From the Director's Desk

Not too long ago, if you wanted to eat, you hunted. It was a time when no person could escape the fact that each of us is a part of the ecosystem in which we live. In today's modern world, finding food is as easy as going to the corner grocery store or to the nearest fast food restaurant. Those of us who hunt, however, still experience the feeling of being a part of our natural world. Not just observing, we feel the reality of being immediately subject to the laws of nature. The experiences associated with hunting are far more significant than just filling the freezer with meat.

Hunters have more than a visceral understanding of where our food comes from, and a respect for nature that one just cannot learn opening a package of hamburger. Early in our hunting experience, we learned that feeding the family requires harvesting an animal, and it's a responsibility taken seriously. We are conscious of the sanctity of life, the sin of waste and the importance of patience, skill, accuracy and perseverance.

Hunters feel, smell and touch nature and understand the relationship between abundant wildlife and healthy habitat. We understand that Arizona's human population continues to grow and efforts that must be taken to protect and conserve our wildlife and wildlands. Our feelings for nature drive hunters to pitch in on habitat improvement projects, clean-up campaigns and wildlife rescue efforts.

When it comes to funding wildlife conservation, hunters like you have willingly supported funding state wildlife agencies with voluntary excise taxes on firearms, ammunition and archery tackle, since 1937, paying to keep game populations healthy, but also to support the conservation of nongame species, endangered reptiles, amphibians and migratory waterfowl. In most states, it is hunters—not the taxpayers—who provide the funding to keep wildlife healthy and abundant.

Part of hunting is learning how to properly handle, store, clean and safely shoot our firearms. It also includes seeking continuous improvement in being a better and more ethical hunter. Many of you volunteer to teach hunter education classes because you believe in the importance and future of hunting and conservation by raising up the next generation in the way they should go. Because most of us were taught how to hunt by our parents, grandparents and extended families, we often associate hunting with family and tradition. Truly, there is no finer tradition than teaching the next generation the joys, skills and responsibilities of being a hunter. It's

especially rewarding to teach our kids and grandchildren and to watch them grow into responsible, ethical users of the outdoors.

Many mistakenly opine that getting a "trophy" is a hunter's only goal. As hunters, we know in our hearts that our feelings for the outdoors are much deeper. We aspire not only to feed our families, but also, impart our skills, improve our environment, conserve Arizona's wildlife and maintain healthy balanced populations of all wildlife species, not just those we hunt. Today's incredible diversity of wildlife in Arizona would not be possible without the generous—and selfless—contributions of the hunting public.

In the years to come, those who don't understand hunting may attempt to limit or stop it, without regard to the havoc that would cause to wildlife populations and our ability to conserve them. Hunters have another duty: to remain politically active and protect the outdoor lifestyle we have enjoyed for generations through the North American Model of Wildlife Conservation. Make your voice heard: Your personal, intimate connection to the outdoors through hunting is our best defense against those who, lacking that relationship, would seek to take it from us.

Getting Started Checklist

Welcome to hunting in Arizona. If you don't know where you want to hunt, what you need, or even what you can hunt in Arizona, this section is for you. It is designed to help NEW hunters get started. Following is some basic information you should consider while planning your hunt. The best way for all hunters to prepare themselves to hunt in Arizona is to take a Department-sponsored hunter education course (see page 30).

□ Step 1. Where to Start

1. What animal(s) can you hunt?

- Small game: cottontail rabbit, tree squirrel, migratory game birds, and upland game birds like quail.
- Big game: black bear, bighorn sheep, bison, deer (mule and white-tailed), elk, javelina, mountain lion, pronghorn antelope, and turkey.
- Predator/fur-bearer: coyotes, skunks, foxes, raccoons, bobcat, ringtail, weasel, and badgers.
- Other birds and mammals.

2. Do you have a hunting license?

To hunt in Arizona, a license is required. Check out page 14 for a list of our hunting permit and license fees. You can purchase hunting licenses online at www.azgfd.gov. You also can purchase licenses, tags, and/or stamps from any of our 340 license dealers (information is online at www.azgfd.gov), or Department offices statewide (see page 3 for office locations).

Are you a resident? See "resident" definition on page 7. You cannot be a resident of more than one state.

3. Did you validate your license?

You must first sign your license. For some species you must also purchase a stamp or stamp privilege for the license to be valid. You will need a tag in addition to a valid license to hunt big game, sandhill cranes, and pheasants. You must also sign all tags before going afield for them to be valid.

□ Step 2. Where/When to Hunt

1. Where do you want to hunt?

Arizona is divided into Game Management Units (GMU or unit) composed of state, federal, military, and private land. Review the GMU maps (pages 70-77), and the "Where you can hunt section" (page 96) for more information.

2. When do you want to hunt?

There are several different seasons in which you can hunt a species. Go to individual species to determine their seasons.

□ Step 3. "To Apply or not to Apply?"

1. Don't Apply.

For most small game species, and all predator/fur-bearer and other birds and mammals you simply need a license and any required validations (for example: stamps) to hunt.

There are also several big game species that you may pursue simply by purchasing an over-the-counter nonpermit-tag in addition to your license. These hunts include archery turkey, mountain lion, fall bear, some archery deer and elk. Mountain lion, bison, bear and bighorn sheep have mandatory reporting requirements, so check the information on the corresponding Commission Order.

2. Apply.

Permits for most big game species, sandhill crane, and pheasant are issued through a hunt drawing. If interested in hunting any of these species, you must apply for a tag in a drawing; refer to page 16 in this booklet or the appropriate supplement for specific information. You can apply online or by paper application. The sample application form on page 19 will help you to apply for both a tag and license. Follow the instructions on the sample form and DON'T forget to include your correct fee(s).

□ Step 4. Do Your Homework

1. Common violations

Before you go hunting we recommend you read pages 104-105 to be aware of the most common violations. Also, take a look at the Arizona laws and rules beginning on page 108 to learn what you can and can't do in Arizona. If you are witness to a violation please call our Operation Game Thief hotline at 1-800-352-0700 to report the violation. You may be eligible for a cash reward.

2. Care/transport information

Before you go in the field, review our laws and rules to understand requirements to possess and transport wildlife after your hunt. Generally, you need to keep your license on your person and your tag affixed to your carcass at all times during transport. The Department has information available to properly care for your wildlife (see page 3 for regional office locations and phone numbers).

3. You're on your way!

These are just some basic steps to help you start your first hunt. Please read through the rest of the hunting and trapping regulations to better familiarize yourself with hunting in Arizona. If this section fails to answer your questions, contact any Arizona Game and Fish office or visit our website www.azgfd.gov.

Definitions

Big Game: Any of the following species: mule deer, white-tailed deer, pronghorn antelope, elk, turkey, javelina, bear, bighorn sheep, bison and mountain lion. All species require a hunt permit-tag, except for archery turkey, youth turkey, fall bear, mountain lion and some archery deer; these species require a nonpermit-tag.

Big Game Drawing: A random computerized lottery drawing to determine issuance of hunt permit-tags. Three separate draws occur each year for various species.

Bonus Point: An accumulated credit that authorizes the Department to issue a Big Game Drawing applicant additional computer-generated random numbers during a draw.

Commission Order: A document adopted by the Commission that does any or all of the following: open, close, or alter seasons and open areas for taking wildlife; specify wildlife that may or may not be taken; set bag or possession limits for wildlife; or set the number of permits available for a hunt.

Daylong: the 24-hour period between midnight and midnight.

Department ID: A number used to identify the hunter by name and address, and to accumulate bonus points. A hunter may designate their Social Security number or a Department issued, computer-generated number. (Federal regulations require all applicants must provide their Social Security number.)

Game Management Unit: An area established by the Commission for management purposes, commonly referred to as GMU or Unit (see maps on pages 70-77, and boundary definitions on page 114).

Genus: A major category in the classification of animals and plants ranking above the Species level and below the Family level.

HAM: Designates weapon type as handgun, archery, or muzzleloader.

Hunt Area: A game management unit (GMU or unit), portion of a unit, group of units, or any portion of Arizona and not included in a GMU that is open to hunting by a particular hunt number.

Hunt Number: The number assigned by Commission Order to a hunt where a limited number of hunt permit-tags is available. The hunt number will specify species, dates, boundaries of the hunt area, weapon type, number of available permits, legal wildlife, and who may hunt. Hunt numbers are assigned for any species where hunt permit-tags are issued through a drawing.

Hunt Permit-tag: A tag for a hunt in which a Commission Order has assigned a hunt number. The number of tags is limited by the Commission Order and may only be obtained through a random drawing. A hunt permit-tag along with a license authorizes an individual to hunt a designated species during the designated hunt.

Hunter Pool: A computerized database comprised of individuals wishing to be considered for a restricted nonpermit-tag when a supplemental hunt is authorized. Entry into the hunter pool consists of completing an application (page 65) and submitting it along with the application fee to the Department.

License Dealer: A business authorized to sell Arizona hunting, fishing, and other licenses and stamps.

Muzzleloading Handgun: A firearm intended to be fired from the hand, incapable of firing fixed ammunition, having a single barrel, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Muzzleloading Rifle: A firearm intended to be fired from the shoulder, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Nonpermit-tag: A tag for a hunt in which a Commission Order does not assign a hunt number and the number of tags is not limited (over-the-counter tag). A nonpermit-tag along with a license authorizes a hunter to hunt certain game species. A nonpermit-tag may be purchased at Department offices or from licensed dealers.

Resident: "Resident" means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction; or is a member of the armed forces of the United States who is on active duty and stationed in this state for either permanent or temporary duty; or is a member of the armed forces of the United States on active duty stationed in another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Arizona Residents may purchase a resident license. All other individuals must purchase a non-resident license.

Restricted Nonpermit-tag: A tag issued for a supplemental hunt.

Season: The legally established time a species can be hunted.

Small Game: Any of the following species: cottontail rabbits, tree squirrels, upland game birds (quail, blue grouse, chukar partridge, and pheasants), and migratory game birds (doves, waterfowl, sandhill crane, coots, gallinules, snipe, and band-tailed pigeons).

Species: A naturally existing population of similar organisms that usually interbreed only among themselves.

Stamp: A form of authorization in addition to a license that allows the license holder to take wildlife specified by the stamp. The form of the stamp may be an actual stamp affixed to the back of the license, a printed privilege on the license itself, or a printed privilege on a separate license form.

