only (Youth-Only) hunt tables have been moved into the main hunt (Commission Order) section of this book. See pages 40-66 for all hunts, including Youth-Only hunts.

Attention Hunters Game and Fish Commission Rule R12-4-305.I was recently amended to include the restriction of importing the nervous tissue of cervids (deer and elk) from legally harvested animals from other states or countries into Arizona. Essentially, only the meat, hides and horns (free of brain tissue, spinal tissue and nervous tissue) from deer and elk lawfully harvested in other states or countries can be imported into Arizona. This Rule amendment was in response to the prevention of Chronic Wasting Disease (CWD) in deer and elk populations within Arizona. For more information on this rule and CWD, please see page 47.

Archery Deer Hunters There is a new design to the archery deer hunt table on page 42. The new design lists season dates, legal animal, and regulatory notes by individual unit. Please review the notes closely for the unit(s) you choose to hunt as new restrictions apply in several units.

Removal of Buffalo Companion Tags Buffalo companion tags associated with Kaibab deer hunts have been discontinued. These tags are not available for the 2014 hunting seasons.

Boquillas-Diamond A Ranch (Unit 10) Boquillas-Diamond A Ranch in Unit 10 has implemented new Ranch Rules and a mandatory permitting process which includes an impact fee for all hunting activities within the ranch boundaries. The Boquillas-Diamond A Ranch encompasses the entire western half of Unit 10, about 720,000 acres. If planning to hunt the Boquillas-Diamond A Ranch portion of Unit 10, hunters are advised to visit the Ranch's website: www.HuntBigBoRanch.com.

Paper Correction Period Eliminated Due to decreasing participation in the paper application process and the availability of the online application system that virtually prevents applicants from making application errors, the Commission has eliminated the paper correction period starting with the 2014 spring draw. If you use the online system, you are required to pay the application fee as well as any purchased licenses fees at the time of application. Once the draw takes place, and IF you are successfully drawn, the Department will charge the credit or debit card you have on file for the permit fee. If payment fails, the Department will make three attempts within two business days to contact you and notify you that your payment has been declined. You will then be afforded a means of providing alternative payment within a specified timeframe. If the Department has not received an alternate payment at the end of that specified timeframe, applicants will be rejected. No exceptions will be made for individuals who do not respond to the Department's attempts to contact them. Deadline for updating credit or debit card information online is 11:59 p.m. (MST) Sunday, July 6, 2014.

Getting Started Checklist

Welcome to hunting in Arizona. If you don't know where you want to hunt, what you need, or even what you can hunt in Arizona, this section is for you. It is designed to help NEW hunters get started. Following is some basic information you should consider while planning your hunt. The best way for all hunters to prepare themselves to hunt in Arizona is to take a Department-sponsored hunter education course (see page 32).

□ Step 1. Where to Start

1. What animal(s) can you hunt?

- Small game: cottontail rabbit, tree squirrel, migratory game birds, and upland game birds like quail.
- Big game: black bear, bighorn sheep, buffalo, deer (mule and white-tailed), elk, javelina, mountain lion, pronghorn antelope, and turkey.
- Predator/fur-bearer: coyotes, skunks, foxes, raccoons, bobcat, ringtail, weasel, and badgers.
- Other birds and mammals.

2. Do you have a hunting license?

To hunt in Arizona, a license is required. Check out page 17 for a list of our hunting permit and license fees. You can purchase hunting licenses online at www.azgfd.gov. You also can purchase licenses, tags, and/or stamps from any of our 340 license dealers (information is online at www.azgfd.gov), or Department offices statewide (see page 3 for office locations).

3. Did you validate your license?

You must first sign your license. For some species you must also purchase a stamp or stamp privilege for the license to be valid. You will need a tag in addition to a valid license to hunt big game, sandhill cranes, and pheasants. You must also sign all tags before going afield for them to be valid.

□ Step 2. Where/When to Hunt

1. Where do you want to hunt?

Arizona is divided into Game Management Units (GMU or unit) composed of state, federal, military, and private land. Review the GMU maps (pages 70-77), and the "Where you can hunt section" (page 96) for more information.

2. When do you want to hunt?

There are several different seasons in which you can hunt a species. Go to individual species to determine their seasons.

□ Step 3. "To Apply or not to Apply?"

1. Don't Apply.

For most small game species, and all predator/fur-bearer and other birds and mammals you simply need a license and any required validations (for example: stamps) to hunt.

There are also several big game species that you may pursue simply by purchasing an over-the-counter nonpermit-tag in addition to your license. These hunts include archery turkey, mountain lion, fall bear, some archery deer and elk. Mountain lion, buffalo, bear and bighorn sheep have mandatory reporting requirements, so check the information on the corresponding Commission Order.

2. Apply.

Permits for most big game species, sandhill crane, and pheasant are issued through a hunt drawing. If interested in hunting any of these species, you must apply for a tag in a drawing; refer to page 18 in this booklet or the appropriate supplement for specific information. You can apply online or by paper application. The sample application form on page 21 will help you to apply for both a tag and license. Follow the instructions on the sample form and DON'T forget to include your correct fee(s).

□ Step 4. Do Your Homework

1. Common violations

Before you go hunting we recommend you read pages 106-107 to be aware of the most common violations. Also, take a look at the Arizona laws and rules beginning on page 110 to learn what you can and can't do in Arizona. If you are witness to a violation please call our Operation Game Thief hotline at 1-800-352-0700 to report the violation. You may be eligible for a cash reward.

2. Care/transport information

Before you go in the field, review our laws and rules to understand requirements to possess and transport wildlife after your hunt. Generally, you need to keep your license on your person and your tag affixed to your carcass at all times during transport. The Department has information available to properly care for your wildlife (see page 3 for regional office locations and phone numbers).

3. You're on your way!

These are just some basic steps to help you start your first hunt. Please read through the rest of the hunting and trapping regulations to better familiarize yourself with hunting in Arizona. If this section fails to answer your questions, contact any Arizona Game and Fish office or visit our website www.azgfd.gov.

Definitions

Big Game: Any of the following species: mule deer, white-tailed deer, pronghorn antelope, elk, turkey, javelina, bear, bighorn sheep, buffalo and mountain lion. All species require a hunt permit-tag, except for archery turkey, youth turkey, fall bear, mountain lion and some archery deer; these species require a nonpermit-tag.

Big Game Drawing: A random computerized lottery drawing to determine issuance of hunt permit-tags. Three separate draws occur each year for various species.

Bonus Point: An accumulated credit that authorizes the Department to issue a Big Game Drawing applicant additional computer-generated random numbers during a draw.

Commission Order: A document adopted by the Commission that does any or all of the following: open, close, or alter seasons and open areas for taking wildlife; specify wildlife that may or may not be taken; set bag or possession limits for wildlife; or set the number of permits available for a hunt.

Daylong: the 24-hour period between midnight and midnight.

Department ID: A number used to identify the hunter by name and address, and to accumulate bonus points. A hunter may designate their Social Security number or a Department issued, computer-generated number. (Federal regulations require all applicants must provide their Social Security number.)

Game Management Unit: An area established by the Commission for management purposes, commonly referred to as GMU or Unit (see maps on pages 70-77, and boundary definitions on page 116).

Genus: A major category in the classification of animals and plants ranking above the Species level and below the Family level.

HAM: Designates weapon type as handgun, archery, or muzzleloader.

Hunt Area: A game management unit (GMU or unit), portion of a unit, group of units, or any portion of Arizona and not included in a GMU that is open to hunting by a particular hunt number.

Hunt Number: The number assigned by Commission Order to a hunt where a limited number of hunt permit-tags is available. The hunt number will specify species, dates, boundaries of the hunt area, weapon type, number of available permits, legal wildlife, and who may hunt. Hunt numbers are assigned for any species where hunt permit-tags are issued through a drawing.

Hunt Permit-tag: A tag for a hunt in which a Commission Order has assigned a hunt number. The number of tags is limited by the Commission Order and may only be obtained through a random drawing. A hunt permit-tag along with a license authorizes an individual to hunt a designated species during the designated hunt.

Hunter Pool: A computerized database comprised of individuals wishing to be considered for a restricted nonpermit-tag when a supplemental hunt is authorized. Entry into the hunter pool consists of completing an application (page 65) and submitting it along with the application fee to the Department.

License Dealer: A business authorized to sell Arizona hunting, fishing, and other licenses and stamps.

Muzzleloading Handgun: A firearm intended to be fired from the hand, incapable of firing fixed ammunition, having a single barrel, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Muzzleloading Rifle: A firearm intended to be fired from the shoulder, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Nonpermit-tag: A tag for a hunt in which a Commission Order does not assign a hunt number and the number of tags is not limited (over-the-counter tag). A nonpermit-tag along with a license authorizes a hunter to hunt certain game species. A nonpermit-tag may be purchased at Department offices or from licensed dealers.

Resident: "Resident" means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction. Or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Restricted Nonpermit-tag: A tag issued for a supplemental hunt.

Season: The legally established time a species can be hunted.

Small Game: Any of the following species: cottontail rabbits, tree squirrels, upland game birds (quail, blue grouse, chukar partridge, and pheasants), and migratory game birds (doves, waterfowl, sand-hill crane, coots, gallinules, snipe, and band-tailed pigeons).

Species: A naturally existing population of similar organisms that usually interbreed only among themselves.

Stamp: A form of authorization in addition to a license that allows the license holder to take wildlife specified by the stamp. The form of the stamp may be an actual stamp affixed to the back of the license, a printed privilege on the license itself, or a printed privilege on a separate license form.

Supplemental Hunt: A season established for a particular species by the Commission for the following purposes: take of depredating wildlife, take of wildlife under an Emergency Season, or take of wildlife under a population management hunt. The Commission through Commission Order shall approve a season or seasons and prescribe a maximum number of restricted nonpermit-tags for specific species that the Director may authorize for issuance.

Trapper Registration Number: A trapper's registered number shall be issued by the Department and entered upon the trapping license at the time of purchase. A trapper's registration number is not transferable. All traps shall plainly be identified with the trapper registration number or the trapper's name and address.

The North American Model of Wildlife Conservation

Did You Know?

The Arizona Game and Fish Department is responsible for wildlife management in the state and receives no state tax dollars. Hunters and anglers pay for wildlife conservation through their purchase of licenses, tags and stamps, and excise taxes on hunting and fishing gear. The conservation dollars paid by hunters and anglers benefit both game and nongame species and their habitats.

What Is It?

The North American Model of Wildlife Conservation is the world's most successful system of conservation. No other continent retains such a complete balance of native wildlife species. While other countries struggle to conserve the little they have left, we enjoy great diversity and abundance of wildlife. This user-pay, public-benefit model relies on sound science, public participation, active habitat management, strict regulation, and active law enforcement to sustain wildlife populations. The end result is a harvestable surplus of game species every year, and an opportunity for all to enjoy it.

A Renewable Resource

Sportsmen's Role in Wildlife Conservation

Whether one chooses to actively participate in hunting or angling, people interested in wildlife and its future should understand the role sportsmen and women play in conservation. Hunters and anglers were the forward-thinking conservationists who developed the North American Model of Wildlife Conservation over a century ago. Hunting, angling and shooting sports continue to be the primary source of funding for conservation efforts in North America. Through a 10 percent to 12 percent excise tax on hunting,

Sandhill cranes

angling and shooting sports equipment, participants in those activities have generated more than \$10 billion toward wildlife conservation since 1937.

Though past conservation efforts have focused on hunted species, non-hunted species reap the rewards as well. Countless numbers of non-hunted species have been saved from peril by protecting wetlands for ducks, forests for deer and grasslands for pronghorn.