Supplemental Hunt: A season established for a particular species by the Commission for the following purposes: take of depredating wildlife, take of wildlife under an Emergency Season, or take of wildlife under a population management hunt. The Commission through Commission Order shall approve a season or seasons and prescribe a maximum number of restricted nonpermit-tags for specific species that the Director may authorize for issuance.

Trapper Registration Number: A trapper's registered number shall be issued by the Department and entered upon the trapping license at the time of purchase. A trapper's registration number is not transferable. All traps shall plainly be identified with the trapper registration number or the trapper's name and address.

The North American Model of Wildlife Conservation

Did You Know?

The Arizona Game and Fish Department is responsible for wildlife management in the state and receives no state tax dollars. Hunters and anglers pay for wildlife conservation through their purchase of licenses, tags and stamps, and excise taxes on hunting and fishing gear. The conservation dollars paid by hunters and anglers benefit both game and nongame species and their habitats.

What Is It?

The North American Model of Wildlife Conservation is the world's most successful system of conservation. No other continent retains such a complete balance of native wildlife species. While other countries struggle to conserve the little they have left, we enjoy great diversity and abundance of wildlife. This user-pay, public-benefit model relies on sound science, public participation, active habitat management, strict regulation, and active law enforcement to sustain wildlife populations. The end result is a harvestable surplus of game species every year, and an opportunity for all to enjoy it.

A Renewable Resource

Sportsmen's Role in Wildlife Conservation

Whether one chooses to actively participate in hunting or angling, people interested in wildlife and its future should understand the role sportsmen and women play in conservation. Hunters and anglers were the forward-thinking conservationists who developed the North American Model of Wildlife Conservation over a century ago. Hunting, angling and shooting sports continue to be the primary source of funding for conservation efforts in North America. Through a 10 percent to 12 percent excise tax on hunting, angling and shooting sports equipment, participants in those activities

Sandhill cranes

have generated more than \$10 billion toward wildlife conservation since 1937.

Though past conservation efforts have focused on hunted species, non-hunted species reap the rewards as well. Countless numbers of non-hunted species have been saved from peril by protecting wetlands for ducks, forests for deer and grasslands for pronghorn.

If Hunting and Angling Ended

There is no alternative funding system in place to replace the potential lost funds for conservation. If hunting and angling end, funding for wildlife conservation, including enforcement of all wildlife laws, will be jeopardized.

Hunters, anglers, shooters and boaters actively support wildlife conservation through tangible actions such as buying licenses and paying excise taxes on hunting, fishing and shooting equipment and motor boat fuel.

Why are hunters and anglers so willing to support conservation through their pocketbooks? Because people place added value on – and are willing to pay for – what they can use.

Given the rate of population growth, particularly in western states, the percentage of people participating in hunting and fishing is decreasing. Therefore, it is important to engage in traditional outdoor recreational activities and introduce others to these opportunities.

The North American Model of Wildlife Conservation

Arizona's Core Concepts

The North American Model of Wildlife Conservation is the foundation for wildlife conservation in Arizona and throughout the country. Hunters and anglers are its backbone. The Arizona Game and Fish Department's core concepts of the North American Model are:

Wildlife is held in the public trust

The public trust doctrine means that wildlife belongs to everyone. Through shared ownership and responsibility, opportunity is provided to all.

Regulated commerce in wildlife

Early laws banning commercial hunting and the sale of meat and hides ensure sustainability through regulation of harvest and regulating commerce of wildlife parts.

Hunting and angling opportunity for all

Opportunity to participate in hunting, angling and wildlife conservation is guaranteed for all in good standing, not by social status or privilege, financial capacity or land ownership. This concept ensures a broad base of financial support and advocacy for research, monitoring, habitat conservation and law enforcement.

Hunting and angling laws are created through public process

Hunting seasons, harvest limits and penalties imposed for violations are established through laws and regulations. Everyone has the opportunity to shape the laws and regulations applied in wildlife conservation.

Hunters, Anglers, Boaters and Shooters Fund Conservation

Hunting and fishing license sales and excise taxes on hunting, shooting and fishing equipment and motor boat fuels pay for the management of all wildlife, including wildlife species that are not hunted.

Wildlife is an international resource

Proper stewardship of wildlife and habitats is both a source of national pride and an opportunity to cooperate with other nations with whom we share natural resources. Cooperative management of migrating waterfowl is one example of successful international collaboration.

Science is the basis for wildlife policy

The limited use of wildlife as a renewable natural resource is based on sound science. We learn as we go, adapting our management strategies based on monitoring to achieve sustainability.

Scientific information gathered from animals, like this radio-collared elk, contribute to wise wildlife management decisions. Sportsmen's dollars help pay for wildlife research in the user-pay, public-benefit model of conservation.

The reward for this successful model of conservation is the opportunity for all.

Regulations for the taking of wildlife are forged through public input. Enforcement of these laws is critical to wildlife conservation.

Ethics

Ethical Hunting is Everyone's Business

"Ethics is not only about what you should not do, but what you should do. Offer to lend a hand to another hunter if they are retrieving downed game, share information on hunting conditions and engage in helpful conversation with beginners you happen to meet. Hunting is a heritage we all share, and together, we can continue to share it for generations to come."

– *Arizona Game and Fish Department*

What are Ethics?

Ethics generally relate to fairness, respect and responsibility. Aldo Leopold once said "ethical behavior is doing the right thing when no one else is watching—even when doing the wrong thing is legal." They are the personal unwritten rules that we value. When we talk about an ethical hunter their behavior is an example of the sportsmanship they demonstrate in the field.

Ethics with Landowners

- Ask permission for access prior to the season before hunting on private property;
- Go out of your way to respect landowners and their property. Be courteous, visit with them, be thankful, offer assistance when necessary, or share your harvest with them;
- Leave the land better than you found it. Return all gates to the way they were. Notify the landowner of any damage or repairs needed to fences that you find and offer your help;
- When "nature calls," walk away from roads and trails. Find a discrete location and bury the waste;
- Drive only on existing roads approved for use;
- Leave livestock and other property undisturbed.

Ethics with Other Hunters

- Follow safe firearms and bow handling practices at all times;
- Abide by game laws and regulations;
- Refrain from interfering with another hunter's hunt or campsite. If you see someone in that area, back out;

- If you meet up with another hunter in the field, be polite engage in conversation and share information.
- A trophy is calculated not by score but by memories. Be respectful and congratulate others for their harvest, regardless of antler size.

Ethics with Waterholes

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access;
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first;
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt;
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present;
- Hanging a tree stand or setting a blind near a waterhole does not entitle a person to exclusive hunting rights to that waterhole. Depending on the location it may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- It is unlawful for a person to camp within one-fourth mile of a natural water hole containing water or a man-made watering facility containing water in such a place that wildlife or domestic stock will be denied access to the only reasonably available water.

Ethics about "First-Come, First-Served"

"First Come – First Serve" is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or

disorderly conduct can result in citations, arrests and/or jail time. Please refrain from confrontational behavior – ethical hunting is everyone's business.

Ethics with the Quarry

- Only take a well-placed shot in a vital area of the game species you are permitted to take;
- Know your limitations. Be mindful of your effective shot range. Avoid extreme distance shots, risky angles and situations where you do not feel confident in your shot. Strive for a quick, clean harvest;
- Select appropriate equipment for your quarry. Be aware of the equipment's limitations as well as your effective range. Take time to practice to ensure an accurate shot;
- Respect your personal capabilities under various conditions that you could potentially encounter during a hunt. Consider your general health, physical condition, weather and elevation in the area you plan to hunt. Be sure to hunt areas that are within your physical limitations.
- Bowhunters should keep in mind shots at greater distances may result in the quarry moving before the arrow reaches it. Kinetic energy is extremely important on larger game animals as energy is lost at longer distances which can result in wounded or lost game;
- Learn about the habits and habitat of the game species you are hunting;
- Make every possible effort to recover game;
- Adhere to the rules of fair chase;
- Follow up every shot at game with a search for sign. You cannot always tell immediately that an animal has been hit.

Ethics with Carcass Disposal

Thanks to recreationists, the Operation Game Thief Program has enjoyed great success with the Department receiving thousands of calls each year many of which lead to the apprehension of wildlife law violators. The Arizona Game and Fish Department also receives calls regarding the dumping of wildlife that have been legally killed because the reporting party is unable to discern that the animal was taken legally. Under these

Ethics

circumstances the Department expects and appreciates notification. In most cases the reports are from individuals that find the carcasses in dumpsters, close to urban areas, and in or near a campsites and roads. In an effort to reduce unnecessary reports the Department asks that sportsmen take care to dispose of their lawfully taken carcasses so that they are not discovered by the general public. The Department recommends burying the carcasses or leaving them under a tree away from camping areas and roads. Additionally if utilizing a dumpster use trash bags or wrap the carcass to reduce offensive odors. Remember that sportsmen are obligated to remove game from the field and are prohibited from wasting game meat.

Ethics with Non-hunters

- Show respect for other users of the land and their property. They possess the same rights as you do to use the lands;
- Be courteous to non-hunters when

transporting your game from the field. Transport animals discreetly;

- Don't leave remains of field dressing in places where it is easily visible. Respect other people that may be walking by;
- Clean up to the best of your ability before entering into a public place when returning from a hunt if you cannot change clothes. Present a professional image;
- Take tasteful photographs of your hunt;
- Invite someone new to come hunting with you.

Ethics in Reporting Honest Mistakes

The Arizona Game and Fish Department realizes that with the hundreds of thousands of hunters that take to the field each year there are bound to be some unfortunate circumstances that may occur. It might be a case where a hunter mistakes a doe for a buck, shoots a second elk due to a pass-through

shot, or accidentally shoots an extra dove over the limit. While these accidents are infrequent, they do occur to honest hunters every year.

Your decisions in the time immediately after you make a mistake can make a huge difference in the outcome. Mistake or accident, the sportsman is ultimately responsible for their actions. Although self-reporting may not get you out of a citation, it will greatly reduce the likelihood of being cited for a revocable offense. When accidents happen it is critical you notify the Department as soon as possible. If you find yourself in this situation don't compound your mistake by trying to conceal it. Call the Operation Game Thief Hotline (800-352-0700) at your first opportunity and follow the instructions provided by the operator. A wildlife manager will be dispatched to the scene to assist you. In almost all cases, the meat from animals involved in a self-reported violation will be donated to a charitable organization.

Landowner Compact

The Landowner Compact is a new initiative that the Department has developed to help ensure hunters have access to and through private property and provides landowners an assurance that the Department is working with all hunters to promote ethical use of the land and respect for private property. Landowners enrolling on the Landowner Compact authorize AZGFD wildlife managers to act as their agent to enforce trespass laws and ranch rules specifically designed to address ethical issues that arise on a ranch due to poor behavior by anyone recreating on the ranch. If someone is caught engaging in poor behavior by breaking wildlife laws and ranch rules, that person no longer has permission to hunt, recreate, or pass through private lands enrolled in the Landowner Compact. This program aims to raise awareness that our hunters can influence future access through respect and appreciation of the value of private lands for wildlife. License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Short-term Combination Hunting and Fishing License nor an Apprentice Hunting License is valid for big game.

Youth ages 10–17 must purchase a Youth Combination Hunting and Fishing license. The license fee is \$5.

A person under 10 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may hunt big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags or nonpermit-tags.

Where to Buy Licenses

Arizona hunting licenses may be purchased online at www.azgfd.gov. If you purchase a license online, **you must print the license from your home printer**. The Arizona Game and Fish Department will not mail your license to you. Licenses also can be obtained from any license dealer or Arizona Game and Fish Department office (see locations on page 3 of this booklet).

If you are applying for a big game permit-tag or bonus points on a paper application, you may purchase your general hunt (available for residents only) or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until the draw is complete.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If

you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

“Resident” means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction; or is a member of the armed forces of the United States who is on active duty and stationed in this state for either permanent or temporary duty; or is a member of the armed forces of the United States on active duty stationed in another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Arizona Residents may purchase a resident license. All other individuals must purchase a non-resident license.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An apprentice hunting license is valid for two consecutive days when the apprentice is accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice License. An apprentice may be a resident or non-resident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a domiciled resident of this state who is at least 18 years of age and must possess an annual hunting or combination license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice

hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield.

High Achievement Scout License

The High Achievement Scout License license is offered to a resident youth who has attained either the rank of Eagle Scout (Boy Scout) or received a Gold Award (Girl Scout). The fee for the reduced license is \$5. The applicant must present proof of their rank or award by providing their certification letter, wallet card, or award certificate at any Department office, and complete the High Achievement Scout License application (Form 306, available on the Department website or at any Department office). This license is not available through the draw. At the age of 21, an Eagle Scout or Gold Award recipient is no longer eligible for the High Achievement Scout License license, and from that point forward would be required to purchase an adult license.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags, and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Licenses purchased online can be reprinted for free. Duplicate licenses can be purchased online. Consult R12-4-103 (page 112 of the 2016-17 Arizona Hunting Regulations) Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for information about this permit (page 123 of the 2016-17 Arizona Hunting Regulations). Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import

License Information

permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at 304-616-4550, or download an application from the ATF website at www.atf.gov.

Tag Transfers

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags. A \$4 transfer fee applies, unless donating to a non-profit organization. The commission may prescribe the manner and conditions of transferring and using permits and tags under this paragraph, including an application process for a qualified organization, to allow a person to transfer the person's big game permit or tag to a qualified organization for use by:

- A minor child who has a life-threatening medical condition or by a minor child who has a permanent physical disability.

If a child with a physical disability is under 14 years of age, the child must satisfactorily complete the Arizona hunter education course or another comparable hunter education course that is approved by the director.

- A veteran of the armed forces of the United States who has a service-connected disability. For the purposes of this paragraph "disability" means a permanent physical impairment that substantially limits one or more major life activities requiring the assistance of another person or a mechanical device for physical mobility. "Qualified organization" means a nonprofit organization that is qualified under section 501(c)(3) of the United States internal revenue code and that affords opportunities and experiences to children with life-threatening medical conditions or with physical disabilities or to veterans with service-connected disabilities.

A parent, grandparent or legal guardian may allow the parent's, grandparent's or guardian's minor child or minor grandchild to use the parent's, grandparent's or guardian's big game permit or tag to take big game pursuant to the following requirements:

- The parent, grandparent or guardian must transfer the permit or tag to the child in a manner prescribed by the commission.
- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent's permit or tag, the grandparent, the parent or the child's guardian must accompany the child in the field.
- The child must possess a valid hunting license and, if under fourteen years of age, must satisfactorily complete the Arizona hunter education course or another comparable hunter education course that is approved by the director.
- Any big game that is taken counts toward the child's bag limit. Once a tag is transferred at a Department office, the original permittee may no longer use it.

Visit www.azgfd.gov/hunting and scroll to the additional hunting information. There you will find a link titled "Tag Transfer." Organizations you can donate your tag to are listed on the page.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags.

Qualifications

Individuals wishing to participate in a drawing or to obtain bonus points must apply online or in writing using the Hunt Permit-tag Application Form, and submit the form by the deadline specified in the Hunt Permit-tag Application Schedule found in the current year's hunt regulations (page 20).

An applicant must possess a license (including lifetime, pioneer or disabled veteran's) that is valid on the last day of the application deadline for that draw. **Youth applying for big game hunts must be licensed.** If an applicant does not have a license that meets that requirement, he or she must purchase the license at the time of application. An applicant must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued. License refunds will be made for additional applications. Licenses will not be issued until the draw occurs.

Applying for a Hunt

The online application service will be available early to mid-May, see page 18 or visit www.azgfd.gov/draw for more information.

Paper applications for hunt permit-tags must be made on Hunt Permit-tag Application Forms available at Department offices, website, and license dealers. Please use the current year's application form, that is **WHITE** in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply on one application in one envelope. All appli-

cants in a group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person, including Youth, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-tag Application Form. **Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. More than one (1) application in an envelope may result in rejection of all applications.** You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application – just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

Fees

Information about fees associated with the online draw process is on page 18.

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting or combination hunt and fish license, if a license is requested.

Be sure to enclose license fees on **each** application, if required, for each person who is applying on the application for a license. Only one license will be issued per person.

3. Discounted hunt permit-tag fees are for "Youth-Only" designated hunts. A youth must pay the higher fee unless applying only for "Youth-Only" hunts.

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application, or separate checks or money orders may be submitted in one envelope for each individual applicant.

The permit and license fees are specified in the fee schedule on page 14. The hunt permit-tag fees on page 14 include the non-refundable application fee.

Submitting Applications

The online application service will be available in early to mid-May. Please check the Department's website or sign up for free e-newsletters for regular updates. You can register for e-news at www.azgfd.gov/signup.

Attention online applicants: Deadline for updating your credit or debit card information online is 11:59 p.m. (MST) Thursday, July 7, 2016.

Applications (except first-come, sand-hill crane, and raptor applications) may be hand-delivered to Department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman, or Yuma. Mailed applications must be sent only to the Department's Phoenix Office at P.O. Box 74020, Phoenix, AZ 85087-1052. On deadline days, Department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 11:59 p.m. (MST). Drop boxes are locked promptly at 11:59 p.m. (MST). All applications must be **received by** the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-tag Application Schedule on page 20. **Postmarks don't count.**

Draw Information

Applications will be accepted as soon as the applicable year's hunt regulations are available. Please consult the current year's hunt regulations as unit areas and season dates may change each year.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens to My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What if I'm not Drawn?

Please use one of the methods (Internet or telephone) listed on page 5 to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-tag Application Form. Application and license fees will not be refunded. You will not be issued more than one license and a refund of any remaining fees will be issued. An overpayment of \$5 or less

will not be refunded, and shall be considered a donation to the Arizona Game and Fish Fund.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded.

If an application is rejected and a license has been requested, the license will not be issued. The license fee will be refunded, however, the application fee will not be refunded.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 20.

First-come permit-tag results are not posted. If successful, you will receive your tag in the mail within 10-15 business days.

Obtaining a Bonus Point Only

In the event you do not wish to participate in a big game drawing for species offered in this draw, but still wish to accumulate bonus points for these genera, you may "obtain a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will**

be rejected. You may obtain only one bonus point per genus per drawing.

To apply for a bonus point only, the individual must be 10 years old by the deadline date as specified in the hunt permit-tag application schedule on page 20.

To apply for a bonus point only, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point costs you only the license fee (if needed) and the application fee per applicant. See page 14 for license fees.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a

formula based on hunting license sales and the state's land area. In 2015, that means more than \$19 million for game management in Arizona. This money pays for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world... thank you.

Apply Online for Big Game Hunts and Bonus Points at www.azgfd.gov

The online application will be available early to mid-May.

Why apply online?

There are many advantages to submitting an online application:

- Apply from home or work – no driving, no mailing;
- Easy to meet the deadline – go to www.azgfd.gov and click on “Apply for a Draw”;
- Reduces chances for errors (you must still read your options closely);
- The initial cost to you is only the application fee and license fee (if you don’t already have a current license);
- The permit-tag cost will only be charged if you are drawn for that species; and
- Easy to donate to the Big Game Habitat Fund and benefit wildlife populations.

What if I buy a license when I apply for my hunt?

If you purchase a hunting or fishing license online, you must print the license from your home printer. Your license will not be mailed to you.

Are there any additional fees for applying online?

No. The application fee per applicant is the same whether applying online or by paper. The application fee includes a \$13 application fee per applicant for residents and a \$15 application fee per applicant for non-residents.

Can I apply for a bonus point only?

Yes. Select Bonus Point Only when prompted. You must have a current hunting license or purchase one. You will be charged the appropriate application fee (\$13 application fee per applicant for residents and a \$15 application fee per applicant for non-residents).

What are the license requirements?

When applying for a hunt, you must have a license valid through deadline day of that draw. If drawn for a hunt permit-tag, you must also have a valid license at the time of the hunt. These may not be the same license under the new 365 day licenses. Please contact customer service if you have any questions. See page 5 for phone numbers.

How do I pay?

A valid credit or debit card (Visa or MasterCard) must be used when applying online. Your card will be charged once for the application fee and second time if you are successful in drawing a permit-tag. Your hunt application will be rejected if either payment transaction is denied by the credit or debit card institute. If you successfully draw a permit-tag but your card is not approved for payment, the Department will make three attempts within two business days to notify you and offer you the opportunity to provide an alternate payment card

within a specified timeframe. If the Department has not received an alternate payment at the end of that specified timeframe, your application will be rejected. No exceptions will be made for individuals who do not respond to the Department’s attempts to contact them. Deadline for updating credit or debit card information online is 11:59 p.m. (MST) Thursday, July 7, 2016.