If Hunting and Angling Ended

There is no alternative funding system in place to replace the potential lost funds for conservation. If hunting and angling end, funding for wildlife conservation, including enforcement of all wildlife laws, will be jeopardized.

Hunters, anglers and shooters actively support wildlife conservation through tangible actions such as buying licenses and paying taxes on hunting, fishing and shooting equipment.

Why are hunters and anglers so willing to support conservation through their pocketbooks? Because people place added value on – and are willing to pay for – what they can use.

Given the rate of population growth, particularly in western states, the percentage of people participating in hunting and fishing is decreasing. Therefore, it is important to engage in traditional outdoor recreational activities and introduce others to these opportunities.

The North American Model of Wildlife Conservation

Arizona's Core Concepts

The North American Model of Wildlife Conservation is the foundation for wildlife conservation in Arizona and throughout the country. Hunters and anglers are its backbone. The Arizona Game and Fish Department's core concepts of the North American Model are:

Wildlife is held in the public trust

The public trust doctrine means that wildlife belongs to everyone. Through shared ownership and responsibility, opportunity is provided to all.

Regulated commerce in wildlife

Early laws banning commercial hunting and the sale of meat and hides ensure sustainability through regulation of harvest and regulating commerce of wildlife parts.

Hunting and angling opportunity for all

Opportunity to participate in hunting, angling and wildlife conservation is guaranteed for all in good standing, not by social status or privilege, financial capacity or land ownership. This concept ensures a broad base of financial support and advocacy for research, monitoring, habitat conservation and law enforcement.

Hunting and angling laws are created through public process

Hunting seasons, harvest limits and penalties imposed for violations are established through laws and regulations. Everyone has the opportunity to shape the laws and regulations applied in wildlife conservation.

Hunters, Anglers, Boaters and Shooters Fund Conservation

Hunting and fishing license sales and excise taxes on hunting, shooting and fishing equipment and motor boat fuels pay for the management of all wildlife, including wildlife species that are not hunted.

Wildlife is an international resource

Proper stewardship of wildlife and habitats is both a source of national pride and an opportunity to cooperate with other nations with whom we share natural resources. Cooperative management of migrating waterfowl is one example of successful international collaboration.

Science is the basis for wildlife policy

The limited use of wildlife as a renewable natural resource is based on sound science. We learn as we go, adapting our management strategies based on monitoring to achieve sustainability.

Scientific information gathered from animals, like this radio-collared elk, contribute to wise wildlife management decisions. Sportsmen's dollars help pay for wildlife research in the user-pay-user-benefit model of conservation.

The reward for this successful model of conservation is the opportunity for all.

Regulations for the taking of wildlife are forged through public input. Enforcement of these laws is critical to wildlife conservation.

Ethical Hunting is Everyone's Business

"Ethics is not only about what you should not do, but what you should do. Offer to lend a hand to another hunter if they are retrieving downed game, share information on hunting conditions and engage in helpful conversation with beginners you happen to meet. Hunting is a heritage we all share, and together, we can continue to share it for generations to come."

– *Arizona Game and Fish Department*

What are Ethics?

Ethics generally relate to fairness, respect and responsibility. Aldo Leopold once said "ethical behavior is doing the right thing when no one else is watching-even when doing the wrong thing is legal." They are the personal unwritten rules that we value. When we talk about an ethical hunter their behavior is an example of the sportsmanship they demonstrate in the field.

Ethics with Landowners

- Ask permission for access prior to the season before hunting on private property;
- Go out of your way to respect landowners and their property. Be courteous, visit with them, be thankful, offer assistance when necessary, or share your harvest with them;
- Leave the land better than you found it. Return all gates to the way they were. Notify the landowner of any damage or repairs needed to fences that you find and offer your help;
- When "nature calls," walk away from roads and trails. Find a discrete location and bury the waste;
- Drive only on existing roads approved for use;
- Leave livestock and other property undisturbed.

Ethics with Other Hunters

- Follow safe firearms and bow handling practices at all times;
- Abide by game laws and regulations;
- Refrain from interfering with another hunter's hunt or campsite. If you see someone in that area, back out;

- If you meet up with another hunter in the field, be polite engage in conversation and share information.
- A trophy is calculated not by score but by memories. Be respectful and congratulate others for their harvest, regardless of antler size.

Ethics with Waterholes

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access;
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first;
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt;
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present;
- Hanging a tree stand or setting a blind near a waterhole does not entitle a person to exclusive hunting rights to that waterhole. Depending on the location it may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- It is unlawful for a person to camp within one-fourth mile of a natural water hole containing water or a man-made watering facility containing water in such a place that wildlife or domestic stock will be denied access to the only reasonably available water.

Ethics about "First Come – First Serve"

"First Come – First Serve" is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or disorderly conduct can result in citations, arrests and/or jail time.

Please refrain from confrontational behavior – ethical hunting is everyone's business.

Ethics with the Quarry

- Only take a well-placed shot in a vital area of the game species you are permitted to take;
- Know your limitations. Be mindful of your effective shot range. Avoid extreme distance shots, risky angles and situations where you do not feel confident in your shot. Strive for a quick, clean harvest;
- Select appropriate equipment for your quarry. Be aware of the equipment's limitations as well as your effective range. Take time to practice to ensure an accurate shot;
- Respect your personal capabilities under various conditions that you could potentially encounter during a hunt. Consider your general health, physical condition, weather and elevation in the area you plan to hunt. Be sure to hunt areas that are within your physical limitations.
- Bowhunters should keep in mind shots at greater distances may result in the quarry moving before the arrow reaches it. Kinetic energy is extremely important on larger game animals as energy is lost at longer distances which can result in wounded or lost game;
- Learn about the habits and habitat of the game species you are hunting;
- Make every possible effort to recover game;
- Adhere to the rules of fair chase;
- Follow up every shot at game with a search for sign. You cannot always tell immediately that an animal has been hit.

Ethics with Carcass Disposal

Thanks to recreationist the Operation Game Thief Program has enjoyed great success with the Department receiving thousands of calls each year many of which lead to the apprehension of wildlife law violators. The Arizona Game and Fish Department also receives calls regarding the dumping of wildlife that have been legally killed because the reporting party is unable to discern that the animal was taken legally. Under these circumstances the Department expects and appreciates notification. In

Ethics

most cases the reports are from individuals that find the carcasses in dumpsters, close to urban areas, and in or near a campsites and roads. In an effort to reduce unnecessary reports the Department asks that sportsmen take care to dispose of their lawfully taken carcasses so that they are not discovered by the general public. The Department recommends burying the carcasses or leaving them under a tree away from camping areas and roads. Additionally if utilizing a dumpster use trash bags or wrap the carcass to reduce offensive odors. Remember that sportsmen are obligated to remove game from the field and are prohibited from wasting game meat.

Ethics with Non-hunters

- Show respect for other users of the land and their property. They possess the same rights as you do to use the lands;
- Be courteous to non-hunters when transporting your game from the field. Transport animals discreetly;
- Don't leave remains of field dressing in places where it is easily visible. Respect other people that may be walking by;
- Clean up to the best of your ability before entering into a public place when returning from a hunt if you cannot change clothes. Present a professional image;
- Take tasteful photographs of your hunt;
- Invite someone new to come hunting with you.

Ethics in Reporting Honest Mistakes

The Arizona Game and Fish Department realizes that with the hundreds of thousands of hunters that take to the field each year there are bound to be some unfortunate circumstances that may occur. It might be a case where a hunter mistakes a doe for a buck, shoots a second elk due to a pass-through shot, or accidentally shoots an extra dove over

the limit. While these accidents are infrequent, they do occur to honest hunters every year.

Your decisions in the time immediately after you make a mistake can make a huge difference in the outcome. Mistake or accident, the sportsman is ultimately responsible for their actions. Although self-reporting may not get you out of a citation, it will greatly reduce the likelihood of being cited for a revocable offense. When accidents happen it is critical you notify the Department as soon as possible. If you find yourself in this situation don't compound your mistake by trying to conceal it. Call the Operation Game Thief Hotline (1-800-352-0700) at your first opportunity and follow the instructions provided by the operator. A wildlife manager will be dispatched to the scene to assist you. In almost all cases, the meat from animals involved in a self-reported violation will be donated to a charitable organization.

License Revocations in 2013

In 2013, the Arizona Game and Fish Department convicted 41 people of wildlife crimes that led to the Commission revoking their hunting and angling privileges. Tips called in and emailed to Operation Game Thief by ethical sportsmen and women assisted officers in the convictions. Because revocations can be three years or longer, there are a total of

355 individuals who currently cannot hunt or fish in Arizona. Thank you Arizona hunters and anglers, and continue to keep a look out for activities that damage our wildlife populations and the public perception of our hunting and fishing heritage.

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Short-term Combination Hunting and Fishing License nor an Apprentice Hunting License is valid for big game.

Youth ages 10–17 must purchase a Youth Combination Hunting and Fishing license. The license fee is \$5.

A person under 10 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may hunt big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags or nonpermit-tags.

Where to Buy Licenses

Arizona hunting licenses may be purchased online at www.azgfd.gov. If you purchase a license online, **you must print the license from your home printer**. The Arizona Game and Fish Department will not mail your license to you. Licenses also can be obtained from any license dealer or Arizona Game and Fish Department office (see locations on page 3 of this booklet).

If you are applying for a big game permit-tag or bonus points on a paper application, you may purchase your general hunt (available for residents only) or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until the draw is complete.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If

you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

“Resident” means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction; or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Arizona Residents may purchase a resident license. All other individuals must purchase a non-resident license.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An apprentice hunting license is valid for two consecutive days when the apprentice is accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice License. An apprentice may be a resident or non-resident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a domiciled resident of this state who is at least 18 years of age and must possess an annual hunting or combination license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice

hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield.

High Achievement Scout License

The High Achievement Scout License license is offered to a resident youth who has attained either the rank of Eagle Scout (Boy Scout) or received a Gold Award (Girl Scout). The fee for the reduced license is \$5. The applicant must present proof of their rank or award by providing their certification letter, wallet card, or award certificate at any Department office, and complete the High Achievement Scout License application (Form 306, available on the Department website or at any Department office). This license is not available through the draw. At the age of 21, an Eagle Scout or Gold Award recipient is no longer eligible for the High Achievement Scout License license, and from that point forward would be required to purchase an adult license.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags, and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Licenses purchased online can be reprinted for free. Duplicate licenses can be purchased online. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for information about this permit (page 123 of the 2014-15 Arizona Hunting Regulations). Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession

License Information

at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (304) 616-4550, or download an application from the ATF website at www.atf.gov.

Tag Transfers

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to minor children. A \$4 transfer fee applies.

A parent, grandparent or legal guardian holding a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on

the date of transfer;

- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;
- Any grandparent, parent or the child's guardian must accompany the child in the field, and must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department of Game and Fish office, the original permittee may no longer use it.

Should you be unable to use your big game permit, the Department is unable to reim-

burse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions or qualifying permanent physical disabilities. The \$4 transfer fee does not apply to nonprofit organizations. You may contact the following organizations to arrange for a donation. Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a

formula based on hunting license sales and the state's land area. In 2014, that means more than \$19 million for game management in Arizona. This money pays for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world... thank you.

Great Outdoors, Great Value

Arizona's 2014 Hunting and Fishing Licenses

There are some exciting changes to Arizona hunting and fishing licenses. A new license and fee structure is easier for customers and offers more value. Benefits of the new licenses include:

- **A simplified structure.** The former structure of more than 40 license and stamp options is reduced to six license options and a single migratory bird stamp.
- **Bundled privileges for better value.** Most licenses have bundled privileges offering more value. For example, the General Fishing license now includes the privileges of the former Class A general fishing license, plus privileges for trout, two-pole and Community Fishing (no need to buy separate stamps or licenses for those privileges). The license also includes fishing privileges for Arizona's shared Colorado River waters with California and Nevada. The Combination Hunt and Fish license also includes the privileges of the new General Fishing license,

along with the privileges of the General Hunting license.