IMPORTANT: Applicants are encouraged to keep their credit or debit card information up to date, if your card becomes invalid for any reason before the credit card update deadline, update your information online for **each** species you applied for by selecting the “update my payment information” option and providing the required information. The Department is not responsible for any overdraft charge incurred due to insufficient funds.

To apply online, simply log on to the Arizona Game and Fish Department website at www.azgfd.gov, place the cursor on “Apply for a Draw” on the main Web page and follow the step by-step instructions. We recommend you have your hunter list (including first and last names, dates of birth, Department identification number, and Social Security Number) and hunt choices completed with all the required information for each hunter prior to logging on to apply. This will make for a quicker application process.

How to Apply for the Draw: Paper

If you choose not to participate in the online application, you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 250 license dealers statewide, and as a downloadable PDF electronic document from the Department's website at www.azgfd.gov/draw. A list of dealers can be found on the Department's website.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

1. You must use a separate application, a separate payment AND a separate envelope for each genus (deer, elk, etc.) for which you apply. No more than one (1) application (up to 4 applicants) may be included in the same envelope. NOTE: All hunt choices for each genus, regardless of weapon type, must be requested on the same application.
2. You must use valid Hunt Numbers; make sure you refer to appropriate Hunting Regulations. Do not use game management unit numbers.
3. In accordance with federal requirement, 42 U.S.C. Section 666 A13 and state requirement, A.R.S. 25-320 (P) and 25-502 (K), you must provide your Social Security Number in the space provided. This is kept on file with the Department of Economic Security for use in identifying and tracking child support offenders. If you are not a U.S. Citizen you must write "Not US Citiz" in the Social Security field. Applicants declaring "Not US Citiz" must provide a Department I.D. Number (refer to item #7).
4. You must fill in your name, home mailing address, city, state, and zip code. You must include your date of birth. You must specify your date of birth with a two-digit month, a two-digit day, and a four-digit year. (For example: if you were born on Jan. 5, 1950, you would write: 01-05-1950 in the Date of Birth field.)
5. You must check either the resident or non-resident box for each applicant.

Special Youth Opportunities

Robbins Butte Youth-Only Dove Hunt

Robbins Butte Wildlife Area (RBWA) is about seven miles southwest of Buckeye and comprises more than 1,600 acres. RBWA was purchased for its potential as waterfowl habitat. Three ponds were built in 1952 and by 1957 an estimated 30,000 ducks used these ponds. However, increased demand for agricultural water coupled with invasion of salt cedar trees led to dramatic waterfowl declines by 1960.

In response, the Department purchased the adjacent Black Butte Farm to expand RBWA. This land contained some of the last pristine honey mesquite bosque remaining along the lower Gila River. This acquisition protected the bosque, and provided cultivated grain crops for small game. The combination of wildlife food crops, natural foods and nesting habitat now attracts a combined average of 5,000 breeding white-winged and mourning doves each year.

A portion of RBWA is managed strictly for youth hunters. The special hunt is open to youth up to their 18th birthday, those 10 years and older need a valid hunting license and migratory bird stamp (included in youth license). Shooting locations are assigned on a first-come, first-served basis. Participants must check in prior to hunting and check out when finished. On Sat., Sept. 3, plan to arrive by 4:30 a.m. for

a safety briefing and location assignments. Afterward, visit the check-in tables and enjoy a free breakfast provided by the Youth Outdoors Unlimited. Oh, and don't forget to bring plenty of shells. This area can produce lots of chances to fill your bag. Please refer to the current Dove and Band-tailed Pigeon Regulations for specific season dates at www.azgfd.gov/dove.

Game Camps, Scholastic Clays and Archery

Learn to Hunt Events

The Arizona Game and Fish Department offers camps on hunting basics to individuals who are interested in hunting but may not know where to start. These hands-on workshops teach the skills necessary to successfully pursue the variety of game animals found in Arizona. Both adults and youth are invited to participate. The camps include instruction and the opportunity to interact with experienced mentors and other camp participants. Attendees will learn information on firearm safety, hunting opportunities, game care, archery instruction and more. There will also be hands-on hunting opportunities. A schedule of upcoming camps is listed on pages 26–30 and also at www.azgfd.gov/outdoorskills.

Scholastic Clay Target Program (SCTP)

The Arizona Game and Fish Department Scholastic Clay Target Program is a team-based youth development program that uses the shotgun sports to instill discipline, safety, teamwork, ethics, self-confidence and

other life values. Team members can participate in any or all three clay target disciplines: trap, skeet and sporting clays. For more information, contact the Shooting Sports coordinator at (623) 236-7305 or visit www.azgfd.gov/sctp.

National Archery in the Schools Program (NASP)

The Arizona Game and Fish Department offers the national Archery in the Schools Program based on a national physical education curriculum introduced in 2003. The core content covers archery, history, safety, techniques, equipment, mental concentration and self-improvement. In addition, the curriculum provides interesting and creative possibilities for integration with core content in social studies, mathematics, visual arts, history and English/language arts. The program provides school PE programs with training, equipment and curriculum to introduce youth to archery. For more information, contact the Archery coordinator at (623) 236-7233 or visit www.azgfd.gov/archery.

Commission-owned Shooting Ranges are Great for Practice

Shooting facilities provide a safe environment to practice for upcoming hunting seasons. Shooting ranges provide shooters with many benefits, including controlled settings, training and education. At a range, shooters at any skill level can practice, sight-in firearms, receive instruction and discover communities of like-minded enthusiasts.

Welcome to Big Game Hunting in Arizona

Arizona has 10 species of wildlife designated as big game by state statute: mule deer, white-tailed deer, pronghorn, elk, turkey, javelina, bighorn sheep, bison, bear, and mountain lion. If you also consider that Arizona is occupied by two recognized subspecies of bighorn sheep (Rocky Mountain and desert) and three subspecies of turkeys (Gould's, Merriam's and Rio Grande), there is ample evidence of the diversity of Arizona's big game, and the opportunities a hunter has to pursue. Most big game hunts have a limited number of permits for which you must be drawn to participate.

Elk and pronghorn application information was provided earlier this year. In fact, the

draw for elk and pronghorn is complete and you should know if you received one of these tags. This knowledge should help you determine if you wish to participate in another hunt, and if so, for which deer, turkey, javelina, bighorn sheep and bison hunts to apply.

The Arizona Game and Fish Commission again authorized fall javelina permits for youth hunters. Youth hunters may wish to apply for a javelina hunt that will complement another deer hunt in which they may participate in this fall. Youth-Only deer hunters in selected units (see Youth-Only deer hunts on page 38) will also be provided the opportunity to purchase over-the-counter companion javelina tags,

allowing these hunters to hunt for deer and javelina at the same time. These hunts are excellent ways to introduce a youth to big game hunting.

Compared with last year, deer permit levels are up slightly, turkey permit levels are the same, and bighorn sheep opportunity has dropped slightly. Youth turkey hunters may purchase a turkey tag over-the-counter and hunt in any unit listed in the Youth-Only section on page 47.

As with any season or upcoming hunt, make sure you do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov/hunting.

Draw Cycles

The Arizona Game and Fish Department conducts three separate application and draw cycles for big game hunt permit-tags. 2007 was the first year the Department held a separate draw for pronghorn antelope and elk. This change was made to let hunters know earlier if they have been drawn for these two popular big game animals. The three draw cycles are:

SPECIES	DRAW DEADLINE
Pronghorn antelope, elk	Second Tuesday in February (pending Commission approval)
Deer, fall turkey, fall javelina, bighorn sheep, fall bison, pheasant	Second Tuesday in June (pending Commission approval)
Spring javelina, spring bear, spring turkey, spring bison	Second Tuesday in October (pending Commission approval)

PLEASE NOTE:

Homeland Security Issues along the International Border may affect the quality of a person's hunt. Call 800-BE-ALERT to report suspicious activity.

Lead and Wildlife

Know the facts and make your own choice

- Lead is a naturally occurring element in the environment and has many beneficial uses. However, it is a known toxin and has been removed from many consumer products like pipes, paint and gasoline.
- Lead has been used in the manufacture of ammunition and fishing tackle for centuries because of its unique properties, availability, performance, and ease and low cost to manufacture.
- Spent ammunition, lost fishing tackle and lead fragments in carcasses and gut piles can be ingested by wildlife. In some cases, these lead sources can cause illness or death in individual animals.
- Birds are the most susceptible to lead toxicity, and population-level effects have been documented in waterfowl and California condors.
- State fish and wildlife agencies have primary responsibility for managing fish and wildlife resources and use the best science to implement focused management solutions when population effects are documented. Educating the public about wildlife issues is part of their mission.
- Hunters and anglers have been the primary supporters of wildlife conservation in North

America since the early 1900s. Collaboration with industry, conservation organizations and shooting-sports interests is also essential to ensuring continued protection of our wildlife resources and conservation heritage.

- Non-lead ammunition and fishing tackle alternatives are becoming more widely available and reasonably priced. Using non-lead alternatives can prevent lead poisoning of individual wildlife and may offer better performance.
- Hunters who choose to use lead ammunition can still help to reduce lead poisoning in scavenging animals by removing the entire game carcass from the field.

Availability

Non-lead ammo alternatives are available for big game, varmint and small game hunting. Non-fragmenting solid copper or copper alloy bullets are now loaded in most hunting calibers. Highly frangible non-lead varmint bullets (compressed copper or tin powder) are available in both centerfire and rimfire cartridges. Non-lead shot (steel, tungsten, and bismuth) is also available.

To learn more about lead and wildlife, visit www.azgfd.gov/lead.

X-ray of prairie dog (top), coyote (center) and a deer (bottom) gut pile. All contain lead bullet fragments that could be ingested by wildlife.