- **Valid for one year.** Licenses (other than the Short-term) are valid for one year from the date of purchase instead of just for the calendar year.
- **Youth Combination Hunt and Fish license for only \$5.** The Youth Combination Hunt and Fish license costs only \$5 and is required for youth ages 10-17.
- **Short-term Combination Hunt and Fish license.** This may be purchased for any single day or for multiple days. The purchaser picks the date(s) of validity at the time of purchase. If purchased for multiple days, the days need not be consecutive.
- **Single State Migratory Bird Stamp.** The Arizona Migratory Bird Stamp, which is required (along with your hunting license) for the taking of migratory birds (such as doves, band-tailed pigeons), including waterfowl (such as ducks, geese), is the only stamp that is required. Keep in mind that individuals ages 16 and older who wish

to hunt waterfowl are still required under federal law to also purchase the Federal Migratory Bird Hunting Stamp (i.e., Federal Duck Stamp).

Other Information

- The Big Game Tag structure stays the same, but most tag prices have increased. This is the first increase in tag prices since 2007. None of the tag prices exceed the previously authorized statutory cap that existed prior to enactment of SB 1223. See the new tag fees on the next page.
- The application fee for the big game draw and first-come permits has increased to \$13 for residents (\$3 of which will be dedicated to habitat, public access and recruitment/retention efforts) and \$15 for nonresidents (\$5 of which will be dedicated to habitat, public access and recruitment/retention efforts). The Unit 12A (North Kaibab) Habitat Management Stamp is no longer required for Unit 12A deer hunters.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags.

Qualifications

Individuals wishing to participate in a drawing or to obtain bonus points must apply online or in writing using the Hunt Permit-tag Application Form, and submit the form by the deadline specified in the Hunt Permit-tag Application Schedule found in the current year's hunt regulations (page 22).

An applicant must possess a license (including lifetime, pioneer or disabled veteran's) that is valid on the last day of the application deadline for that draw. **Youth applying for big game hunts must be licensed.** If an applicant does not have a license that meets that requirement, he or she must purchase the license at the time of application. An applicant must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued. License refunds will be made for additional applications. Licenses will not be issued until the draw occurs.

Applying for a Hunt

The online application service will be available early to mid-May please see page 20 or visit azgfd.gov/draw for more information.

Paper applications for hunt permit-tags must be made on Hunt Permit-tag Application Forms available at Department offices, website, and license dealers. Please use the current year's application form, that is WHITE in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply on one application in one envelope. All applicants in a group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person, including Youth, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-tag Application Form. **Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. More than one (1) application in an envelope may result in rejection of all applications.** You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

Fees

Information about fees associated with the online draw process may be found on page 20.

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting or combination hunt and fish license, if a license is requested. Be sure to enclose license fees on **each** application, if required, for each person who is applying on the application for a license. Only one license will be issued per person.
3. **Discounted hunt permit-tag fees are for "Youth-Only" designated hunts. A youth must pay the higher fee unless applying only for "Youth-Only" hunts.**

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application, or separate checks or money orders may be submitted in one envelope for each individual applicant.

The permit and license fees are specified in the fee schedule on page 17. The hunt permit-tag fees on page 17 include the non-refundable application fee.

Postmarks don't count.

Applications will be accepted as soon as the applicable year's hunt regulations are available. Please consult the current year's hunt regulations as unit areas and season dates may change each year.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens to My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What if I'm not Drawn?

Please use one of the methods (Internet or telephone) listed on page 5 to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on

the Hunt Permit-tag Application Form. Application and license fees will not be refunded. You will not be issued more than one license and a refund of any remaining fees will be issued.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded.

If an application is rejected and a license has been requested, the license will not be issued. The license fee will be refunded, however, the application fee will not be refunded.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 22.

First-come permit-tag results are not posted. If successful, you will receive your tag in the mail within 10-15 business days.

Obtaining a Bonus Point Only

In the event you do not wish to participate in a big game drawing for species offered in this draw, but still wish to accumulate bonus points for these genera, you may "obtain a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear**

on the application, your application will be rejected. You may obtain only one bonus point per genus per drawing.

To apply for a bonus point only, the individual must be 10 years old by the deadline date as specified in the hunt permit-tag application schedule on page 22.

To apply for a bonus point only, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point costs you only the license fee (if needed) and the application fee per applicant. See page 17 for license fees.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

The online application will be available early to mid-May

How to Submit an Online Application

You will be able to apply for big game hunts and bonus points online at www.azgfd.gov prior to the deadline. There are many advantages in submitting an online application. By using the online method, you can meet deadlines without mailing applications or traveling to a Department office to drop off applications. The possibility of your application being rejected is drastically reduced due to the fact that the online application program will prompt you to accurately complete your application.

Additionally, at the time of application you will only have to pay for the application fee, the license fee (if you do not possess a license that is valid on the last day of the application deadline for that draw) and any donations you might wish to make to the Big Game Habitat Fund. If you purchase a hunting or fishing license online, **you must print the license from your home printer.** The Arizona Game and Fish Department will not mail your license to you. Hunt permit-tag fees will be charged after the drawing is completed only if you are successful in the draw. This eliminates the requirement to pay your tag fees in advance and/or issue a refund if you are not successful in the draw. Costs are identical to the paper application process. No additional fees are charged for using the online application.

If you are applying for a bonus point, you are charged only the application fee and the license fee (if needed). When applying for a hunt, you must have a license valid through deadline day of that draw. If drawn for a hunt permit-tag, you must also have a valid license at the time of the hunt. A valid credit or debit card (Visa or MasterCard) must be used when applying online.

Please be aware that if you are successful in the draw and the credit

or debit card used for the application is not approved for the amount of the required fees for the tag payment after the draw, your application may be rejected. Once the draw takes place, and IF you are successfully drawn, the Department will charge the credit or debit card you have on file for the permit fee. If payment fails, the Department will make three attempts within two business days to contact you and notify you that payment has been declined. You will then be afforded a means of providing alternative payment within a specified timeframe. If the Department has not received an alternate payment at the end of that specified timeframe, applicants will be rejected. No exceptions will be made for individuals who do not respond to the Department's attempts to contact them. Deadline for updating credit or debit card information online is 11:59 p.m. (MST) Sunday, July 6, 2014.

Applicants are encouraged to keep their credit or debit card information up to date, if your card becomes invalid for any reason before the credit card update deadline, update your information online for each species you applied for by selecting the "update my payment information" option and providing the required information. Please note that the Department is not responsible for any over draft charge incurred due to insufficient funds.

To apply online, simply log on to the Arizona Game and Fish Department Web site at azgfd.gov, place the cursor on "Big Game Draw" located on the green bar on the main Web page and follow the step-by-step instructions. You will have 45 minutes to complete your online application. We recommend you have your hunter list and hunt choices completed with all the required information for each hunter prior to logging on to apply.

Completing Your Paper Hunt Permit-tag Application Form

If you choose not to participate in the online application, you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 300 license dealers statewide, and as a downloadable PDF electronic document from the Department's website at www.azgfd.gov/draw. A list of dealers can be found on the Department's website. The PDF form can be printed from your computer and then filled out using an ink pen. Once the form has been correctly filled out, it must be signed and submitted by mail or dropped off at any Department office along with a check or money order for the correct amount.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers

circled on the SAMPLE form. Use it to assist you in completing your form, which can be found online, at any license dealer or Department office.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. **YOU CANNOT MIX HUNT SERIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES.** You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. You may only apply for either a bonus point or a valid hunt number for any genus, NOT both.

2 Enter your correct date of birth (mm/dd/yyyy).

3 Enter your Social Security Number. In accordance with Federal Requirement, 42 U.S.C. Section 666 (A)(13) and A.R.S. 25-320 (P) and 25-502 (K), all

applicants – including youth – **must** provide their valid Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. Any invalid SSN will result in rejection of the application. If you are not a U.S. citizen you must write "NOT US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number prior to submitting and enter it on the application. See #6. You may obtain a Department issued ID number by calling (602) 942-3000 during business hours.

4 Check the appropriate resident or non-resident box. "Resident" means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction. Or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another

How to Apply for the Draw

state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

5 Enter your Arizona hunting license number that will be valid on deadline day for the hunt in which you are applying. The hunting license number consists of two letters and six numbers. You may purchase a license through the draw by completing the License Application Form at the bottom of the application and submitting payment with each of your applications if you are not licensed.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is for those individuals who choose to use a Department issued I.D. Number instead of a social security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department. You **must** still provide a valid SSN even if you provide a valid Department I.D. Number. See #3.

7 Enter your correct full name (last name first), your P.O. Box or home mailing address, city, state and zip code.

8 Please list a telephone number where you can be reached. You are not required to enter your telephone number.

9 Each individual applying, or an appointed individual, must sign the appropriate application section.

COMPLETE 10-16 ONLY IF APPLYING FOR A LICENSE.

10 Enter M for Male, F for Female.

11 Enter your weight in pounds.

12 Enter your height in feet and inches.

13 Enter the appropriate abbreviation for hair color:

- BLN - Blonde

If you are drawn for more than one genus, only one license will be issued in your name. If you are not drawn, you will be refunded only the hunt permit-tag fee. Special Youth Opportunities

Robbins Butte Youth-Only Dove Hunt

Robbins Butte Wildlife Area (RBWA) is about seven miles southwest of Buckeye and comprises more than 1,600 acres. RBWA was purchased for its potential as waterfowl habitat. Three ponds were built in 1952 and by 1957 an estimated 30,000 ducks used these ponds. However, increased demand for agricultural water coupled with invasion of salt cedar trees led to dramatic waterfowl declines by 1960.

In response, the Department purchased the adjacent Black Butte Farm to expand RBWA. This land contained some of the last pristine honey mesquite bosque remaining along the lower Gila River. This acquisition protected the bosque, and provided cultivated grain crops for small game. The combination of wildlife food crops, natural foods and nesting habitat now attracts a combined average of 5,000 breeding white-winged and mourning doves each year.

A portion of RBWA is managed strictly for youth hunters. The special hunt is open to youth up to their 18th birthday, those 10 years and older need a valid hunting license and migratory bird stamp (included in youth license). Shooting locations are assigned on a first-come, first-served basis. Participants must check in prior to hunting and check out when finished. Plan to arrive by 4:30 a.m. for a safety briefing. Afterward, visit the check-in tables and enjoy a free breakfast provided by the Chandler Rod and Gun Club. Oh, and don't forget

A dove hunt at Robbins Butte is one opportunity available to youth.

to bring plenty of shells. This area can produce lots of chances to fill your bag. Please refer to the current Dove and Band-tailed Pigeon Regulations for specific season dates at www.azgfd.gov/dove.

Pheasant Hunt

Arizona's top hunter education graduates are randomly drawn each year for the department's Youth Pheasant Hunt. While taking a hunter education class instructors identify their top students and submit them for this unique opportunity. About 500 kids are nominated each year and 80 lucky hunters are drawn in December and invited to participate in a youth pheasant hunt in Prescott Valley. The event has been sponsored in the past by the Arizona State Chapter of Safari Club International, the National Wild Turkey Federation and the Arizona Wildlife Conservation Council.

Young hunters shoot sporting clays, learn about preparing pheasant for the home table, and hunt behind top quality pointing dogs while being mentored by an experienced Hunter Education volunteer instructor.