What hunting magazines and Arizona hunters say about solid copper bullets:

"I was very impressed with the bullet's performance, the buck literally dropped in its tracks." – *Kaibab deer hunter*

"Accurate, zero bloodshot, no wasted game meat." – *Kaibab deer hunter*

"I've never seen deadlier performance on game." – *Safari Club International article*

"While their terminal performance is the stuff of legend, they are also capable of remarkable accuracy." – *American Rifleman article*

Motorized Big Game Retrieval on National Forest Lands

All national forests are undergoing or have recently completed travel management planning, which will result in changes to motor vehicle use on national forest lands. The Coconino, Coronado, Kaibab and Prescott national forests have implemented the Travel Management Rule regulations and only allow motorized use on designated roads, trails and areas as identified on a Motor Vehicle Use Map (MVUM).

These maps are available for free at Forest Service offices and electronically for smartphone and mobile devices – instructions are available at each Forest website. The Travel Management rules include restrictions on driving off of designated roads for big game retrieval.

- The South Kaibab National Forest allows for cross-country motorized retrieval of elk in all Game Management Units.

- The Coconino National Forest has restricted motorized retrieval of elk to Game Management Units 6A, 6B and 7, and 8.
- The North Kaibab National Forest allows for cross country motorized travel for retrieval of elk and bison in all Game Management Units.
- The Coronado and Prescott national forests do not allow motorized big game retrieval off the designated road system.

If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please review the information on the appropriate forests' MVUM or contact the national forest(s) for updated information relative to motor vehicle use and motorized big game retrieval, before your hunt starts. Visit <http://www.fs.usda.gov/main/r3/about-region/offices> for contact information.

Hunters can Help Monitor Arizona Deer Health – Submit Deer Heads for CWD Testing

Bring the head of your recently harvested deer to any Game and Fish Department office between 8 a.m. and 5 p.m., Monday through Friday (office addresses are listed on page 3). Department personnel will collect a tissue sample for Chronic Wasting Disease (CWD) testing. **Hunters that are successful in Units 1, 2, 3, 27, 28, and 31 are especially encouraged to submit heads because these units are close to New Mexico, a state that has detected CWD in deer and elk.**

It is best if the head has been kept cool and is submitted within a day of harvest. The head may be placed in a garbage bag for delivery. You will be asked to provide information about your harvested elk (hunt number, permit number, game management unit, and date of harvest) and where you can be reached (phone number) in case the test is positive. No CWD has been detected in Arizona's deer or elk to date.

CWD results can be found here:

Keep CWD out of Arizona

To protect Arizona's deer and elk herds from Chronic Wasting Disease, new regulations have been placed on movement of animal parts into the state.

Hunters are required to take these precautions when hunting deer or elk out-of-state:

- Do not bring the brain, intact skull, or spinal column into Arizona.

The following elk or deer parts harvested out-of-state are OK to bring back into Arizona:

- Boneless portions of meat, or meat that has been cut and packaged;

- Clean hides and capes with no skull or soft tissue attached;
- Antlers, clean skull plates or skulls with antlers attached with no meat or soft tissue remaining;
- Finished taxidermy mounts or products; and
- Upper canine teeth (buglers, whistlers, ivories) with no meat or tissue attached.

CWD is present in the neighboring states of Utah, Colorado, and New Mexico, as well as many other popular hunting destinations for deer and elk. Some states have strict regulations governing carcass movement, so we encourage you to contact the wildlife agency where you travel for any applicable regulations.

To hunt bison in Arizona, you need a valid hunting or combination license and a bison tag. To hunt bison in any season, you must apply for and obtain a hunt permit-tag through the draw.

HOUSE ROCK BISON HUNT SPECIAL NOTE: During the House Rock herd hunts, a significant portion of the herd has moved to the Grand Canyon National Park where hunting is not allowed. Hunters are advised that their ability to successfully harvest a bison may be significantly impacted. As with any hunt, circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from being successful. The Arizona Game and Fish Department and Commission disclaims any responsibility to reissue or replace a permit, to reinstate bonus points, to refund any fees, or to provide any other form of relief. The House Rock bison hunt is considered to be one of the most difficult hunts in the state. Bison can be difficult to locate. Plan on spending the entire season hunting, as an abbreviated hunt will lower your chances of success. Bison hunters must dress and care for their own animals; the Department will not assist. Take time to improve your physical condition. Hunters are often required to walk considerable distances (up to 8 miles) every day over rugged terrain. House Rock hunters should be prepared for remote and primitive conditions. High clearance or four-wheel drive vehicles are recommended. Some portions of House Rock herd area are included in the U.S. Forest Service wilderness system that does not preclude hunter access but does limit their means of transportation and equipment usage. Hunts occurring later in the fall may be affected by snow making access more difficult. Hunters should be prepared for severe winter conditions and low availability of bison. For more information, call the Flagstaff Regional Office at 928-774-5045.

Fair Chase: Hunt Hard, Hunt Fair

Remember the fair chase ethic as new technologies are developed

Fair chase is the ethical, sportsmanlike and lawful pursuit and take of free-range wildlife in a manner that does not give a hunter or an angler improper or unfair advantage over such wildlife.

New technology developments impact almost every aspect of life, and sportsmen may wonder how hunting is affected as new equipment hits the market. Advances in technology are inevitable – there always will be a better way to craft a bow, firearm or ammunition. However in terms of fair chase, the line is drawn when that advancement becomes unlawful or provides sportsmen with an improper or unfair advantage. Take, for example, the smart rifle, drones, and exploding arrow tips in Arizona:

- The smart rifle is unlawful for take by nature of its laser-supported sighting system.
- Unmanned aerial vehicles – drones – are aircraft and subject to the same rules as other aircraft.
- Exploding arrow tips or similar items may not be used in an archery or muzzleloader season because they are considered "explosive devices."

The Arizona Game and Fish Commission plans to monitor and give careful consideration to weigh the fair chase implications of a new technology or practices. The following criteria will be used to evaluate whether a new technology or practice is a fair chase issue:

- A technology or practice that allows a hunter or angler to locate or take wildlife without acquiring necessary hunting and angling skills or competency.
- A technology or practice that allows a hunter or angler to pursue or take wildlife without being physically present and pursuing wildlife in the field.
- A technology or practice that makes harvesting wildlife almost certain and/or the technology or practice prevents wildlife from eluding detection and/or take.

Public support of fair chase and ethical hunting are important to the survival of hunting and angling. These pursuits are the cornerstones of the North American Model of Wildlife Conservation and are the primary source of funding for conservation efforts in North America. The support of fair chase and respect for the traditions of hunting and angling are every sportsman's responsibility.

Mountain Lion Hunts

Mountain Lion Notes:

1. Camp Navajo in Unit 6B is open for mountain lion hunting only to properly licensed hunters holding a valid Camp Navajo hunting permit. A hunter education course is required. For more information on Camp Navajo hunting opportunities go to <https://dema.az.gov/army-national-guard/camp-navajo/garrison-operations/camp-navajo-hunting-information>. Increases in Force Protection may result in hunt cancellations at any time with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters holding these permits will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department.
2. When the number of mountain lions equaling the multiple bag limit for a particular hunt has been reported, that hunt will revert to the statewide bag limit of one (1) lion per calendar year at sundown the Wednesday immediately following. Hunters are responsible for calling 1-877-438-0447 before hunting to determine if the multiple bag limit for their desired hunt unit is still in effect.
3. The U.S. Army Yuma Proving Ground (YPG) is closed to mountain lion hunting except those areas open in accordance with U.S. Army regulations to properly licensed U.S. citizens holding a valid YPG Hunting Program Access Permit and coordinating with YPG Range Control. Access permits are issued at the YPG Visitor Center located at building 2020 at the Wahner E. Brooks Exhibit Park off Imperial Dam Road. Office hours are Monday-Thursday 6:30am to 5:00pm. Hunting access permit applicants must sign a Hold Harmless Agreement, receive a Range Safety Briefing, and undergo an NCIC background check. Furthermore, all firearms must be registered at the visitor center prior to entering YPG. Do not bring the firearms into the visitor center. Due to military activities some hunting areas may be temporarily closed on short notice. Updates will be posted on Facebook at: <https://www.facebook.com/USAYPG>. Population Management Hunts

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (page 120).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department Dec. 31, 2016. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).
- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$13 application fee (residents) or a \$15 application fee (non-residents) (note: one application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.
- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

**Do not include this form with a Hunt Permit-tag Application Form
(See R12-4-115 on page 119)**

Have you:

- Filled in all the blanks?
- Enclosed the \$13 (residents) or \$15 (non-residents) application fee?
- Signed your application?
- Indicated your choice of species?

Wolf or Coyote?

Know the Differences

USFWS

AGFD

An important step in accomplishing reintroduction of the Mexican wolf is to reduce inadvertent illegal shooting of this subspecies. To date, some of these wolves have been shot, and it is probable that some of these shootings were cases of mistaken identity, where the shooter believed the target was a coyote. It may be difficult to distinguish wolves from coyotes, especially when the sighting is brief, the animal is far away, the wolf is a juvenile, or the wolf is in its summer coat. Coyote hunters should exercise extra caution from July to November because wolf pups are active, and their appearance and behavior make them appear like coyotes. You are responsible for identifying your target before shooting.

If you are hunting in or near Unit 1 or 27, or near the United States/Mexico border east of Nogales, please be aware that Mexican wolves may be present. Mexican wolves are protected under the Endangered Species Act. Take, which means “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct,” is generally unlawful, and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000.

KNOW THE DIFFERENCES

Know the Differences

Mexican Wolf (*Canis lupus baileyi*)

- Nose is broad and blocky
- Ears are more rounded and relatively short
- Fur color is very similar to coyotes: grizzled gray, black, rust or buff; not all white or all black
- Legs are longer, giving wolves a more lanky appearance; feet are larger
- Weighs 50–80 pounds
- Sometimes displays curious behavior and may not flee as quickly
- Not all wolves have radio collars
- Front paw is 4 1/2 inches long by 3 1/2 inches wide

Description: Smaller than a northern gray wolf but larger than a coyote. Adults are 70–80 pounds and 30 inches at the shoulder. Adults are 5–5.5 feet long, including a 14- to 17-inch tail. Males are larger than females. Head and feet are large in proportion to body. Small, erect ears with wide tufts of hair that grow out and down are one of the Mexican wolf's most distinctive features. Body color is often mottled or patchy, varying from gray and black to brown and buff.

Habitat: Mid- to high-elevation woodlands, including oak, pinyon pine, juniper, ponderosa pine and mixed conifer forests. Almost all historical records of Mexican wolves in Arizona occurred above 4,500 feet in elevation. Habitat must contain large ungulate prey animals for wolves to thrive.