A scrumptious lunch is provided for everyone attending. This event is a very positive experience for both parents and young hunters. By attending an Arizona hunter education class and demonstrating exemplary behavior or performance, youth under the age of 18 could be lucky invitees to the 2015 Youth Pheasant Hunt.

Shooting Ranges are Great for Practice

Shooting facilities provide a safe environment to practice for upcoming hunting seasons. Shooting ranges provide shooters with many benefits, including controlled settings, training and education. At a range, shooters at any skill level can practice, sight-in firearms, receive instruction and discover communities of like-minded enthusiasts.

The Where to Shoot website (www.wheretoshoot.org) provides easy access to target shooting and hunting facilities. Simply specify a state to view all ranges within that state, or narrow the search by area code or zip code.

For more information, contact the Archery coordinator at (623) 236-7233 or visit www.azgfd.gov/archery.

New to Hunting?

The Arizona Game and Fish Department is dedicated to introducing people to the American tradition of hunting by offering a wide variety of hunting and shooting programs. These programs are designed to get you in the field with a parent, guardian, or mentor who can focus and provide guidance needed to teach the next generation of hunters how to be safe, responsible stewards and ethical conservationists.

To provide plenty of opportunities, Game and Fish is partnering with sportsmen's groups, gun clubs, and conservation organizations to host mentored events and camps for beginners to assure a positive experience hunting in the great outdoors. Below is a listing of some of the upcoming events.

Scholastic Clay Target Program

Want to learn how to break clay targets?

Join the Scholastic Clay Target Program for all these reason and more:

- Team-based youth development program
- Perfect for first-timers or experienced shooters
- All instructors are nationally certified
- Improve your shooting skills through coaching and competition
- Minimal cost to participants

The Arizona Game and Fish Department Scholastic Clay Target Program (SCTP) is a team-based youth development program that uses the shotgun sports of trap, skeet, and sporting clays to instill life skills such as discipline, safety, teamwork, ethics, self-confidence and other life values. The program utilizes these disciplines to also teach hunting skills through the safe use of hunting equipment including firearms and their relationship to hunting situations. Team members can participate in any or all three of the clay target disciplines of trap, skeet and sporting clays.

There are 30 SCTP clubs across the state, so there's likely one near you. Each club is independently organized setting their own practices dates, times, and locations. To find a club in your area, visit www.azgfd.gov/sctp or you may contact the Shooting Sports Coordinator of the Arizona Game and Fish Department by e-mail at dfogle@azgfd.gov. You can also contact your local shooting range or gun club to find out if they offer the program or other youth shooting programs.

Hunter Education

Get Ahead of the Game

The purpose of Arizona's Hunter Education Program is to promote safe, knowledgeable and responsible hunter conduct, to emphasize the importance of wildlife management, laws and regulations, and to encourage the safe handling of firearms and bowhunting equipment.

Any individual nine years of age or older may complete a hunter education course offered through the Department. To hunt big game youth under the age of 14 must complete hunter education. While you must be 10 years of age to hunt big game you may complete Hunter Education at the age of 9 however, the hunter education completion card and certificate does not become valid until the child's 10th birthday.

You may take Hunter Education in Arizona two different formats: through a traditional classroom setting or an on-line curriculum. Both courses require a hands-on field day and exam. Classroom setting courses are a minimum of 12 hours of classroom learning. Bowhunter specific Hunter Education courses are also available however graduates will not receive a permanent bonus point.

Classroom courses are generally offered during weekends and week-nights across the state. Field days are conducted at a local shooting range.

At a minimum your Hunter Education Course will include the following topics:

- Responsibility, safety skills.
- Funding sources.
- Conservation, fair chase, fair share, hunters' ethics and hunters' image.

The Arizona hunter education program is not just for children or hunters. This educational program is a valuable experience for anyone who enjoys the outdoors and has an interest in conservation.

Hunter Education classes fill up quickly. If you need your Hunter Education card before your hunt, get ahead of the game and register now. To register for a Hunter Education class, visit www.azgfd.gov and select Education or call (602) 942-3000 or toll free at 1 (800) 824-2456.

- Planning and preparation, maps and compasses, survival skills, coping with extreme weather and basic first aid.
- Firearm safety, nomenclature, function, handling and shot-selection.
- Basic muzzleloading, bowhunting, handguns, use of boats in hunting and use of off-highway vehicles.
- Wildlife conservation, management and identification.
- Marksmanship, rifle and shotgun shooting, hunting strategies, vital shots and care of game.
- Arizona hunting laws and regulations and licensing.

Parents are encouraged to participate in the course with their child. For veteran hunters, the course serves as an excellent refresher.

To register for a Hunter Education class, visit www.azgfd.gov and select Education or call (602) 942-3000 or toll free at 1 (800) 824-2456.

TAB +1

The Four Primary Rules of Firearm Safety

- **T**reat every firearm as if it were loaded.
- **A**lways keep the muzzle in a safe direction.
- **B**e sure of the target and beyond.
- **+1** Keep your finger outside the trigger guard until ready to shoot.
- Practice the rest of the 10 Commandments of hunter safety.
- Check your barrel and ammunition.
- Unload firearm when not in use.
- Point a firearm only at something you intend to shoot.
- Don't run, jump, or climb with a loaded firearm.
- Store firearms and ammunition separately and safely.
- Avoid alcoholic beverages before and during shooting.

Hunters Need To Be Prepared

Failing to prepare can lead to injury and death. The cost of the average search and rescue mission can range from \$1,500 to \$4,000 and some searches that are extended operations or require a lot of air support may reach into the tens of thousands of dollars. Hunters should be prepared for any conditions they may face during their hunt. Below are some tips and a list of equipment that should help hunters have a more enjoyable trip.

Motorized Game Retrieval

Motorized game retrieval is prohibited in many areas around Arizona. Hunters should be aware of rules and regulations for the area they plan to hunt. Hunters should be prepared for retrieving their downed game without the use of motorized vehicles. Alternative options include horseback, backpack, and game carriers with or without wheels, depending on land status. See page 43 for more information.

Arizona's top hunter education graduates are randomly drawn each year for the AGFD Youth Pheasant Hunt. While taking a hunter education class, instructors identify their top students and submit them for this random drawing conducted in December. Upcoming classroom hunter education course information can be found at www.azgfd.gov. All classroom hunter education courses are taught by Arizona Game and Fish Department certified volunteer instructors.

Rules of Survival

S	Stop when you realize you have a problem. The first thing to do is admit to yourself that you are in trouble.
T	Think about what you need to do to survive.
O	Observe the area, look for shelter, fuel, etc.
P	Plan how you are going to use your survival kit and other resources. Don't wait until dark to plan!

SURVIVAL TIPS:

- Give a responsible person your hunting or hiking plan.
- Don't travel or hunt alone.
- Take enough food and water to last for several days in an emergency.
- Bring a map and compass, and always orient yourself before leaving camp.
- Wear layered clothing and take extra clothing, preferably wool and polyester, with you.
- Plan your outings so that you can return to camp before dark.
- Never leave camp without taking fire-starting equipment and a foil blanket.
- Don't panic if you become lost.

Youth big game hunters need a Hunter Education card to hunt. They do not need a Hunter Education card to apply for the draw, only a hunting license. Youth hunters can purchase a hunting license without having attended Hunter Education.

Welcome to Big Game Hunting in Arizona

Arizona has 10 species of wildlife designated as big game by state statute: mule deer, white-tailed deer, pronghorn, elk, turkey, javelina, bighorn sheep, buffalo, bear, and mountain lion. If you also consider that Arizona is occupied by two recognized subspecies of bighorn sheep (Rocky Mountain and desert) and three subspecies of turkeys (Gould's, Merriam's and Rio Grande), there is ample evidence of the diversity of Arizona's big game, and the opportunities a hunter has to pursue. While the diverse habitats in Arizona are home to a lot of different species, no individual species is particularly numerous. Consequently, most big game hunts have a limited number of permits for which you must be drawn to participate.

Elk and pronghorn application information was provided earlier this year. In fact, the draw for elk and pronghorn is complete and you should know if you received one of these tags. This knowledge should help you determine if you wish to participate in another hunt, and if so, for which deer, turkey, javelina, bighorn sheep, and buffalo hunts to apply.

The Arizona Game and Fish Commission again authorized fall javelina permits for youth hunters. Youth hunters may wish to apply for a javelina hunt that will complement another deer hunt in which they may participate in this fall. Youth-Only deer hunters in selected units (see Youth-Only deer hunts on page 28) will also be provided the opportunity to purchase

over-the-counter companion javelina tags, allowing these hunters to hunt for deer and javelina at the same time. These hunts are excellent ways to introduce a youth to big game hunting.

Compared with last year, deer permit levels are down slightly, whereas turkey hunting opportunity is comparable to last year, and bighorn sheep tags have decreased. Youth turkey hunters may purchase a turkey tag over-the-counter and hunt in any unit listed in the Youth-Only section.

As with any season or upcoming hunt, make sure you do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov/hunting.

Draw Cycles

The Arizona Game and Fish Department conducts three separate application and draw cycles for big game hunt permit-tags. 2007 was the first year the Department held a separate draw for pronghorn antelope and elk. This change was made to let hunters know earlier if they have been drawn for these two popular big game animals. The three draw cycles are:

SPECIES	DRAW DEADLINE
Pronghorn antelope, elk	Second Tuesday in February (pending Commission approval)
Deer, fall turkey, fall javelina, bighorn sheep, fall buffalo, pheasant	Second Tuesday in June (pending Commission approval)
Spring javelina, spring bear, spring turkey, spring buffalo	Second Tuesday in October (pending Commission approval)

Lead and Wildlife

Know the facts and make your own choice

- Lead is a naturally occurring element in the environment and has many beneficial uses. However, it is a known toxin and has been removed from many consumer products like pipes, paint and gasoline.
- Lead has been used in the manufacture of ammunition and fishing tackle for centuries because of its unique properties, availability, performance, and ease and low cost to manufacture.
- Spent ammunition, lost fishing tackle and lead fragments in carcasses and gut piles can be ingested by wildlife. In some cases, these lead sources can cause illness or death in individual animals.
- Birds are the most susceptible to lead toxicity, and population-level effects have been documented in waterfowl and California condors.
- State fish and wildlife agencies have primary responsibility for managing fish and wildlife resources and use the best science to implement focused management solutions when population effects are documented. Educating the public about wildlife issues is part of their mission.
- Hunters and anglers have been the primary supporters of wildlife conservation in North

America since the early 1900s. Collaboration with industry, conservation organizations and shooting-sports interests is also essential to ensuring continued protection of our wildlife resources and conservation heritage.

- Non-lead ammunition and fishing tackle alternatives are becoming more widely available and reasonably priced. Using non-lead alternatives can prevent lead poisoning of individual wildlife and may offer better performance.
- Hunters who choose to use lead ammunition can still help to reduce lead poisoning in scavenging animals by removing the entire game carcass from the field.

Availability

Non-lead ammo alternatives are available for big game, varmint and small game hunting. Non-fragmenting solid copper or copper alloy bullets are now loaded in most hunting calibers. Highly frangible non-lead varmint bullets (compressed copper or tin powder) are available in both centerfire and rimfire cartridges. Non-lead shot (steel, tungsten, and bismuth) is also available.

To learn more about lead and wildlife, visit www.azgfd.gov/lead.

X-ray of prairie dog (top), coyote (center) and a deer (bottom) gut pile. All contain lead bullet fragments that could be ingested by wildlife.