Coyote (*Canis latrans*)

- Nose is slender and pointed
- Ears are prominent, pointed and relatively long
- Fur color is very similar to wolves: grizzled gray, rust or buff; rarely white or black
- Legs and feet are smaller, more delicate
- Weighs 20–35 pounds
- Usually displays skittish behavior, tends to flee immediately
- Front paw is 2 1/2 inches long by 2 inches wide

Description: Coyotes are on the small side, weighing less than 35 pounds. An adult measures about 21 inches tall at the shoulder, with a total length of up to 49 inches. The coyote looks much like a shepherd dog, the pelage being rather long, heavy and often presenting a shaggy or grizzled appearance. The fur is reddish or tawny gray, sometimes tipped with black. The tail is large and very bushy. Ears are upright, and the slender muzzle is sharply pointed. Seasonal color variation is considerable among coyotes, and immature pelage is grayer and duller than that of an adult.

Habitat: All habitats are occupied, from low desert to montane forest and woodland, but the coyote tends to avoid thickly forested, high elevation areas.

Condor Country: Why Non-lead Ammunition?

Hunters are helping

For the past nine years, 80 to 91 percent of fall hunters have participated in the Department's voluntary lead reduction program by using non-lead ammunition or removing gut piles from the field in the condor's core range.

The hunting community should be proud of this accomplishment, but we still need more help. Please help us prove to our critics that we can solve this problem on our own and that mandatory measures are not needed.

Anyone shooting a firearm in condor range is asked to use non-lead ammunition. If you choose to use lead ammunition, you can still help by removing your entire carcass (including small game, varmints and domestic animals) and gut pile from the field. Local landfills accept and bury animal remains.

Hunters praise non-lead bullets

Copper bullets have superior penetration, are less toxic, and do not fragment like lead. 93 percent of hunters say that non-lead bullets

perform as well as or better than lead bullets on game. Non-lead shot and frangible bullets also are available for varmint and small game hunting.

The Arizona Game and Fish Department and our partners ask you to be part of the solution by using non-lead ammunition when hunting in condor country (Game Management Units 9, 10, 12A, 12B, 13A, and 13B).

These sportsmen's groups ask you to use non-lead ammunition in condor range:

- **Arizona Deer Association**
- **Arizona Elk Society**
- **Arizona Antelope Foundation**
- **Arizona Desert Bighorn Sheep Society**
- **Arizona Chapter of the National Wild Turkey Federation**

Hunters drawn for hunts in condor range will be mailed more information before their hunt.

Lead poisoning is the leading cause of death in condors and the main obstacle to a self-sustaining population. There are currently 73 free-flying condors in Arizona and Utah. At least 28 condors have died from lead poisoning. Several had lead shot and bullet fragments in their digestive tract. More than 450 cases of lead exposure have been documented in the condor population since 1999.

Lead bullet fragments remain in game carcasses and gut piles left in the field by hunters. These X-rays show hundreds of lead fragments (fragments appear bright white in X-ray) in a deer carcass and gut pile. Condors are group feeders, so several birds can ingest fragments from one carcass or gut pile containing lead.

Studies have concluded that lead shot and bullet fragments found in game carcasses and gut piles are the main source of lead in condors. To learn more about the condor program and for a complete list of non-lead ammunition available, visit: www.azgfd.gov/condor.

Lead varmint and small game ammunition also fragments significantly. This x-ray of a coyote illustrates the amount of lead (bright white fragments) left in the carcass. Each spring condor lead exposures increase as they forage on animal remains left in the field by hunters. Hunters can help by either using non-lead ammunition OR removing ALL varmint and small game carcasses from the field.

Welcome to Small Game Hunting in Arizona

Small game hunters in Arizona are very fortunate. Few places in North America offer such a diversity of hunts with lengthy seasons as does Arizona. Within this section are the season dates, bag limits, and other pertinent information necessary to hunt small game and other wildlife. The 2016-17 hunting season is looking good for the small game hunter.

All of our small game species go through boom and bust cycles with varying frequency. Generally, population fluctuations correspond with precipitation patterns. During the past few years, many of our small game populations have suffered ebbs in the cycle. The astute and successful small game hunter keeps a watchful eye on rainfall patterns and increases hunt success by targeting the species or portion of the state where small game populations are most favorable.

Quail and cottontail respond well to rainfall. In some areas these species abound because of increased precipitation, while apparent voids exist in other areas due to the lack of rain. Yet, knowing when rain falls is just as important as knowing where. In the case of quail, Gambel's quail respond to winter rains, scaled quail respond to spring rains, and Mearns' quail respond to summer monsoonal rains. These time-period-specific precipitation patterns affect the hatches and juvenile survival of each species. When precipitation increases during these time periods, these quail populations generally increase as well.

Yet, not all precipitation is good precipitation. In the case of Abert's tree squirrels, an extended period of heavy snows with deep snow pack decreases their overwinter survival because they are forced to feed on less

nutritious pine stems rather than the protein and fat-packed seeds buried under the snow. By watching precipitation patterns across the state, small game hunters can identify those small game species and localities that are likely to provide the best hunting next year.

If you're up for a challenge and want to explore new areas of the state, don't forget about pursuing some of Arizona's other upland game. Chukars, dusky (blue) grouse, and pheasant can take you on an adventure that few others can.

As with any season or upcoming hunt, make sure you do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov/hunting.

Where, When and How Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 33-64 and 78-93). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** manages 16 percent of the state. Call 602-417-9200 for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 118) delineates the rights and privileges of sportsmen and landowners or operators

as regards to state lands. Note that “State Land – No Trespassing” signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see R12-4-110, paragraph I, page 118. The State Land Department is at 602-542-2119.

- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 120.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See below for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 70-77 show hunt unit boundaries, which are described in detail in R12-4-108 on page 114. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 33-64 and 78-93).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 124). For special requirements in state wildlife areas, see R12-4-802 (page 130).

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Arizona state law requires all vehicles and operators to be licensed, registered, insured and properly equipped in order to travel on maintained roads or highways. All roads open to vehicle use by the public on NWRs are categorized as “designated routes of travel” which are “maintained” routes. Therefore all vehicles must be “street legal” in order to travel upon NWRs. Any travel off of these roads is prohibited.
2. Any discharge of a firearm except to take legal game is not permitted.
3. Pits, permanent blinds and stands; trail or scouting cameras; and baiting are prohibited.
4. The use or possession of alcoholic beverages while hunting is prohibited.
5. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day’s hunt.
6. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

More information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge at:

Lake Mead National Recreation Area

1. Hunting is permitted in designated areas of Lake Mead National Recreation Area

and is regulated by state game agencies. Park rangers and state game wardens enforce game regulations. See park hunting maps for designated hunting areas. Be sure to review state hunting regulations for seasons and ensure you possess the appropriate hunting license.

2. A new federal law that allows people who can legally possess firearms under applicable federal, state and local laws, to legally possess firearms is now in effect. It is the responsibility of visitors to understand and comply with all applicable state, local and federal firearms laws before entering this park. Firearms are prohibited in federal buildings where federal employees work. This includes visitors centers, park administrative offices and ranger stations.
3. Target shooting of any kind is prohibited in the park. Shooting is allowed on certain lands managed by the Bureau of Land Management.
4. Motorized vehicles may operate on designated public roadways only and must be licensed and equipped to legally operate on state highways.

Additional information and closure maps are available for review at all ranger stations or can be obtained by writing to: Lake Mead National Recreation Area, Attention: Chief Ranger 601 Nevada Way, Boulder City, NV 89005-2426.

Hunting on Military Reservations

Hunters desiring to hunt on military reservations are advised to contact the specific installation for current regulations prior to going afield. Hunters are also advised that increases in United States Force Protection may result in hunt cancellations at any time and with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters drawn for military reservation hunt permit-tags will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department.

U.S. Army Yuma Proving Ground: U.S. Army Yuma Proving Ground: The U.S. Army Yuma Proving Ground is open to hunting in accordance with U.S. Army regulations to properly licensed U.S. citizens holding a valid YPG Hunting Program Access Permit

and coordinating with YPG Range Control. Hunters drawn for units 41, 43A, or 43B who plan to hunt on YPG must obtain a hunting access permit before entering YPG. Access permits are issued at the YPG Visitor Center located at building 2020 at the Wahner E. Brooks Exhibit Park off Imperial Dam Road. Office hours are Monday-Thursday 6:30 am to 5:00 pm. Hunting access permit applicants must sign a Hold Harmless Agreement, receive a Range Safety Briefing, and undergo an NCIC background check. Furthermore, all firearms must be registered at the visitor center prior to entering YPG. Do not bring the firearms into the visitor center. Due to military activities some hunting areas may be closed. Updates will be posted on Facebook at: <https://www.facebook.com/USAYPG>. For information write: U.S. Army Yuma Proving Ground - Bldg. 307, Attn: Hunting Program, 307 C. Barry M Goldwater Range: Entry into portions of Units 40A, 40B, 46A, and 46B is subject to military closure and requires coordination with the appropriate land management agency for hunting access to Barry M. Goldwater Range (BMGR) and applicable adjacent areas. The BMGR is closed to hunting except open public recreational use areas, as allowed via an authorized entry permit. Bighorn sheep hunters wishing to access or cross additional areas in BMGR East must coordinate with the 56th Fighter Wing Range Management Office. To access the BMGR or Cabeza Prieta National Wildlife Refuge, hunters must sign a hold harmless agreement and obtain an entry permit. More information can be obtained by calling Luke Air Force Base, 56th Fighter Wing RMO at 623-856-9476 or 623-856-8516 or 623-856-8520; the Marine Corps Air Station Yuma at 928-269-7150; the Bureau of Land Management, Phoenix Field Office at 623-580-5500; the Cabeza Prieta National Wildlife Refuge at 520-387-6483; the Gila Bend Air Force Auxiliary Field at 928-683-6200 or by visiting the following websites: <http://www.luke.af.mil/library/factsheets/factsheet.asp?id=5062> and <http://www.luke.af.mil/shared/media/document/AFD-130829-039.pdf>.