What hunting magazines and Arizona hunters say about solid copper bullets:

"I was very impressed with the bullet's performance, the buck literally dropped in its tracks." – *Kaibab deer hunter*

"Accurate, zero bloodshot, no wasted game meat." – *Kaibab deer hunter*

"I've never seen deadlier performance on game." – *Safari Club International article*

"While their terminal performance is the stuff of legend, they are also capable of remarkable accuracy." – *American Rifleman article*

Motorized Big Game Retrieval on National Forest Lands

All national forests are undergoing or have recently completed travel management planning, which will result in changes to motor vehicle use on national forest lands. National forests that have made a decision implementing the travel management rule (<http://www.fs.fed.us/recreation/programs/ohv/final.pdf>) only allow motorized use on designated roads, trails and areas as identified on a free Motor Vehicle Use Map (MVUM). These maps are available for free at Forest Service offices and electronically for smartphone and mobile devices. The forests that have electronic maps will have instructions on how to download the maps listed on their websites. The new travel management rules include restrictions on driving cross-country for big game retrieval. The Coronado National Forest and Prescott National Forest have made a decision implementing the new travel management rules and have released MVUM maps; motorized big game retrieval off the designated road system is not allowed on either forest. The South Kaibab National Forest and the

Coconino National Forest have also recently established new travel management rules and published MVUMs. The South Kaibab National Forest allows for cross-country motorized retrieval of elk in all Game Management Units. The Coconino National Forest has restricted motorized retrieval of elk to Game Management Units 6A, 6B and 7, and 8. The North Kaibab National Forest allows for cross country motorized travel for retrieval of elk and bison in all Game Management Units. Motorized retrieval of all other species including deer is not permitted the Coronado, Prescott, Kaibab or Coconino National Forests. Other national forests including the Apache-Sitgreaves and Tonto National Forests are engaged in travel management planning and have not yet issued decisions. If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please contact the appropriate national forest(s) for updated information relative to motor vehicle use and motorized big game retrieval, before your hunt starts.

Hunters can Help Monitor Arizona Deer Health – Submit Deer Heads for CWD Testing

Bring the head of your recently harvested deer to any Game and Fish Department office between 8 a.m. and 5 p.m., Monday through Friday (office addresses are listed on page 3). Department personnel will collect a tissue sample for Chronic Wasting Disease (CWD) testing. Hunters that are successful in Units 1, 2, 3, 27, 28, 29 and 30A are especially encouraged to submit heads because these units are close to New Mexico, a state with infected deer and elk.

It is best if the head has been kept cool and is submitted within a day of harvest. The head may be placed in a garbage bag for delivery. You will be asked to provide information on approximately where the animal was harvested (within your unit) and where you can be reached (phone number) in case the test is positive. No CWD has been detected in Arizona's deer or elk to date.

CWD results can be found here:

Keep CWD out of Arizona

To protect Arizona's deer and elk herds from Chronic Wasting Disease, new regulations have been placed on movement of animal parts into the state.

Hunters are required to take these precautions when hunting deer or elk out-of-state (effective July 1, 2013):

- Do not bring the brain, intact skull, or spinal column into Arizona.

The following elk or deer parts harvested out-of-state are OK to bring back into Arizona:

- Boneless portions of meat, or meat that has been cut and packaged;
- Clean hides and capes with no skull or soft tissue attached;
- Antlers, clean skull plates or skulls with antlers attached with no meat or soft tissue remaining;
- Finished taxidermy mounts or products; and
- Upper canine teeth (buglers, whistlers, ivories) with no meat or tissue attached.

CWD is present in the neighboring states of Utah, Colorado, and New Mexico, as well as many other popular hunting destinations for deer and elk. Some states have strict regulations governing carcass movement, so we encourage you to contact the wildlife agency where you travel for any applicable regulations.

HOUSE ROCK BUFFALO HUNT SPECIAL NOTE: During the House Rock herd hunts, a significant portion of the herd has in the past moved to the Grand Canyon National Park where hunting is not allowed. Hunters are advised that if this occurs, their ability to successfully harvest a buffalo may be significantly impacted. As with any hunt, circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from being successful. The Arizona Game and Fish Department and Commission disclaims any responsibility to reissue or replace a permit, to reinstate bonus points, to refund any fees, or to provide any other form of relief. The House Rock buffalo hunt is considered to be one of the most difficult hunts in the state. Buffalo can be difficult to locate. Plan on spending the entire season hunting as an abbreviated hunt will lower your chances of success. Buffalo hunters must dress and care for their own animals; the Department will not assist. Take time to improve your physical condition. Hunters are often required to walk considerable distances (up to 8 miles) every day over rugged terrain. House Rock hunters should be prepared for remote and primitive conditions. High clearance or four-wheel drive vehicles are recommended. Some portions of House Rock herd area are included in the U.S. Forest Service wilderness system that does not preclude hunter access but does limit their means of transportation and equipment usage. Hunts occurring later in the fall may be affected by snow making access more difficult. Hunters should be prepared for severe winter conditions and low availability of buffalo. For more information, call the Flagstaff Regional Office at 928-774-5045.

Once the multiple bag limit has been reached, the season will remain open and revert to calendar year bag limit of one (1) mountain lion. Mountain lions taken under the one (1) per day multiple bag limit do not apply towards the calendar year bag limit until the multiple bag limit is reached. In Units 39, 40A, 40B, 41, 42, 43A, 43B, 44A, and 44B, the annual bag limit is three (3). Mountain lions taken under the annual bag limit of three (3) do not apply towards the calendar year bag limit.

To hunt mountain lion in Arizona, you need a valid hunting or combination license and a mountain lion tag. To hunt mountain lion in any season, you must obtain a hunt nonpermit-tag from a license dealer as prescribed in R12-4-114.

MOUNTAIN LION SPECIAL REGULATIONS: As prescribed in R12-4-308, all hunters must contact an Arizona Game and Fish Department office in person or by telephone at 1-877-438-0447 within 48 hours of taking a lion. The report shall include the hunter's name, hunting license number, tag number, sex of the lion taken, management unit where the lion was taken, and telephone number at which the hunter can be reached to obtain additional information. Within 10 days of taking a lion, the hunter (or their designee) shall present the lion's skull and hide with attached proof of sex to a designated Arizona Game and Fish Department employee for inspection (pursuant to R12-4-308). If the skull is frozen, it should be defrosted prior to presenting for inspection as a premolar tooth will be removed from the lion. If the hide is frozen, ensure that the attached proof of sex is accessible and identifiable. Successful hunters are encouraged to contact the nearest Department office by telephone to coordinate inspections.

Hunters may encounter mountain lions wearing radio collars around Flagstaff, Prescott, Payson, Tucson, and western Maricopa County. The lions instrumented with these collars are part of several ongoing research projects. The collars are used to track lion movements as researchers try to learn how the lions use various habitat types and urban interface areas. The longevity of these lions is important to the ongoing research, and data collected will help to improve Arizona's management of lions in the future. If you would like more information about any of these research efforts please contact the Arizona Game and Fish Department Research Branch at (623) 236-7247. Also, if one of these animals is harvested, the hunter is asked to return the collar, as well as any other marking device, such as an ear tag, to a Department office or officer when doing the required physical check-in of the carcass parts.

MOUNTAIN LION SPECIAL NOTE: In accordance with R12-4-305(H), an individual may retain the carcass of a lion taken under A.R.S. 17-302 when the season is closed.

Population Management Hunts

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (page 120).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department Dec. 31, 2014. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).
- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$13 application fee (residents) or a \$15 application fee (non-residents) (note: one application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.
- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

Do not include this form with a Hunt Permit-tag Application Form (See R12-4-115 on page 120)

Have you:

- Filled in all the blanks?
- Enclosed the \$13 (residents) or \$15 (non-residents) application fee?
- Signed your application?
- Indicated your choice of species?

Condor Country: Why Non-lead Ammunition?

Hunters are helping

For the past six years, 80 to 90 percent of fall hunters have participated in the Department's voluntary lead reduction program by using non-lead ammunition or removing gut piles from the field in the condor's core range.

The hunting community should be proud of this accomplishment, but we still need more hunters to help. Please help us prove to our critics that we can solve this problem on our own and that mandatory measures are not needed.

Hunters who use non-lead ammunition in condor range carry on sportsmen's proud tradition of wildlife conservation. If you choose to use lead ammunition, you can still help by removing your entire game carcass (including small game and varmints) and gut pile from the field. Local landfills accept and bury animal remains.

Hunters praise non-lead bullets

Copper bullets have superior penetration, are less toxic, and do not fragment like lead.

93 percent of hunters say that non-lead bullets perform as well as or better than lead bullets on game. Non-lead shot and frangible bullets also are available for varmint and small game hunting.

The Arizona Game and Fish Department and our partners ask you to be part of the solution by using non-lead ammunition when hunting in condor country (Game Management Units 9, 10, 12A, 12B, 13A, and 13B).

These sportsmen's groups ask you to use non-lead ammunition in condor range:

- Arizona Deer Association
- Arizona Elk Society
- Arizona Antelope Foundation
- Arizona Desert Bighorn Sheep Society
- Arizona Chapter of the National Wild Turkey Federation

Hunters drawn for hunts in condor range will be mailed more information before their hunt.

Lead poisoning is the leading cause of death in condors and the main obstacle to a self-sustaining population. There are currently 73 free-flying condors in Arizona and Utah. At least 28 condors have died from lead poisoning. Several had lead shot and bullet fragments in their digestive tract. More than 450 cases of lead exposure have been documented in the condor population since 1999.

Lead bullet fragments remain in game carcasses and gut piles left in the field by hunters. These X-rays show hundreds of lead fragments (fragments appear bright white in X-ray) in a deer carcass and gut pile. Condors are group feeders, so several birds can ingest fragments from one carcass or gut pile containing lead.

Studies have concluded that lead shot and bullet fragments found in game carcasses and gut piles are the main source of lead in condors. To learn more about the condor program and for a complete list of non-lead ammunition available, visit: www.azgfd.gov/condor.

Lead varmint and small game ammunition also fragments significantly. This x-ray of a coyote illustrates the amount of lead (bright white fragments) left in the carcass. Each spring condor lead exposures increase as they forage on animal remains left in the field by hunters. Hunters can help by either using non-lead ammunition OR removing ALL varmint and small game carcasses from the field.

ATTENTION SPORTSMEN: Wolves, Jaguars and Ocelots may be Encountered in Arizona

Know your animal

Sportsmen may encounter wolves, jaguars or ocelots while engaged in outdoor activities. All three species are listed as endangered in the United States under the Endangered Species Act (Act), and Take, which under federal law means “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” is generally unlawful and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000. You are responsible for identifying your target before shooting.

Once hunters are aware that they or their dogs are in pursuit of a jaguar or ocelot, they should stop the pursuit immediately. Dogs, if present, should be called off immediately. Sportsmen should let the animal leave the area and take all necessary steps to not intentionally harass or pursue the animal. Wolves, jaguars and ocelots that have been trapped and cannot be safely released should be reported to the Arizona Game and Fish Department immediately.

Jaguar tracks are similar to mountain lion tracks. The front feet of jag-

uars are larger than the hind feet (both pads and toes). Typically, jaguar tracks have rounder toes and shorter pad height than mountain lions. Overall, jaguar tracks tend to be wider than those of mountain lions (measuring up to six inches). There is considerable overlap in size between the two species however and their tracks are often difficult to distinguish. Scats are also similar.

The Department asks sportsmen to contact its 24-hour dispatch at (623) 236-7201 **immediately** if a jaguar or ocelot encounter is believed to represent a threat to either the animal or public safety. All other sightings should be reported at the same number as soon as possible, providing location and a description of any physical evidence that may be available. You also may send sighting information (location, physical description and photographs) to rarewlsightings@azgfd.gov.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

- Fur color is very similar to coyotes:
 - Grizzled gray, black, rust or buff
 - Not all white or all black
- Not all wolves have radio collars

ATTENTION SPORTSMEN: Wolves, Jaguars and Ocelots may be Encountered in Arizona

Mexican Wolves in Arizona

During the past several years, many wolves have been illegally shot in Arizona and New Mexico, causing significant setbacks to the Blue Range reintroduction project. It is possible that some of these shootings were cases of mistaken identity, where the shooter believed the target was a coyote. It can be difficult to distinguish wolves from coyotes, especially when the sighting is brief, the animal is far away, if it's a juvenile wolf, or a wolf in its summer coat. Coyote hunters should exercise extra caution from July to November because wolf pups are active, and their appearance and behavior make them appear like coyotes. You are responsible for identifying your target before shooting.

If you are hunting in or near Unit 1 or 27, or near the United States/Mexico border east of Nogales, please be aware that Mexican wolves may be present. Mexican wolves are protected under the Endangered Species Act (Act). Take, which means "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct," is generally unlawful, and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000.

Helping wolves and humans coexist

The gray wolf (*Canis lupus*) is classified as an endangered species in Arizona and New Mexico except between Interstate Highway 10 and Interstate Highway 40. Between these two highways, the wolf is classified as a non-essential, experimental population under section 10(j) of the Act (see map).

MEXICAN GRAY WOLF/istockphoto

COYOTE BY GEORGE ANDREIKO/AGFD

All wolves in Arizona are protected, and outside of specific exceptions contained in the 10(j) rule pertaining to the non-essential experimental zone, you may only kill a wolf in defense of human life. If you kill a wolf, you must report it to the U.S. Fish and Wildlife Service within 24 hours.

Ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if when camping, people feed wolves (or leave dog food out at night).

If a wolf should approach you, raise your arms and look as big as possible. Yell or throw rocks to scare it away. Back away slowly – never run.

Some other tips

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Keep pets close to you. Do not leave them unattended or allow to run free.
- Never feed wildlife – including wolves.

Welcome to Small Game Hunting in Arizona

Small game hunters in Arizona are very fortunate. Few places in North America offer such a diversity of hunts with lengthy seasons as does Arizona. Within this section are the season dates, bag limits, and other pertinent information necessary to hunt small game and other wildlife. The 2014-15 hunting season shows promise for the small game hunter.

All of our small game species go through boom and bust cycles with varying frequency. Generally, population fluctuations correspond with precipitation patterns. During the past few years, many of our small game populations have suffered ebbs in the cycle. The astute and successful small game hunter keeps a watchful eye on rainfall patterns and increases hunt success by targeting the species or portion of the state where small game populations are most favorable.

Quail and cottontail respond well to rainfall. In some areas these species abound because of increased precipitation, while apparent voids exist in other areas due to the lack of rain. Yet, knowing when rain falls is just as important as knowing where. In the case of quail, Gambel's quail respond to winter rains, scaled quail respond to spring rains, and Mearns' quail respond to summer monsoonal rains. These time-period-specific precipitation patterns affect the hatches and juvenile survival of each species. When precipitation increases during these time periods, these quail populations generally increase as well.

Yet, not all precipitation is good precipitation. In the case of Abert's tree squirrels, an extended period of heavy snows with deep snow pack decreases their overwinter survival because they are forced to feed on less

nutritious pine stems rather than the protein and fat-packed seeds buried under the snow. By watching precipitation patterns across the state, small game hunters can identify those small game species and localities that are likely to provide the best hunting next year.

If you're up for a challenge and want to explore new areas of the state, don't forget about pursuing some of Arizona's other upland game. Chukars, dusky (blue) grouse, and pheasant can take you on an adventure that few others can.

As with any season or upcoming hunt, make sure you do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov/hunting.

Where, When and How Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 37-66 and 78-93). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** manages 16 percent of the state. Call (602) 417-9200 for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 119) delineates the rights and privileges of sportsmen and landowners or operators

as regards to state lands. Note that “State Land - No Trespassing” signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see R12-4-110, paragraph I, page 120. The State Land Department is at (602) 542-4621.

- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 121.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See below for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 70-77 show hunt unit boundaries, which are described in detail in R12-4-108 on page 116. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 37-66 and 78-93).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 124). For special requirements in state wildlife areas, see R12-4-802 (page 130).

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Arizona state law requires all vehicles and operators to be licensed, registered, insured and properly equipped in order to travel on maintained roads or highways. All roads open to vehicle use by the public on NWRs are categorized as “designated routes of travel” which are “maintained” routes. Therefore all vehicles must be “street legal” in order to travel upon NWRs. Any travel off of these roads is prohibited.
2. Any discharge of a firearm except to take legal game is not permitted.
3. Pits, permanent blinds and stands; trail or scouting cameras; and baiting are prohibited.
4. The use or possession of alcoholic beverages while hunting is prohibited.
5. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day’s hunt.
6. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

More information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge at:

Hunting on Military Reservations

Hunters desiring to hunt on military reservations are advised to contact the specific installation for current regulations prior to going afield. Hunters are also advised that increases in United States Force Protection may result in hunt cancellations at any time and with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters drawn for military reservation hunt permit-tags will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department.

Camp Navajo: Hunting on Camp Navajo in Unit 6B is restricted. Contact the Arizona National Guard for more information: (e-mail) hunting@campnavajo.com, or visit (web-site): www.azguard.gov/campnavajo.htm.

Florence Military Reservation: The Florence Military Reservation (training areas B and D: the areas north and south of Cottonwood Canyon Road) in Unit 37B is subject to short term closures due to military operations, including live fire operations, and requires coordination with the Florence Military Reservation for hunting access. For specific closure dates or any other access concerns, contact the Florence Military Reservation at (602) 267-2062. A map of the Florence Military Reservation is located on the Arizona Game and Fish Department's website, www.zgfd.gov (type Florence Military Reservation in the search box).

Wilderness Areas

The Wilderness Act of 1984 and the Desert Wilderness Act of 1990 designated large portions of Arizona as wilderness. Hunters should be aware that this may influence their hunt. Except where specifically permitted, all forms of motorized travel are prohibited. Hunters should be prepared for remote and primitive conditions. For additional information regarding wilderness restrictions, hunters should contact the Bureau of Land Management, the U.S. Fish and Wildlife Service, or the U.S. Forest Service, as appropriate for the area of interest.

Bureau of Land Management

Generally, BLM lands in Arizona are open to hunting. Check with the appropriate office for current conditions.

BLM National Monuments: The Grand Canyon-Parashant, Vermilion Cliffs, Sonoran Desert, Ironwood Forest, and Agua Fria National Monuments are open to hunting. Contact the Explore Arizona Outdoor Information Center at (602) 417-9300 at the BLM State Office in Phoenix.

Grand Canyon – Parashant National Monument: Parashant National Monument is jointly managed by the Bureau of Land Management (BLM) and the National Park Service (NPS).

Where, When and How Can You Hunt?

Both the BLM lands and NPS lands within Parashant National Monument are open to hunting. However, several NPS regulations differ from those of the BLM. These differences are:

1. Target shooting or the discharge of a weapon except to hunt is not permitted.
2. All motorized vehicles are restricted to established designated roads only (No off-road game retrieval permitted)
3. All motor vehicles must be licensed, insured and equipped to legally operate on state highways (Street Legal)
4. Operators of motor vehicles must possess a valid state driver's license.
5. Shed antlers may not be collected or possessed while on NPS lands.
6. Dogs must be kept on a leash, 6 feet or less in length and not be left unattended in camp.
7. Feeding or baiting of wildlife is prohibited.
8. No landing of aircraft on NPS lands or roads.
9. Property (including game cameras) cannot be left unattended longer than 24 hrs. Property left over 24 hours or any unattended property that interferes with visitor safety, orderly management of the park area, or presents a threat to park resources may be impounded at any time.
10. Operating any type of portable motor or engine, or device powered by a portable motor or engine, like RV generators is prohibited.

Special Note: GPS device mapware does not always depict accurate land managing agency policy for roads open for travel. Restrictions are signed and may be gated.

San Pedro Riparian National Conservation Area: The BLM has established special restrictions for the San Pedro Riparian NCA in units 30B, 34B, and 35A. For more information call the BLM at (520) 439-6400.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. You may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation. Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a privilege, not a right. Your actions may be the determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Where, When and How Can You Hunt?

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Tree Stands and Blinds

Tree stands and blinds can be effective and legal tools to aid in the taking of wildlife. However, please take into consideration the following before hanging a tree stand or setting a blind:

- It may be unlawful to cut any trees or branches while hanging tree stands or setting blinds.
- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions

Homeland Security

Homeland security issues along the international border may affect the quality of a person's hunt. Call 1 (877) 872-7435 to reach the U.S. Border Patrol and report suspicious activity.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within 10 days.

Carcass Disposal

Dispose of your carcass discreetly. The Department receives several calls each year reporting the dumping of lawfully taken game. If disposing a carcass in the field, either bury the carcass or place it under a tree away from camping areas and roads. If using a dumpster utilize trash bags or wrap the carcass to reduce the escape of offensive odors.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big game habitat is found on Forest Service lands, the Department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a vehicle, both of which are illegal. A

vehicle is any device designed to carry a person: all terrain vehicles, utility terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301B on page 110.

It is illegal to use an aircraft to pursue, shoot, hunt or otherwise take wildlife. See R12-4-319 on page 129.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 37-66 and 78-93). Seasons for all wildlife are closed unless specifically opened by Commission Order. Special restrictions apply on state wildlife areas (see R12-4-802, page 130), as well as at certain times on parks, refuges and similar areas (see pages 96-98).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 105) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, pages 125-126. Other time requirements apply for migratory birds (see Migratory Bird Regulations).

Operation Game Thief: Wildlife's Answer to Dialing 911

www.azgfd.gov/thief

Poachers are a serious threat to Arizona's wildlife. They contribute nothing, yet every animal they take deprives hunters and non-hunters alike of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$8,000 may be offered upon arrest in certain cases. Poachers are a "Mutiny on your Bounty" so please help us put them out of business.

License Revocations and Civil Assessments

The Arizona Game and Fish Commission has the authority to revoke an individual's privilege to take wildlife. It also can bring a civil action against the individual to reimburse the State for the value of any unlawfully taken wildlife. For repeat offenders, the Commission may revoke a person's license to take wildlife for the rest of his or her life. Civil values vary depending on the species of wildlife taken and the size. The current civil assessment for trophy class wildlife starts at \$8,000.

**Together
we can stop
these thieves.**

POACHING IS A CRIME

– Minimum Rewards – For information which leads to an arrest.

- | | |
|--------------------|--|
| \$350 | Elk, bighorn sheep, eagles, buffalo, endangered species |
| \$250 | Deer, antelope, bear, lion, turkey, javelina |
| Up to \$150 | Beaver, geese, raptors, ducks, small game, nongame birds, fish |

Rewards of up to \$8,000 can be offered for information about major violations, repeat offenders and commercial poachers. You need not appear in court or give out your name. Upon the arrest of a violator, a reward may be paid to you in such a manner that you will remain confidential.

– Other Rewards Of \$50–\$8,000 –

In addition, several sportsmen's groups provide reward monies which allow payment ranging from \$50 to \$8,000 in cases where under state law Operation Game Thief is not able to pay. Nevertheless, the rewards are for cases where the tip was provided originally through Operation Game Thief. Decisions on these are made in consultation with the boards of these organizations:

Arizona Antelope Foundation, Arizona Bowhunters Association, Arizona Elk Society, Tucson Rod and Gun Club, Arizona Desert Bighorn Sheep Society, Arizona Bowhunters and Field Archers Association, Arizona Muzzleloading Association, Central Arizona Bow-hunters, Sportsman's Voice, Phoenix Varmint Callers, Arizona Trapper's Association, North American Bear Society, Sportsman's Gun Club, Tucson Chapter of Safari Club International, Phoenix Chapter of Safari Club International, Arizona Chapter of the National Wild Turkey Federation, and the Arizona Deer Association.