Florence Military Reservation: The Florence Military Reservation (training areas B and D: the areas north and south of Cottonwood Canyon Road) in Unit 37B is subject to short term closures due to military operations, including live fire operations, and requires coordination with the Florence Military Reservation for hunting access. For specific closure dates or any other access concerns, contact the Florence Military Reservation at 602-267-2062. A map of the Florence Military Reservation is located on the Arizona Game and Fish Department's website, www.zgfd.gov (type Florence Military Reservation in the search box).

Wilderness Areas

The Wilderness Act of 1984 and the Desert Wilderness Act of 1990 designated large portions of Arizona as wilderness. Hunters should be aware that this may influence their hunt. Except where specifically permitted, all forms of motorized travel are prohibited. Hunters should be prepared for remote and primitive conditions. For additional information regarding wilderness restrictions, hunters should contact the Bureau of Land Management, the U.S. Fish and Wildlife Service, or the U.S. Forest Service, as appropriate for the area of interest.

Bureau of Land Management

Generally, BLM lands in Arizona are open to hunting. Check with the appropriate office for current conditions.

Where, When and How Can You Hunt?

BLM National Monuments: The Grand Canyon-Parashant, Vermilion Cliffs, Sonoran Desert, Ironwood Forest, and Agua Fria National Monuments are open to hunting. Contact the Explore Arizona Outdoor Information Center at 602-417-9300 at the BLM State Office in Phoenix.

Grand Canyon – Parashant National Monument: Parashant National Monument is jointly managed by the Bureau of Land Management (BLM) and the National Park Service (NPS).

Both the BLM lands and NPS lands within Parashant National Monument are open to hunting. However, several NPS regulations differ from those of the BLM. These differences are:

1. Target shooting or the discharge of a weapon except to hunt is not permitted.
2. All motorized vehicles are restricted to established designated roads only (No off-road game retrieval permitted)
3. All motor vehicles must be licensed, insured and equipped to legally operate on state highways (Street Legal)

8. No landing of aircraft on NPS lands or roads.
9. Property (including game cameras) cannot be left unattended longer than 24 hrs. Property left over 24 hours or any unattended property that interferes with visitor safety, orderly management of the park area, or presents a threat to park resources may be impounded at any time.
10. Operating any type of portable motor or engine, or device powered by a portable motor or engine, like RV generators is prohibited.

Special Note: GPS device mapware does not always depict accurate land managing agency policy for roads open for travel. Restrictions are signed and may be gated.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. You may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation. Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a privilege, not a right. Your actions may be the determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be

Where, When and How Can You Hunt?

nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Tree Stands and Blinds

Tree stands and blinds can be effective and legal tools to aid in the taking of wildlife. However, please take into consideration the following before hanging a tree stand or setting a blind:

- It may be unlawful to cut any trees or branches while hanging tree stands or setting blinds.
- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions

Homeland Security

Homeland security issues along the international border may affect the quality of a person's hunt. Call 800-BE-ALERT to reach the U.S. Border Patrol and report suspicious activity.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within 10 days.

Carcass Disposal

Dispose of your carcass discreetly. The Department receives several calls each year reporting the dumping of lawfully taken game. If disposing a carcass in the field, either bury the carcass or place it under a tree away from camping areas and roads. If using a dumpster utilize trash bags or wrap the carcass to reduce the escape of offensive odors.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big game habitat is found on Forest Service lands, the Department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a vehicle, both of which are illegal. A vehicle is any device designed to carry a person: all terrain vehicles, utility terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301B on page 108.

It is illegal to use an aircraft to pursue, shoot, hunt or otherwise take wildlife. See R12-4-319 on page 129.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 33-64 and 78-93). Seasons for all wildlife are closed unless specifically opened by Commission Order. Special restrictions apply on state wildlife areas (see R12-4-802, page 130), as well as at certain times on parks, refuges and similar areas (see pages 96-98).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 103) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, page 125. Other time requirements apply for migratory birds (see Migratory Bird Regulations).

Operation Game Thief: Catching Poachers Since 1979

www.azgfd.gov/thief

Poachers are a serious threat to Arizona's wildlife. Every animal a poacher kills deprives ethical sportsmen and wildlife enthusiasts of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$8,000 may be offered upon arrest in certain cases. Poachers are "thieves stealing from you."

License Revocations and Civil Assessments

The Arizona Game and Fish Commission has the authority to revoke an individual's privilege to take wildlife. It also can bring a civil action against the individual to reimburse the State for the value of any unlawfully taken wildlife. For repeat offenders, the Commission may revoke a person's license to take wildlife for the rest of his or her life. Civil values vary depending on the species of wildlife taken. The current civil assessments range from \$50 – \$8,000.

POACHING IS A CRIME

**– Minimum Rewards –
For information that results in an arrest.**

\$500 Antelope, eagles, bear, bighorn sheep, bison, deer, elk, javelina, mountain lion, turkey, or endangered or threatened wildlife

A minimum of \$50, not to exceed \$150 for cases that involve wildlife not listed above.

Operation Game Thief Needs Your Help CALL TODAY 800-352-0700

A majority of cases are initiated by concerned sportsmen who call the Operation Game Thief hotline. You can and do make a difference! If you witness a violation the following information will assist us during our investigation.

What is the violation?

Where did it occur? Be as specific as possible. It is necessary that our officers return to the site.

When did it occur?

Specific violator/vehicle information. What did the individual look like and what were they wearing? What make, model, and color vehicle were they driving? Record the license plate if possible and, if they left, the direction of travel.

Your name and telephone number. Although this is optional, the number of cases that are actually prosecuted from anonymous tips is very low. This is simply because most people do not know the type of information needed to successfully charge and prosecute a violation. Our officers want to talk with you and will guarantee that no one knows your name. We also want to give you a reward for the information you provided if an arrest is made in the case. Each year we pay out thousands of dollars in reward payments to concerned citizens.

The Operation Game Thief number can be found on your hunting and fishing license or simply program the number into your cellular phone.

Do the right thing, CALL TODAY 800-352-0700

Off-Highway Vehicles

The use of off-highway vehicles (OHVs), specifically utility-type vehicles (UTVs) and all-terrain vehicles (ATVs), by hunters is on the rise. The Arizona Game and Fish Department's Off-Highway Vehicle programs are responsible for promoting safe and ethical use, educating the public, and enforcing laws associated with all OHV use.

OHV rules and laws:

- As of Jan. 1, 2009, an OHV Decal is required for all off highway vehicles. If the OHV meets the two following requirements:
 1. It is made by the manufacturer primarily for travel over unimproved terrain and
 2. Has an unladen weight of 1,800 pounds or less

(If the machine is a "street legal" vehicle and meets these requirements an OHV decal is also needed)
- As of July 1, 2009, all OHVs are required to have a certificate of title. A title can be obtained from the Arizona Department of Transportation Motor Vehicle Division (MVD).
- Motor vehicles are not permitted to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit, R12-4-217).
- OHVs may only be used as a means of travel. It is unlawful to shoot from any OHV, to shoot upon, from, across or into a road or railway.
- It is unlawful to chase or harrass any wildlife with a motorized vehicle.
- If you witness habitat damage or vandalism, report it at 800-VANDALS (826-3257).
- Call Operation Game Thief at 800-352-0700 to report wildlife-related violations.
- Cross-country travel is illegal in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.) Always check with the land management agency. Stay on roads and trails.
- A U.S. Department of Transportation approved helmet that is properly fitted and fastened is required for all riders under the age of 18. This includes dirt bikes, all-terrain vehicles (ATV) and utility-type vehicles (UTV/ROV). (ARS §28-964.A and 28-1179.B).

- All OHVs are required to have a USDA approved spark arrestor device.
- All OHVs are required to have either a muffler or other noise dissipative device that prevents sound above 96 decibels.
- It is unlawful to drive an OHV on roads, trails, routes or areas marked closed by any land management agency or private land owner.
- A person from out-of-state may operate an OHV in Arizona if all of the following apply:
 1. The person is not a resident of this state and
 2. The person owns the vehicle and
 3. The vehicle displays a current OHV sticker/decal/title/registration from the person's state of residence and
 4. The vehicle is not in this state for more than 30 consecutive days

Tips for OHV users:

- Always remember: Nature Rules! Stay on roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.

- It is your responsibility to know applicable OHV laws.
- If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please contact the appropriate national forest(s) for updated information relative to motor vehicle use and motorized big game retrieval, before your hunt starts.
- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone numbers to federal and state land management agencies are on pages 96-98.
- Always be prepared by carrying a basic set of tools and a first-aid kit.

Firearms safety:

- When carrying a rifle or shotgun on an OHV, it should be unloaded and put in a case that is firmly attached to the vehicle.
- Carrying a rifle or shotgun on an ATV's handlebars can significantly impact the operators ability to maintain control of the machine and is strongly discouraged.
- Don't forget T.A.B. +1 – **T**reat every gun as if it were loaded, **A**lways point the muzzle in a safe direction, and **B**e sure of your target and beyond. **+1** Keep your finger outside the trigger guard until ready to shoot.

Clinics, Raffles and Partnerships

Arizona Antelope Foundation

Jaguars: Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling 623-236-7201.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 800-352-0700.

More Information to Know Before You Go

Contact the Department About Damaged Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the Department, however many also are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest Department office at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

- There has been a tremendous increase in the number of cameras, blinds, and tree stands at Department facilities including water developments. Individuals placing cameras, blinds, tree stands, or other personal property on Department facilities do so at their own risk.
- The Department is not liable for damage or theft to property left at Department facilities. For questions call 866-950-2433.

Thank you in advance for your support of Arizona's wildlife.

Common Violations While Hunting Big Game, Small Game And Migratory Birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 800-352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Attracting Wildlife with Unlawful Measures

(R12-4-303 A 2 c) Page 126

Using any lure, attractant, or cover scent containing any cervid (deer) urine to take wildlife is unlawful.

R12-4-303 4, page 126

Using edible or ingestible substances, other than water or salt based products produced for the livestock industry, to aid in the taking of big game is unlawful.