The Arizona Houndsmen have offered a reward up to \$5,000. Please see page 105.

Operation Game Thief Needs Your Help

A majority of cases were initiated by concerned sportsmen, such as you, making a call on the Operation Game Thief hotline. You can and do make a difference! If you witness a violation the following information will assist us during our investigation.

What is the violation?

Where did it occur? Be as specific as possible. It is necessary that our officers return to the site.

When did it occur?

Specific violator/vehicle information. What did the individual look like and what were they wearing? What make, model, and color vehicle were they driving? Record the license plate if possible and, if they left, the direction of travel.

Your name and telephone number. Although this is optional, the number of cases that are actually prosecuted from anonymous tips is very low. This is simply because most people do not know the type of information needed to successfully charge and prosecute a violation. Our officers want to talk with you and will guarantee that no one knows your name. We also want to give you a reward for the information you provided if an arrest is made in the case. Each year we pay out thousands of dollars in reward payments to concerned sportsmen. During the past five years the Operation Game Thief Program has paid more than \$58,000 in rewards.

Off-Highway Vehicles

The use of off-highway vehicles (OHVs), specifically all-terrain vehicles (ATVs, UTVs), by hunters is growing. The Arizona Game and Fish Department's Off-Highway Vehicle Program promotes responsible and safe use of off-highway vehicles.

OHV rules and laws:

- No one may use a motor vehicle to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit, R12-4-217).
- An off-highway vehicle may only be used as a means of travel. It is unlawful to shoot from any OHV, to shoot across, near or from any railroad or roadway.
- It is unlawful to chase or harass any wildlife with a motorized vehicle.
- Cross-country travel is illegal in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.) Always check with the land management agency. Stay on roads and trails.
- As of Jan. 1, 2009, you are required to display the OHV Decal on your vehicle if it meets the two following requirements:
 1. It is made by the manufacturer primarily for travel over unimproved terrain **and**
 2. Has an unladen weight of 1,800 pounds or less(If you have a "street legal" vehicle and you meet these requirements you will also need the OHV decal)
- As of July 1, 2009, all OHVs are required to have a certificate of title. You can obtain a title from the Arizona Department of Transportation Motor Vehicle Division (MVD).
- A U.S.DOT rated helmet that is properly fitted and fastened is required for those under 18 who operate or ride an ATV, UTV or ROV (ARS §28-964.A and 28-1179.B).
- All OHVs are required to have a USDA approved spark arrestor device.
- All OHVs are required to have either a muffler or other noise dissipative device that prevents sound above 96 decibels.
- It is unlawful to drive an OHV on roads, trails, routes or areas marked closed by any land management agency or private land owner.

- A person from out-of-state may operate an OHV in Arizona if all of the following apply:
 1. The person is not a resident of this state **and**
 2. The person owns the vehicle **and**
 3. The vehicle displays a current OHV sticker/decals/title/registration from the person's state of residence **and**
 4. the vehicle is not in this state for more than 30 consecutive days
- If you witness habitat damage or vandalism, report it at 1-800-VANDALS (826-3257).
- Call Operation Game Thief at 1-800-352-0700 to report wildlife-related violations.

Tips for OHV users:

- Always remember: Nature Rules! Stay on roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.
- It is your responsibility to know applicable OHV laws.
- All national forests are undergoing or have recently completed travel man-

agement planning, which will result in changes to motor vehicle access on national forest lands. The new travel management rules include restrictions on driving cross-country for game retrieval. If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please contact the appropriate national forests(s) for updated information relative to motor vehicle use and motorized big game retrieval, before your hunt starts.

- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone numbers to federal and state land management agencies are on pages 96-98.

Firearms safety:

- When carrying a rifle or shotgun on an ATV, it should be unloaded and put in a case that is firmly attached to the vehicle.
- It is unsafe to carry a rifle or shotgun mounted on the handlebars of an ATV. The firearm could be wider than the ATV, causing an increase in the chance that the firearm could hit something and lead to loss of control.
- Don't forget T.A.B. +1 – Treat every gun as if it were loaded, **Always** point the muzzle in a safe direction, and **Be** sure of your target and beyond. **+1** Keep your finger outside the trigger guard until ready to shoot.

Hunter Emergency Card

Should a family emergency occur while you are hunting or fishing, or events develop that prevent you from returning home on time, providing the following information can be critical. The information you provide on this form will assist the Department or Sherrif's Office in the event they should need to contact you in the field. Please fill out the form provided and leave it with a relative or friend.

Leave this card with a responsible adult such as an employer, spouse or friend. The County Sherrif is responsible for all rural search and rescue operations. Contact your local Sherrif's Department if you have an emergency that requires contacting a hunter or fisherman in the field, or if someone is overdue in returning home.

Hunters Need To Be Prepared

Failing to prepare can lead to injury and death. The cost of the average search and rescue mission can range from \$1,500 to \$4,000 and some searches that are extended operations or require a lot of air support may reach into the tens of thousands of dollars. Hunters should be prepared for any conditions they may face during their hunt. Below are some tips and a list of equipment that should help hunters have a more enjoyable trip.

- Rope / shoe lace
- Clothing for both night and day
- Maps and navigational device
- Water purification tablets or device
- Extra Food
- Pocket knife

- Radio (FRS type radios)

Tips

- Planning ahead; inform family/friends of trip location & return time, be familiar with geographical area, environmental conditions (weather)

Jaguars: Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling (623) 236-7201.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

More Information to Know Before You Go

Contact the Department About Damaged Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the Department, however many also are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest Department office at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

- There has been a tremendous increase in the number of cameras, blinds, and tree stands at Department facilities including water developments. Individuals placing cameras, blinds, tree stands, or other personal property on Department facilities do so at their own risk.
- The Department is not liable for damage or theft to property left at Department facilities. For questions call 866-950-2433.

Thank you in advance for your support of Arizona's wildlife.

Common Violations While Hunting Big Game, Small Game And Migratory Birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 1 (800) 352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Attracting Wildlife with Unlawful Measures

(R12-4-303 A 2 c) Page 125

Using any lure, attractant, or cover scent containing any cervid (deer) urine to take wildlife is unlawful.

R12-4-303 4, page 125

Using edible or ingestible substances, other than water or salt based products produced for the livestock industry, to aid in the taking of big game is unlawful.

Take Wildlife Without A License

(A.R.S. 17-331) Page 111

In order to take any wildlife in Arizona, you must have a current hunting license in your possession. You should check your license every time that you go hunting, fishing or collecting. Also, you should sign your license and tag before hunting.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 16) Page 111

Any wildlife that is unlawfully taken, may not be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 14 and 15) Page 111

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Improper Tagging of Big Game

(R12-4-302) Page 124

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 113

"Resident" means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence, see pages 14 and 110) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction. Or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11) Page 111, (A.R.S. 17-301 A) Page 110

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by Commission Order. Review the Commission orders related to the species you are pursuing before leaving home. The use of spotlights attached to a vehicle is illegal if you have any weapons in your vehicle.

During certain mountain lion and coyote seasons it is lawful to use artificial light that is unattached to a vehicle. Check the Commission Orders for more details. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing. Examples are leaving all ammunition, arrows and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 110 and 129

No person may take wildlife from a motor vehicle (including watercraft and aircraft), except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Take Wildlife With Prohibited Device or By An Unlawful Method

*(A.R.S. 17-301 A) Page 110, (A.R.S. 17-309 A) Page 111
(R12-4-303) and (R12-4-304) Page 125*

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take migratory game birds

Common Violations While Hunting Big Game, Small Game And Migratory Birds

with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 111

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 111

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

Shoot Across Road

(A.R.S. 17-301 B) Page 110

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

License Revocation

(A.R.S. 17-340) Page 112

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking, selling, bartering or possession of wildlife
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock or crops while hunting or fishing
- acts of vandalism or littering while hunting or fishing
- knowingly allowing another person to use your big game tag
- unlawful entry on to closed area for purposes of taking wildlife
- unlawful posting of state or federal lands
- license fraud
- unlawful use of aircraft to take wildlife
- waste of game meat
- guiding without a license

Additional convictions may result in license privileges being revoked for longer periods up to permanently.

Civil Liability

(A.R.S. 17-314) Page 111

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums (updated annually factoring in the current Consumer Price Index):

- For each turkey or javelina.....\$500.00
- For each bear, mountain lion, antelope or deer, other than trophy\$1,500.00
- For each elk or eagle, other than trophy or endangered species \$2,500.00

If the Department rejects an application from any member of a group, the Department shall reject all members of the group application.
- P. Any hunt permit-tag issued for an application that is subsequently found not to be in accordance with this Section is invalid.
- Q. The Department or its authorized agent shall mail hunt permit-tags to successful applicants. The Department shall return application overpayments to the applicant designated "A" on the Hunt Permit-tag Application Form.
- Permit application fees shall not be refunded. License fees submitted with a valid application for a hunt permit-tag or bonus point shall not be refunded.
- R. If the Director determines that Department error caused a person to submit an invalid application for a hunt permit-tag, prevented a person from lawfully submitting an application, caused the rejection of an application for a hunt permit-tag, or caused the denial of a hunt permit-tag, the Director may authorize an additional hunt permit-tag if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted and the application for the hunt permit-tag would have otherwise been successful based on its random number. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. If the Director determines that Department error caused the failure to apply an applicant's bonus points to an application, the Director may authorize an additional hunt permit-tag to correct the error, if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. A person who is denied a hunt permit-tag or a bonus point under this procedure may appeal to the Commission as provided under A.R.S. Title 41, Chapter 6, Article 10.

R12-4-107 Bonus Point System

A. For the purpose of this Section, the following definitions apply:

"Bonus point hunt number" means the hunt number assigned by the Commission in a Commission Order for use by an applicant applying only for a bonus point for a genus identified in this Section; and

"Loyalty bonus point" means a bonus point awarded to a person who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.

B. The bonus point system grants a person one random number entry in each drawing for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that person has accumulated under this Section. Each bonus point random number entry is in addition to the entry normally granted under R12-4-104. When processing "group" applications, as defined under R12-4-104, the Department shall use the average number of bonus points accumulated by all persons in the group, rounded to the nearest whole number. If the average is equal to or greater than .5, the total will be rounded to the next higher number.

C. The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application Form if all of the following apply:

1. The application is unsuccessful in the drawing or the application is for a bonus point only;
2. The application is not for a hunt permit-tag left over after the drawing and available on a first-come, first-served basis as established under R12-4-114; and
3. The applicant either provides the appropriate hunting license number on the application or submits an application and fees for the applicable license with the Hunt Permit-tag Application Form, as applicable.