Take Wildlife Without A License

(A.R.S. 17-331) Page 109

In order to take any wildlife in Arizona, you must have the appropriate current hunting or fishing license in your possession. You should check your license every time that you go hunting, fishing or collecting. Also, you should sign your license and tag before hunting.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 16) Page 109

Any wildlife that is unlawfully taken, may not be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 14 and 15) Page 109

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Improper Tagging of Big Game

(R12-4-302) Page 125

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 111

"Resident" means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence, see pages 12 and 108) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction. (Benefits of residency in another state or jurisdiction may include: driver's license, vehicle registrations, resident property tax credits, voting, resident tax returns, or resident licenses to take wildlife outside of Arizona.) Or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11) Page 109, (A.R.S. 17-301 A) Page 108

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by

Commission Order. Review the Commission orders related to the species you are pursuing before leaving home. The use of spotlights attached to a vehicle is illegal if you have any weapons in your vehicle. During certain mountain lion and coyote seasons it is lawful to use artificial light that is unattached to a vehicle. Check the Commission Orders for more details. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing. Examples are leaving all ammunition, arrows and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 108 and 130

No person may take wildlife from a motor vehicle, watercraft or aircraft, except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Take Wildlife With Prohibited Device or By An Unlawful Method

(A.R.S. 17-301 A) Page 108, (A.R.S. 17-309 A) Page 109
(R12-4-303) and (R12-4-304) Page 126

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take migratory game birds with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 109

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 109

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

License Revocation

(A.R.S. 17-340) Page 110

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking, selling, bartering or possession of wildlife
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock or crops while hunting or fishing
- acts of vandalism or littering while hunting or fishing
- knowingly allowing another person to use your big game tag
- unlawful entry on to closed area for purposes of taking wildlife
- unlawful posting of state or federal lands
- license fraud
- unlawful use of aircraft to take wildlife
- waste of game meat
- guiding without a license

Additional convictions may result in license privileges being revoked for longer periods up to permanently.

Civil Liability

(A.R.S. 17-314) Page 109

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums (updated annually factoring in the current Consumer Price Index):

For each turkey or javelina.....	\$500.00
For each bear, mountain lion, antelope or deer, other than trophy	\$1,500.00
For each elk or eagle, other than trophy or endangered species	\$2,500.00
For each predatory, fur-bearing or nongame animal	\$250.00
For each small game or aquatic wildlife animal	\$50.00
For each trophy or endangered species animal	\$8,000.00

Shoot Across Road

(A.R.S. 17-301 B) Page 108

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

Arizona Game and Fish Commission Rules About Hunting

R12-4-110

Posting and Access to State Land

- A. For the purpose of this Section:
- “Corrals,” “feed lots,” or “holding pens” mean completely fenced areas used to contain livestock for purposes other than grazing.
- “Existing road” means any maintained or unmaintained road, way, highway, trail, or path that has been used for motorized vehicular travel, and clearly shows or has a history of established vehicle use, and is not currently closed by the Commission.
- “State lands” means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.
- B. In addition to the prohibition against posting proscribed under A.R.S. § 17-304, a person shall not lock a gate, construct a fence, place an obstacle, or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing.
1. A person in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle unlawfully preventing access to state lands.
 2. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully prevents access to state lands.
 3. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that prevented access to state land.
- C. The provisions of this Section do not allow any person to trespass upon private land to gain access to any state land.
- D. A person may post state lands as closed to hunting, fishing, or trapping without further action by the Commission when the state land is within one-quarter mile of any:
1. Occupied residence, cabin, lodge, or other building; or
 2. Corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes.
- E. The Commission may grant permission to lock, tear down, or remove a gate or close a road or trail that provides legally available access to state lands for persons lawfully taking wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing if access to such lands is provided by a reasonable alternate route.
1. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days.
 2. Applications for permits for more than 30 days shall be submitted to the Commission for approval.
 3. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- F. A person may post state lands other than those referenced under subsection (D) as closed to hunting, fishing, or trapping, provided the person has obtained a permit from the Commission authorizing the closure. A person possessing a permit authorizing the closure of state lands shall post signs in compliance with A.R.S. 17-304(C). The Commission may permit the closure of state land when it is necessary:
1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
 2. To prevent unreasonable destruction of plant life or habitat; or
 3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed

agricultural land, or timber or livestock operations.

- G. A person shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (F), or to close an existing road under subsection (E), as required under R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by a person other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections with the Department, in writing, within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- H. A person may use a vehicle on or off a road to pick up lawfully taken big game animals.
- I. The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- J. State trust land may be posted with signs that read “State Land No Trespassing,” but such posting shall not prohibit access to such land by any person lawfully taking or retrieving wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing.
- K. When hunting, fishing, or trapping on state land, a license holder shall not:
1. Break or remove any lock or cut any fence to gain access to state land;
 2. Open and not immediately close a gate;
 3. Intentionally or wantonly destroy, deface, injure, remove, or disturb any building, sign, equipment, marker, or other property;
 4. Harvest or remove any vegetative or mineral resources or object of archaeological, historic, or scientific interest;
 5. Appropriately mutilate, deface, or destroy any natural feature, object of natural beauty, antiquity, or other public or private property;
 6. Dig, remove, or destroy any tree or shrub;
 7. Gather or collect renewable or non-renewable resources for the purpose of sale or barter unless specifically permitted or authorized by law; or
 8. Frighten or chase domestic livestock or wildlife, or endanger the lives or safety of others when using a motorized vehicle or other means; or
 9. Operate a motor vehicle off road or on any road closed to the public by the Commission or landowner, except to retrieve a lawfully taken big game animal.

- A. A person who lawfully takes and possesses wildlife believed to be diseased, injured, or chemically-immobilized may request an inspection of the wildlife carcass provided:
1. The wildlife was lawfully taken and possessed under a valid hunt permit- or nonpermit-tag, and
 2. The person who took the wildlife did not create the condition.
- B. The Department, after inspection, may condemn the carcass if it is determined the wildlife is unfit for human consumption. The Department shall condemn chemically-immobilized wildlife only when the wildlife was taken during the immobilizing drug's established withdrawal

period.

- C. The person shall surrender the entire condemned wildlife carcass and any parts thereof to the Department.
1. Upon surrender of the condemned wildlife, the Department shall provide to the person written authorization allowing the person to purchase a duplicate hunt permit- or nonpermit-tag.
 2. The person may purchase a duplicate tag from any Department office or license dealer where the permit-tag is available.
- D. If the duplicate tag is issued by a license dealer, the license dealer shall forward the written authorization to the Department with the report required under R12-4-105(K).

R12-4-114

Issuance of Nonpermit-tags and Hunt Permit-tags

- A. The Department provides numbered tags for sale to the public. The Department shall ensure each tag:
1. Includes a transportation and shipping permit as prescribed under A.R.S. §§ 17-332 and 17-371, and
 2. Clearly identifies the animal for which the tag is valid.
- B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
1. A person purchasing a nonpermit-tag shall provide all of the following information to a Department office or license dealer at the time of purchase; the applicant's:
 - a. Name,
 - b. Mailing address, and
 - c. Department identification number.
 2. An applicant shall not obtain nonpermit-tags in excess of the bag limit established by Commission Order when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt permit-tag is required to take the species in that hunt area.
1. A person applying for a hunt permit-tag shall submit an application as described under R12-4-104.
 2. The Department shall determine whether a hunt permit-tag will be issued to an applicant as follows:
 - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number, except as established under subsection (C)(2)(b), for antelope, bear, deer, elk, javelina, and turkey and reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to persons who have bonus points and shall issue the hunt permit-tags as established under subsection (C)(2)(c).
 - b. For antelope, bear, deer, elk, javelina, and turkey, the Department shall reserve one hunt permit-tag for any hunt number with fewer than five, but more than one, hunt permit-tags and shall issue the tag as established under subsection (C)(2)(c). When this occurs, the Department shall adjust the number of available hunt permit-tags in order to ensure the total number of hunt permit-tags available does not exceed the 20% maximum specified in subsection (C)(2)(a).
 - c. The Department shall issue the reserved hunt permit-tags for hunt numbers that eligible applicants designate as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
 - i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next

Arizona Game and Fish Commission Rules About Hunting

eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.

- d. The Department shall ensure that all unreserved hunt permit-tags are issued by random selection:
 - i. First, to hunt numbers designated by eligible applicants as their first or second choices; and
 - ii. Next, to hunt numbers designated by eligible applicants as their third, fourth, or fifth choices.
 - e. Before each of the three passes listed under (C)(2)(c)(i),(ii), and (iii), each application is processed through the Department's random number generator program. A random number is assigned to each application; an additional random number is assigned to each application for each group bonus point, including the Hunter Education and Loyalty bonus points. Only the lowest random number generated for an application is used in the computer draw process. A new random number is generated for each application for each pass of the computer draw.
 - f. If the bag limit is more than one per calendar year, or if there are unissued hunt permit-tags remaining after the random computer draw, the Department shall ensure these hunt permit-tags are available on a first-come, first-served basis as specified in the annual hunt permit-tag application schedule.
- D. A person may purchase hunt permit-tags equal to the bag limit for a genus.
1. A person shall not exceed the established bag limit for that genus.
 2. A person shall not apply for any additional hunt permit-tags if the person has reached the bag limit for that genus during the same calendar year.
 3. A person who surrenders a tag in compliance with R12-4-118 is eligible to apply for another hunt permit-tag for the same genus during the same calendar year, provided the person has not reached the bag limit for that genus.
- E. The Department shall make available to nonresidents:
1. For bighorn sheep and buffalo, no more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any computer draw. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number.
 2. For antelope, antlered deer, bull elk, or turkey, no more than 10%, rounded down to the next lowest number, of the total hunt permit-tags in any hunt number. If a hunt number for antelope, antlered deer, bull elk, or turkey has 10 or fewer hunt permit-tags, no more than one hunt permit-tag will be made available unless the hunt number has only one hunt permit-tag, then that tag shall only be available to a resident.
- F. The Commission may, at a public meeting, increase the number of hunt permit-tags issued to nonresidents in a computer draw when necessary to meet management objectives.
- G. The Department shall not issue under subsection (C)(2)(c), more than half of the hunt permit-tags made available to nonresidents under subsection (E).
- H. A nonresident cap established under this Section applies only to hunt permit-tags issued by computer draw under subsections (C)(2)(c) and (d).

G. A supplemental hunt application submitted in accordance with this Section does not invalidate any other application submitted by the person for a hunt permit-tag.

1. The Department shall not accept a group application, as defined under R12-4-104, for a restricted nonpermit-tag.

2. An applicant shall not apply for or obtain a restricted nonpermit-tag to take wildlife in excess of the bag limit established by Commission Order.