D. An applicant who purchases a bonus point only shall:

1. Submit a valid Hunt Permit-tag Application Form, as prescribed under R12-4-104, with the Commission-assigned bonus point hunt number for the particular genus as the first choice hunt number on the application. The Department shall reject any application that:
 - a. Indicates the bonus point only hunt number as any choice other than the first choice, or
 - b. Includes any other hunt number on the application;

2. Include the applicable fees:
 - a. Application fee, and
 - b. Applicable license fee, required when the applicant does not possess a valid license at the time of application; and
 3. Submit only one Hunt Permit-tag Application Form per genus per drawing.
- E. With the exception of the hunter education bonus point, each bonus point accumulated is valid only for the genus designated on the Hunt Permit-tag Application Form.
- F. Except for a permanent bonus point awarded for hunter education, or loyalty bonus points that are accrued and forfeited as prescribed in subsection (K), all of a person's accumulated bonus points for a genus are forfeited if:
1. The person is issued a hunt permit-tag for that genus in a computer drawing; or
 2. The person fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
- G. An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come, first-served hunt permit-tag remaining after the computer drawing does not gain a bonus point.
- H. The Department shall award one permanent bonus point for each genus upon a person's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.
1. The Department shall credit a person who graduated after January 1, 1980, but before January 1, 1991, or a person certified by the Department as an active hunter education instructor after January 1, 1980, with one permanent bonus point for each genus if the person provides the following information on a form available from the Department: Department identification number; name; address; residency status, and length of Arizona residency, if applicable; date of birth; sex; weight; height; color of hair and eyes; and, for a person other than an instructor, the month and year of graduation from the Department's Arizona Hunter Education Course.
 2. An instructor or a person who has graduated from the Department's Arizona Hunter Education Course shall submit the required form 30 days before a drawing's application deadline, as specified in the hunt permit-tag application schedule, in order for the bonus point to be counted by the Department in that drawing.
- I. The Department shall make an applicant's total number of accumulated bonus points available on the Department's application web site or IVR telephone system. If the applicant disagrees with the total, the applicant may request from the Department proof of compliance with this Section to prove Department error. In the event of an error, the Department shall correct the applicant's record.
- J. The Department shall credit bonus points under an applicant's Department identification number for the genus on the application. The Department shall not transfer bonus points between persons or genera.
- K. The following provisions apply to the loyalty bonus point program:
1. The Department shall award a loyalty bonus point if an applicant submits a valid application at least once a year for a hunt permit-tag or a bonus point for a specific genus consecutively for a five-year period.
 2. An applicant retains a loyalty bonus point once accrued as long as the applicant submits a valid application annually for a hunt permit-tag or a bonus point for the genus for which the loyalty bonus point was accrued.
 3. If an applicant who has accrued a loyalty bonus point fails to apply in any calendar year for a hunt permit-tag for the genus for which the loyalty bonus point was accrued, the applicant's loyalty bonus point for that genus is forfeited.

Arizona Game and Fish Commission Rules About Hunting

4. For the purpose of the loyalty bonus point program, year one of the calculation of consecutive application years is 2001, and the Department shall award a loyalty bonus point to an applicant who qualifies for the loyalty bonus point on or after the effective date of this Section.
 5. A loyalty bonus point is accrued in addition to all other bonus points.
- L. The Department shall reinstate any bonus points forfeited for a successful hunt permit-tag application for military personnel, military reserve personnel, national guard personnel, or public agency employees who are unable to use the hunt permit-tag due to mobilization, activation, or required duty in response to a declared national or state emergency, or required duty in response to an action by the President, Congress, or a governor of the United States or its territories. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection. To request reinstatement of forfeited bonus points under these circumstances, an applicant shall submit all of the following information to the Arizona Game and Fish Department, Draw Section, 5000 W. Carefree Highway, Phoenix, AZ 85086:
1. A letter from the applicant requesting reinstatement of bonus points;
 2. The hunt number for which the hunt permit-tag is valid;
 3. Evidence of mobilization or duty status, such as a letter from the public agency or official orders;
 4. An official declaration of a state of emergency from the public agency or authority making the declaration of emergency, if applicable; and
 5. The valid, unused hunt permit-tag, which must be received before the beginning date of the hunt for which the hunt permit-tag is valid, or evidence of mobilization or activation that precluded the applicant from submitting the tag before the beginning date of the hunt.

R12-4-110

Posting and Access to State Land

A. For the purpose of this Section:

1. "Corrals," "feed lots," or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing, including feeding, roundup, branding, doctoring, and other related purposes.
2. "Existing road" means any maintained or unmaintained road, way, highway, trail or path that has been used for motorized vehicular travel and clearly shows or has a history of established vehicle use.
3. "State lands" means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.

B. In addition to those prohibitions against posting in A.R.S. § 17-304, an individual shall not lock a gate, construct a fence, place an obstacle or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife. An individual in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that blocks access to state land.

Arizona Game and Fish Commission Rules About Hunting

- C. The provisions of this Section do not allow any individual to trespass upon private land to gain access to state land.
- D. An individual may post state lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes as closed to hunting, fishing, or trapping without further action by the Commission.
- E. An individual may post state lands other than those referred to in subsection (D) as closed to hunting, fishing, or trapping only if the individual has obtained a permit from the Commission, and the Commission determines that the closing is necessary:
 - 1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
 - 2. To prevent unreasonable destruction of plant life or habitat; or
 - 3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- F. An individual shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (E), or to close an existing road under subsection (J), as required by R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by an individual other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections in writing within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- G. An individual may use a vehicle on or off a road to pick up lawfully taken big game animals.
- H. The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- I. State trust land may be posted with signs that read "State Land No Trespassing" but such posting shall not prohibit access to such land by any individual lawfully taking or retrieving wildlife.
- J. The Commission may grant permission to lock or obliterate a gate or close a road or trail that provides legally available access to state lands for licensed hunters and fishermen if access to such lands is provided by a reasonable alternate route. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days. Applications for permits for more than 30 days shall be submitted to the Commission for approval. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- K. When hunting, fishing, or trapping on state land, a license holder shall not:
 - 1. Break or remove any lock or cut any fence to gain access to state land;

R12-4-112 Diseased, Injured, or Chemically Immobilized Wildlife

- A. The Director may authorize Department employees to condemn the carcass of a lawfully taken and lawfully possessed diseased, injured, or chemically immobilized wildlife taken under any permit tag that is, in the opinion of the employee, unfit for human consumption, if the individual who took the wildlife requests it and this condition was not created by the actions of the individual who took the wildlife. A Department employee may condemn wildlife that is chemically immobilized if the wildlife was taken during the established withdrawal period of that immobilizing drug.
- B. The individual who took the wildlife shall surrender the entire condemned wildlife carcass and any parts thereof to the Department employee.
- C. After condemnation and surrender of the wildlife, the Department employee shall provide written authorization to the individual who took the wildlife to purchase and use a duplicate tag. The license holder may purchase the tag from any dealer where the tag is available. The license dealer shall forward the written authorization to the Department with the report of the tag sale.

R12-4-114 Issuance of Nonpermit-tags and Hunt Permit-tags

- A. In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371, and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.
- B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
 - 1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
 - 2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt permit-tag is required to take the species in that hunt area.
 - 1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
 - 2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:

- a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number for antelope, bear, deer, elk, javelina, and turkey to issue to individuals and groups that have bonus points. The Department shall reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to individuals and groups that have bonus points.
- b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
 - i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
- c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.
- d. If the bag limit established by Commission Order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually.
- D. The Department shall not make available more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any draw to nonresidents. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number to nonresidents.
- E. The Department shall not make available more than 10%, rounded down, of the total hunt permit-tags in any hunt number to nonresidents for antelope, antlered deer, bull elk, javelina, or turkey. If a hunt number for antelope, antlered deer, bull elk, javelina or turkey has ten hunt permit-tags or fewer, no more than one hunt permit-tag will be made available to a nonresident, except that if a hunt number has only one hunt permit-tag, that tag shall only be available to a resident.
- F. Any cap established under this Section applies only to hunt permit-tags issued by random drawing under subsections (C)(2)(b) and (c).

health or safety; or

Take of wildlife under a population management hunt if the Commission has prescribed restricted nonpermit-tags by Commission Order for the purpose of meeting management objectives because regular seasons are not, have not been, or will not be sufficient or effective to achieve management objectives.

- B. For the purposes of authorizing a population management hunt, the Commission through Commission Order shall open a season or seasons and prescribe a maximum number of restricted nonpermit-tags that the Director may issue under this Section.
- C. The Director shall implement a population management hunt under the open season or seasons prescribed in subsection (B) if the Director finds that:
 - 1. Regular seasons have not met or will not meet management objectives;
 - 2. Take of wildlife is necessary to meet management objectives; and
 - 3. Issuance of a specific number of restricted nonpermit-tags is likely to meet management objectives.
- D. To implement a population management hunt under subsection (B), the Director shall do the following:
 - 1. Select season dates, within the range of dates prescribed by the Commission through Commission Order;
 - 2. Select specific hunt areas, within the range of hunt areas prescribed by the Commission through Commission Order;
 - 3. Select the legal animal that may be taken from the list of legal animals prescribed by the Commission through Commission Order;
 - 4. Determine the number of restricted nonpermit-tags that will be issued from the maximum number of tags prescribed by the Commission through Commission Order; and
 - 5. Reduce restricted nonpermit-tag fees up to 75% if the normal fee structure will not generate adequate participation from either the hunter pool or hunt permit-tag holders under subsection (J).
- E. The Director shall not issue more restricted nonpermit-tags than the maximum number prescribed by the Commission through Commission Order.
- F. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued. To participate in a supplemental hunt, a person shall:
 - 1. Obtain a restricted non-permit tag as prescribed under this Section, and
 - 2. Possess a valid hunting license. If the applicant does not possess a valid license or the license will expire before the supplemental hunt, the applicant shall purchase an appropriate license at the time of application.
- G. If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.
- H. To obtain a restricted nonpermit-tag under subsection (G), an applicant shall provide to a Department office the applicant's name, address, Department identification number, and hunt permit-tag number on a form prescribed by the Department.
 - 1. The applicant shall provide verification that the applicant legally obtained the hunt permit-tag for the hunt described under subsection (G) by presenting the hunt permit-tag to a Department office for verification.
 - 2. The applicant shall not apply for or obtain a restricted nonpermit-tag to take wildlife in excess of the bag limit prescribed by the Commission.
- I. The Department or its authorized agent shall maintain a

hunter pool for supplemental hunts and shall randomly select applicants from the hunter pool for participation in a supplemental hunt, if the season dates and open areas of the supplemental hunt do not exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw.

- J. When issuing restricted nonpermit-tags to the hunter pool, the Department or its authorized agent shall randomly select applicants from the hunter pool. The Department or its authorized agent shall attempt to contact each randomly-selected applicant by telephone at least three times during a 24-hour period. If an applicant cannot be contacted or cannot participate in the supplemental hunt, the Department or its authorized agent shall return the application to the hunter pool and draw another application. The Department or its authorized agent shall draw no more applications after the number of restricted nonpermit-tags prescribed in subsection (D) (4) has been issued.
- K. The Department shall purge and renew the hunter pool annually.
- L. An applicant for a supplemental hunt shall submit the following information on a form available from the Department or its authorized agent:

 - 2. The applicant's hunting license number. The applicant shall possess an appropriate license that is valid at the time of the supplemental hunt.
- P. The Department shall reserve a restricted nonpermit-tag for an applicant only for the period specified by the Department when contact is made with the applicant. The Department shall issue a restricted nonpermit-tag not purchased within the specified period to another person whose application is drawn from the hunter pool as prescribed by this Section. The Department or its authorized agent shall remove from the hunter pool the application of any successful applicant who does not purchase a tag after being contacted and agreeing to purchase the tag.
- Q. A person who participates in a supplemental hunt through the hunter pool shall be removed from the supplemental hunter pool for the genus for which the person participated. A person who participates in a supplemental hunt shall not reapply for the hunter pool for that genus until that hunter pool is renewed.
- R. The provisions of R12-4-104, R12-4-107, R12-4-114, and R12-4-609 do not apply to supplemental hunts. A supplemental hunt application submitted in accordance with this Section does not invalidate any application for a hunt permit-tag. The issuance of a restricted nonpermit-tag does not authorize a person to exceed the bag limit established by the Commission.
